On Our Way Robert Kastenbaum, 2004-05-20 How do our ideas about dying influence the way we live Life has often been envisioned as a journey the river of time carrying us inexorably toward the unknown country and in our day we increasingly turn to myth and magic ritual and virtual reality cloning and cryostasis in the hope of eluding the reality of the inevitable end In this book a preeminent and eminently wise writer on death and dying proposes a new way of understanding our last transition A fresh exploration of the final passage through life and perhaps through death his work deftly interweaves historical and contemporary experiences and reflections to demonstrate that we are always on our way Drawing on a remarkable range of observations from psychology anthropology religion biology and personal experience Robert Kastenbaum re-visions life's forward looking progress from early childhood bedtime rituals to the many small rehearsals we stage for our final separation Along the way he illuminates such moments and ideas as becoming a corpses person going down to earth or up in flames respecting or abusing and eating the dead coping with too many dead conceiving and achieving a good death undertaking the journey of the dead and learning to live through the scrimmage of daily life fully knowing that Eternity does not really come in a designer flask Profound insightful often moving this look at death as many cultures await it or approach it enriches our understanding of life as a never ending passage

Instincts by Design Ernest Howard Callahan, 2023-09-12 Inside *Instincts by Design* you will discover scientific mysteries of human and animal bodies only creation can explain This fascinating full color book explores the instincts that are necessary for life helpful for growth and necessary for protection *Instincts by Design* will keep readers captivated with answers to questions like these How does a baby know when to inhale and exhale How does a mother's milk change to meet the needs of her baby Why is the instinct to sleep one that we cannot override Why is it important that your tongue is the center of your taste receptors Why is the hunger instinct crucial for survival What instincts help brainless jellyfish hunt and kill their prey Why would God give horses the ability to sleep standing up How do more than 5000 species of birds journey thousands of miles every year The key question for someone doubting there is a God is whether these complex sets of instructions could have appeared without a Programmer *Instincts by Design* is the ProBible resource you will

want to share with family and friends who need more evidence that they are fearfully and wonderfully made by the Almighty God Christian readers will finish this book with an awe of the creative perfectionist God who loves us so much that he did all this for everyone

The Systemic Nature of the Economic Crisis Arturo Hermann, 2015-03-27 The most prominent aspect of the current financial crisis is its systemic character which manifests itself in high levels of inequality rampant unemployment economic and social insecurity and environmental decay This book explores the potential of a pluralistic and interdisciplinary approach for a deeper understanding of the manifold aspects of the economic crisis This book examines the potential of a number of contributions from heterodox economics and psychoanalysis in providing a deeper understanding of these problems The book analyses some of the most debated aspects of the concepts of market democracy and socialism and explores the role of structural ties between economic social and psychological aspects of collective life It also addresses the main economic aspects of the crisis and pays particular attention to a number of structural imbalances and to the psychological interpretation of these phenomena By drawing together approaches from heterodox economics and psychoanalysis this book adopts a pluralist and interdisciplinary approach to the study of these phenomena and manages to overcome the fragmentation so often present in social sciences

The AIDS Notebooks Stephen Schecter, 1990-07-05 This book reflects on the meaning of contemporary life in the light of diverse social reactions to AIDS Drawing on personal interviews with gay men in Montreal newspaper reports government action historical parallels and other social facts the author shows what the AIDS phenomenon can reveal about the nature of current reality Intimate dimensions of experience are explored in order to understand the medical definition of human life the post modern character of the contemporary period and the pervasive influence of technique The social analysis of AIDS is interwoven with personal literary and philosophical reflections that rebound onto the terrain of intimacy allowing us to see what a critical reading of AIDS as a social phenomenon tells us about the elemental dramas of existence of love pain death and sex Represented here is one man's stock taking of his generation's experience exploring the social futures that different reactions to AIDS hold out to us In the tradition of critical thought the book is a contribution to the understanding which rescues life from the absurd

