The Humanities Pandemic Margaret Topping, 2023-07-25 This book explores how the Humanities can play an essential services role in addressing global challenges such as the Covid pandemic In arguing for their contribution alongside that of the Health Sciences it calls for a new critical engagement honest and self reflective from Humanities scholars with the question of how to overcome a fundamental challenge facing universities globally finding a common language and set of cultural assumptions between disciplines as the basis for communication The book looks at the nature of the challenges that can beset collaboration across disciplines and indeed across sectors notably between researchers and the general public and argues for a new Translational Humanities in both the sense of an applied Humanities and a Humanities that can translate itself across disciplines and sectors Crucially too it suggests that it is not narratives such as a pandemic novel or contagion film that successfully engage with contentious debates about the challenges of Covid but rather critically distant texts and thematic contexts that typically place the self in the position of other like travel narratives This book sits at a previously unconsidered intersection between debates around interdisciplinary collaboration and communication theories of intercultural contact and encounter and the role of the Humanities in tackling global issues

Contagious Metaphor Peta Mitchell, 2013-03-14 The metaphor of contagion pervades critical discourse across the humanities the medical sciences and the social sciences It appears in such terms as social contagion in psychology financial contagion in economics viral marketing in business and even cultural contagion in anthropology In the twenty first century contagion or thought contagion has become a byword for creativity and a fundamental process by which knowledge and ideas are communicated and taken up and resonates with Andr Siegfried s observation that there is a striking parallel between the spreading of germs and the spreading of ideas In Contagious Metaphor Peta Mitchell offers an innovative interdisciplinary study of the metaphor of contagion and its relationship to the workings of language Examining both metaphors of contagion and metaphor as contagion Contagious Metaphor suggests a framework through which the emergence and often epidemic like reproduction of metaphor can be better understood

The Forbidden Body Douglas E. Cowan, 2022-05-17 Throughout history the religious imagination has attempted to control nothing so much as our bodies what they are and what they mean what we do with them with whom and under what circumstances how they may be displayed or more commonly how they must be hidden Religious belief and mandate affect how our bodies are used in ritual practice as well as how we use them to identify and marginalize threatening religious Others This book examines how horror culture treats religious bodies that have stepped or been pushed out of their proper place Unlike most books on religion and horror This book explores the dark spaces where sex sexual representation and the sexual body come together with religious belief and scary stories Because these intersections of sex horror and the religious imagination force us to question the nature of consensus reality supernatural horror especially as it concerns the body often shows us the religious imagination at work in real time It is important to note

that the discussion in this book is not limited either to horror cinema or to popular fiction but considers a wide range of material including literary horror weird fiction graphic storytelling visual arts participative culture and aspects of real world religious fear It is less concerned with horror as a genre which is mainly a function of marketing and more with the horror mode a way of storytelling that finds expression across a number of genres a variety of media and even blurs the boundary between fiction and non fiction This expanded focus not only deepens the pool of potential examples but invites a much broader readership in for a swim

Screen Stories Carl Plantinga, 2018-04-06 The way we communicate with each other is vital to preserving the cultural ecology or wellbeing of a place and time Do we listen to each other Do we ask the right questions Do we speak about each other with respect or disdain The stories that we convey on screens or what author Carl Plantinga calls screen stories are one powerful and pervasive means by which we communicate with each other *Screen Stories Emotion and the Ethics of Engagement* argues that film and media studies needs to move toward an approach to ethics that is more appropriate for mass consumer culture and the lives of its citizens Primarily concerned with the relationship between media and viewers this book considers ethical criticism and the emotional power of screen stories that makes such criticism necessary The content we consume from television shows and movies to advertisements can significantly affect our welfare on a personal and societal level and thus this content is subject to praise and celebration or questioning and even condemnation The types of screen stories that circulate contribute to the cultural ecology of a time and place through shared attention they influence what individuals think and feel Plantinga develops a theory of the power of screen stories to affect both individuals and cultures asserting that we can better respond ethically to such media if we understand the sources of its influence on us

The Techne of Giving Timothy C. Campbell, 2017-01-02 Over the last five years corporations and individuals have given more money more often to charitable organizations than ever before What could possibly be the downside to inhabiting a golden age of gift giving That question lies at the heart of Timothy Campbell s account of contemporary giving and its social forms In a milieu where gift giving dominates nearly everything given and received becomes the subject of a calculus gifts from God from benefactors from those who have Is there another way to conceive of generosity What would giving and receiving without gifts look like A lucid and imaginative intervention in both

European philosophy and film theory The *Techne of Giving* investigates how we hold the objects of daily life indeed how we hold ourselves in relation to neoliberal forms of gift giving Even as instrumentalism permeates giving Campbell articulates a resistant *techne* locatable in forms of generosity that fail to coincide with biopower's assertion that the only gifts that count are those given and received Moving between visual studies Winnicottian psychoanalysis Foucauldian biopower and apparatus theory Campbell makes a case for how to give and receive without giving gifts In the conversation between political philosophy and classic Italian films by Visconti Rossellini and Antonioni the potential emerges of a generous form of life that can cross between the visible and invisible the fated and the free *The Skin of the Film* Laura U.

