Louise Hill Curth, 2010 This book is about medical beliefs and practices for animals in early modern England Although there are numerous texts on human health this is the first to focus exclusively on animals during this period For most academics the foundation of the London Veterinary College in 1791 marks the beginning of modern veterinary medicine with the period before unworthy of serious study In fact there is ample evidence of how the importance of animals resulted in a highly complex system of both preventative and remedial care This book is divided into sections which start by setting the scene with an overview of animals in early modern England and the contemporary principles behind health and illness It moves onto an examination of the medical marketplace and printed literature on animal health care followed by an in depth look at preventative and remedial methods It ends by addressing the question of what impact if any new colleges had on veterinary beliefs and practices Book Illustration in the Long Eighteenth Century Christina Ionescu, Renata Schellenberg, 2015-01-12

Hitherto relegated to the closets of art history and literary studies book illustration has entered mainstream scholarship The chapters of this collection offer only a glimpse of where a complete reconfiguration of the visual periphery of eighteenth century texts might ultimately take us The use of the gerund of the verb to reconfigure in the subtitle of this collection instead of the corresponding noun underlines the work in progress character of this interdisciplinary endeavour which aims above all to discern new vistas while charting or revisiting landmarks in the rich field of eighteenth century book illustration The specific interpretive lenses through which contributors to this collection re evaluate the visual periphery of the text cover an array of disciplines and areas of interest among these the most prominent are book history and print culture art history and image theory material and visual culture word and image interaction feminist theory and gender studies history of medicine and technology This spectrum could have been even less restrictive and more colourful if it were not for pragmatic and editorial considerations Nonetheless its plurality of vision provides a framework for an inclusive and multifaceted approach to eighteenth century book illustration Perhaps these essays are most valuable in the practical models they provide on how to tackle the interdisciplinary challenge that is the study of the eighteenth century illustrated book The collection as such is the first formal step in an effort to rethink or reconfigure the visual periphery of eighteenth century texts It has become clear that the study of the illustrated book of the Age of Enlightenment has the potential of yielding multiple findings perspectives and discourses about a society immersed in visual culture skilled in visual communication and reflected in the visual legacy it left behind **Consuming Habits: Global and Historical Perspectives on How Cultures Define Drugs**

and why they change      Consuming Behaviours Erika Rappaport, Sandra Trudgen Dawson, Mark J. Crowley, 2015-07-30 In twentieth century Britain consumerism increasingly defined and redefined individual and social identities New types of consumers emerged the idealized working class consumer the African consumer and the teenager challenged the prominent position of the middle and upper class female shopper Linking politics and pleasure *Consuming Behaviours* explores how individual consumers and groups reacted to changes in marketing government control popular leisure and the availability of consumer goods From football to male fashion tea to savings banks leading scholars consider a wide range of products ideas and services and how these were marketed to the British public through periods of imperial decline economic instability war austerity and prosperity The development of mass consumer society in Britain is examined in relation to the growing cultural hegemony and economic power of the United States offering comparisons between British consumption patterns and those of other nations Bridging the divide between historical and cultural studies approaches *Consuming Behaviours* discusses what makes British consumer culture distinctive while acknowledging how these consumer identities are inextricably a product of both Britain's domestic history and its relationship with its Empire with Europe and with the United States      *Tradition and Innovation in English Retailing, 1700 to 1850* Ian Mitchell, 2016-02-24 Three decades of research into retailing in England from the seventeenth to nineteenth centuries has established a seemingly clear narrative fixed shops were widespread from an early date modern methods of retailing were common from at least the early eighteenth century shopping was a skilled activity throughout the period and consumers were increasingly part of and aware of being part of a polite and fashionable culture All of this is true but is it the only narrative Research has shown that markets were still important well into the nineteenth century and small scale producer retailers co existed with modern warehouses Many shops were not smart The development of modern retailing therefore was a fractured and fragmented process This book presents a reassessment of the standard view by challenging the usefulness of concepts like traditional and modern examining consumption and retailing as inextricably linked aspects of a single process and by using the idea of narrative to discuss the roles and perceptions of the various actors in this process such as retailers shoppers consumers local authorities and commentators The book is therefore structured around some of these competing narratives in order to provide a richer and more varied picture of consumption and retailing in provincial England      **Shaping the Day** Paul Glennie, Nigel Thrift, 2009-02-12 Timekeeping is an essential activity in the modern world and we take it for granted that our lives are shaped by the hours of the day Yet what seems so ordinary today is actually the extraordinary outcome of centuries of technical innovation and circulation of ideas about time *Shaping the Day* is a pathbreaking study of the practice of timekeeping in England and Wales between 1300 and 1800 Drawing on many unique historical sources ranging from personal diaries to housekeeping manuals Paul Glennie and Nigel Thrift illustrate how a particular kind of common sense about time came into being and how it developed during this period Many remarkable figures make their appearance ranging from the well known such as Edmund Halley Samuel Pepys and