The Feeling of Certainty Nikolay Mintchev, R. D. Hinshelwood, 2017-11-09 This book explores the concept of certainty a term which is widely used in everyday language to designate a psychological experience or feeling but is rarely considered controversial or politically charged The Feeling of Certainty argues that conversely this most ordinary of feelings plays a key role in shaping identity formation social exclusion prejudice and commitment to political causes The authors question what it means for the subject to feel certainty about her or his relationships to self and others From where does the feeling of certainty originate and how does it differ from modes of thought that are open to scepticism about the order of things They draw on a wide range of theories including those of Freud Klein Lacan Wittgenstein Bion and Jung challenging readers to consider the world of ideologies symbols and stereotypes in which certainty is entrenched as well as the inter and intra

psychic processes and defence mechanisms which form the unconscious foundation of the experience of certainty This collection will offer valuable insight to scholars of psychology politics social science and history

The Brutality of Things Lorena Preta, 2019-08-02T00:00:00+02:00 In every psychic experience even in the production of a work of art there exists a nucleus that is impossible to transform It resists any and every action against itself We are used to dealing with these irreducible and radical othernesses by adapting them to our own way of knowing and our experience In reality they make up the ugly material of our living and hence of our humanity We can however transform them in some way without altering their substance but rather organizing them in different configurations which generate new forms Psychoanalysis can aid in this difficult and risky process providing resilient equipment much like a sophisticated spacesuit allowing one to travel the cosmic spaces of psychic life and of human reality without bursting into flames In the actual world we meet with disorganized and fragmentary conflict to which psychoanalysis attempts to answer adopting an open non defensive procedure aiming to widen the field of experience rather than reducing it For this reason the interweaving of various forms of knowledge is necessary in order to link the diverse aspects and levels of psychic and external reality The author examines this theme through the psychoanalytic approach as well as through philosophy science and art and using stories based on personal life and clinical experiences

The Literary Freud Perry Meisel, 2013-10-18 In this book Perry Meisel argues that Freud s texts are properly literary and casts Freud as both literary theoretician and practitioner Here after an introductory reception history of Freud as literature Meisel provides a series of close readings of Freud s major texts that take literary representation as their central focus As for Freud s influence on others it too is structured like a literary history argues Meisel He discusses Freud s influence on modernism Strachey s Standard Edition once again the subject of debate with the recent Penguin retranslations and Freud s influence on Michel Foucault Finally we explore the relationship of Freud and literature Does an understanding of how Freud himself writes and influences help us to read literature and interpret it anew

Death Customs Effie Bendann, 2007 Effie Bendann offers an analytical study of burial rites and associated ideas in Melanesia Australia Northeast Siberia and India This book is divided in two parts Part One looks at the similarities in rites and ideas while Part Two examines the differences Topics include cause of

death mourning purification taboos women's connection with funeral Rites and the cult of the dead *Death, Society, and Human Experience* Robert Kastenbaum, 2009 This landmark text on the sociology of death and dying draws on contributions from the social and behavioral sciences as well as the humanities such as history religion philosophy literature and the arts to provide thorough coverage of understanding death and the dying process The text focuses on both individual and societal attitudes and how they influence both how and when we die and how we live and deal with the knowledge of death and loss Robert Kastenbaum is a renowned scholar in the field who developed one of the world's first death education courses and introduced the first text for this market

War Is Not Inevitable Henri Parens, 2014-07-22 In 1932 Einstein asked Freud Is there any way of delivering mankind from the menace of war Freud answered that war is inevitable because humans have an instinct to self destroy a death instinct which we must externalize to survive But nearly four decades of study of aggression reveal that rather than being an inborn drive destructiveness is generated in us by experiences of excessive psychic pain In *War Is Not Inevitable On the Psychology of War and Aggression* Henri Parens argues that the death instinct based model of aggression can neither be proved nor disproved as Freud's answer is untestable By contrast the multi trends theory of aggression is provable and has greater heuristic value than does a death instinct based model of aggression When we look for causes for war we turn to history as well as national ethnic territorial and or political issues among many others but we also tend to ignore the psychological factors that play a large role Parens discusses such psychological factors that seem to lead large groups into conflict Central among these are the psychodynamics of large group narcissism Interactional conditions stand out hyper narcissistic large groups have in history caused much narcissistic injury to those they believe they are superior to But this is commonly followed by the narcissistically injured group's experiencing high level hostile destructiveness toward their injury perpetrator which in time will compel them to revenge Among groups that have been engaged in serial conflicts wars have followed from this psychodynamic narcissism based cyclicity Parens details some of the psychodynamics that led from World War I to World War II and their respective aftermath and he addresses how major factors that gave rise to these wars must can and have been counteracted In doing so Parens considers strategies by which civilization has and is constructively preventing wars as well as the need for further innovative efforts to achieve that end