Marks,2000-01-19 Uses Deleuze to explore new ways of looking at intercultural and experimental cinema *Zainichi Cinema* Oliver Dew,2016-11-04 This book examines how filmmakers curators and critics created a category of transnational Korean in Japan *Zainichi Cinema* focussing on the period from the 1960s onwards An enormously diverse swathe of films have been claimed for this cinema of the Korean diaspora ranging across major studio yakuza films and melodramas news reels created by ethnic associations first person video essays and unlikely hits that crossed over from the indie distribution circuit to have a wide impact across the media landscape Today *Zainichi* themed works have never had a higher profile with new works by Matsue Tetsuaki Sai Yoichi and Yang Yonghi frequently shown at international festivals *Zainichi Cinema* argues that central to this transnational cinema is the tension between films with an authorized claim to represent and ambiguous and borderline works that require an active spectator to claim them as images of the Korean diaspora **Ethics**

A Feminist Theory of Refusal Bonnie Honig, 2021-05-11 An acclaimed political theorist offers a fresh interdisciplinary analysis of the politics of refusal highlighting the promise of a feminist politics that does not simply withdraw from the status quo but also transforms it The Bacchae Euripides's fifth century tragedy famously depicts the wine god Dionysus and the women who follow him as indolent drunken mad But Bonnie Honig sees the women differently They reject work not out of laziness but because they have had enough of women's routine obedience Later they escape prison leave the city of Thebes explore alternative lifestyles kill the king and then return to claim the city Their arc of refusal Honig argues can inspire a new feminist politics of refusal Refusal the withdrawal from unjust political and economic systems is a key theme in political philosophy Its best known literary avatar is Herman Melville's Bartleby whose response to every request is I prefer not to A feminist politics of refusal by contrast cannot simply decline to participate in the machinations of power Honig argues that a feminist refusal aims at transformation and ultimately self governance Withdrawal is a first step not the end game Rethinking the concepts of refusal in the work of Giorgio Agamben Adriana Cavarero and Saidiya Hartman Honig places collective efforts toward self governance at refusal's core and in doing so invigorates discourse on civil and uncivil disobedience She seeks new protagonists in film art and in historical and fictional figures including Sophocles's Antigone Ovid's Procne Charlie Chaplin's Tramp Leonardo da Vinci's Madonna and Muhammad Ali Rather than decline the corruptions of politics these agents of refusal join the women of Thebes first in saying no and then in risking to undertake transformative action

History of the Gothic: Twentieth-Century Gothic Lucie Armitt, 2011-01-15 Why at a time when the majority of us no longer believe in ghosts demons or the occult does Gothic continue to have such a strong grasp upon literature cinema and popular culture This book answers this question through exploring some of the ways in which we have applied Gothic tropes to our everyday fears The book opens with The Turn of the Screw a text dealing in the dangers adults pose to children while simultaneously questioning the assumed innocence of all children As our culture becomes increasingly anxious about child safety the uncanny surfaces in the popular imagination in the form of the paedophile or the child murderer At the same time the Gothic has always brought danger home and another key focus of the book lies in the various manifestations undertaken by the haunted house during the twentieth century from the bombed out spaces of the blitz The Demon Lover and The Night Watch to the designer bathrooms of wealthy American suburbia What Lies Beneath Gothic monsters can also be terror monsters and after a discussion of terrorism and atrocity in relation to burial alive the book examines the relationship between the human and the inhuman through the role of the beast monster as manifestation of the evil that resides in our midst The Hound of the Baskervilles and The Birds It is with the dangers of the body that the Gothic has been most closely

associated and during the later twentieth century paranoia attaches itself to skeletal forms and ghosts in the wake of the HIV AIDs crisis Sexuality and as disease is one of the themes of Patrick McGrath s work Dr Haggard s Disease and The Angel and the issue of skeletons in the closet is also explored through Henry James s The Jolly Corner However sexuality is also one of the most liberating aspects of Gothic narratives After a brief discussion of camp humour in the British television drama series Jekyll the book concludes with a discussion of the apparitional lesbian through the work of Sarah Waters *The*