John Harrison who solved the problem of longitude to less familiar characters including sailors gamblers and burglars Overturning many common perceptions of the past for example that clock time and the industrial revolution were intimately related this unique historical study will engage all readers interested in how telling the time has come to dominate our way of life

**Literature and the Idea of Luxury in Early Modern England** Alison V. Scott, 2016-05-06 Exploring the idea of luxury in relation to a series of neighboring but distinct concepts including avarice excess licentiousness indulgence vitality abundance and waste this study combines intellectual and cultural historical methods to trace discontinuities in luxury's conceptual development in seventeenth century England The central argument is that as luxury was gradually Englished in seventeenth century culture it developed political and aesthetic meanings that connect with eighteenth century debates even as they oppose their so called demoralizing thrust Alison Scott closely examines the meanings of luxury in early modern English culture through literary and rhetorical uses of the idea She argues that while luxury could and often did denote merely lust or licentiousness as it tends to be glossed by modern editors of contemporary works its cultural lexicon was in fact more complex and fluid than that at this time Moreover that fuller understanding of its plural and shifting meanings as they are examined here has implications for the current intellectual history of the idea in Western thought The existing narrative of luxury's conceptual development is one of progressive upward transformation beginning with the rise of economic liberalism amidst eighteenth century debates it is one that assumes essential continuity between the medieval treatment of luxury as the sin of luxuria and early modern notions of the idea even as social practises of luxury explode in early seventeenth century culture

On Diversity Russell Jacoby, 2020-02-25 A brilliant examination of a timely concept from one of the nation's great public intellectuals Diversity You've heard the term everywhere in the news in the universities at the television awards shows Maybe even in the corporate world where diversity initiatives have become de rigueur But what does the term actually mean Where does it come from What are its intellectual precedents Moreover how

do we square our love affair with diversity with the fact that the world seems to be becoming more and more well homogeneous With a lucid straightforward prose that rises above the noise one of America s greatest intellectual gadflies Russell Jacoby takes these questions squarely on Discussing diversity or lack thereof in language fashion childhood experience political structure and the history of ideas Jacoby offers in plain language a surprising and penetrating analysis of our cultural moment In an age where our public thinkers seem to be jumping over one another to have the latest correct opinion Jacoby offers a most dangerous and liberating injunction to stop and think

Baker,2009-12-03 In early modern England while moralists railed against the theater as wasteful and depraved and inflation whittled away at the value of wages people attended the theater in droves On Demand draws on recent economic history and theory to account for this puzzling consumer behavior He shows that during this period demand itself with its massed acquisitive energies transformed the English economy Over the long sixteenth century consumption burgeoned though justifications for it lagged behind People were in a curious predicament they practiced consumption on a mass scale but had few acceptable reasons for doing so In the literary marketplace authors became adept at accommodating such contradictions fashioning works that spoke to self divided consumers Thomas Nashe castigated and satiated them at the same time William Shakespeare satirized credit problems Ben Jonson investigated the problems of global trade and Robert Burton enlisted readers in a project of economic betterment

**Luxury and Gender in European Towns, 1700-1914** Deborah Simonton,Marjo Kaartinen,Anne Montenach,2014-09-04 This book conceives the role of the modern town as a crucial place for material and cultural circulations of luxury It concentrates on a critical period of historical change the long eighteenth and nineteenth centuries that was marked by the passage from a society of scarcity to one of expenditure and accumulation from ranks and orders to greater social mobility from traditional aristocratic luxury to a new bourgeois and even democratic form of luxury This volume recognizes the notion that luxury operated as a mechanism of social separation but also that all classes aspired to engage in consumption at some level thus extending the idea of what constituted luxury and blurring the boundaries of class and status often in unsettling ways It moves beyond the moral aspects of luxury and the luxury debates to analyze how the production distribution purchase or display of luxury goods could participate in the creation of autonomous selves and thus challenge gender roles