The Anatomy of Bereavement Beverley Raphael, 1994-09-01 In this comprehensive book Beverley Raphael describes all the stages of mourning and healing and analyzes how the effects of loss differ at each stage of life Dead Letters to Nietzsche, or the Necromantic Art of Reading Philosophy Joanne Faulkner, 2010-04-28 *Dead Letters to Nietzsche* examines how writing shapes subjectivity through the example of Nietzsche's reception by his readers including Stanley Rosen David Farrell Krell Georges Bataille Laurence Lampert Pierre Klossowski and Sarah Kofman More precisely Joanne Faulkner finds that the personal identification that these readers form with Nietzsche's texts is an enactment of the kind of identity formation described in Lacanian and Kleinian psychoanalysis This investment of their subjectivity guides their understanding

of Nietzsche's project the revaluation of values Not only does this work make a provocative contribution to Nietzsche scholarship but it also opens in an original way broader philosophical questions about how readers come to be invested in a philosophical project and how such investment alters their subjectivity **Toward Artificial Sapience** Rene V. Mayorga, Leonid Perlovsky, 2008 A diverse international set of authors discuss Artificial Computational Sapience and Sapient Systems in this unique and useful volume The reader is guided through the subject in a structured and comprehensive manner that begins with chapters discussing philosophical historical and semiotic ideas about what properties are expected from Sapient Wise systems Following that chapters describe mathematical and engineering views on sapience relating these to philosophical semiotic cognitive and neuro biological perspectives *The Howl of the Whisperers* PATRICIA E. PETERSON, 2011-10-04 This fictional novel parallels a story from World War II a saga based on a band of Navajo Marines called the True Whisperers In this present era there is a small band of select women and men called ATA agents Whisperers hired by the President of the United States These select agents come from different international organizations each bringing unique skills to decipher anything within the global cyber network What they uncover are encrypted plans by a new Al Qaeda terror group founded by their leader Abu Bakr Under the Presidents command their charge is to reveal the heinous plot of terror directed against the USA by Abu Bakr For years this Al Qaeda group has secretly developed home grown terrorist cells within the USA working toward their final goal an unprecedented attack within our contiguous borders using a lethal toxin As leads and clues unfold in different parts of the world these agents follow the cyber footprints to reveal the target sights Each ATA agent brings individual personal reasons for taking this job that adds intrigue to pique the readers interest to unravel how their lives are caught up in this plot It was fortuitous reality that an unparalleled event happened May 2 2011 to mirror the actions and machinations within this fictional sagas plot filled with twists and turns As with historys True Whisperers the American people will never hear about the heroic heights these few men and women reach to preserve our Freedoms The Howl of the Whisperers is silence *The Human Kingdom* Hector J. Ritey, 1984 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com *Keywords for Travel Writing Studies* Charles Forsdick, Zoë Kinsley, Kathryn Walchester, 2019-04-22 *Keywords for Travel Writing Studies* draws on the notion of the keyword as initially elaborated by Raymond Williams in his seminal 1976 text *Keywords A Vocabulary of Culture and Society* to present 100 concepts central to the study of travel writing as a literary form Each entry in the volume is around 1 000 words the style more essayistic than encyclopaedic with contributors reflecting on their chosen keyword from a variety of disciplinary perspectives The emphasis on travelogues and other cultural representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension the aim is to give an overview of each term in its historical and theoretical complexity providing readers with a clear sense of how the selected words are essential to a critical understanding of travel writing Each entry is complemented by an annotated bibliography of five essential items
