Litigation Services Handbook, 2015 Cumulative Supplement Roman L. Weil, Daniel G. Lentz, 2015-04-13 The financial expert's guide to best practices for litigation services. *Litigation Services Handbook* is the litigation bible for accountants, economists, and other financial experts. Newly updated to reflect recent rulings and changes in law and procedure, this uniquely useful guide covers all aspects of litigation services with a focus on investigation throughout. Each chapter is written by an expert in the field and draws upon their institutional knowledge, experience, and techniques to give you a concrete framework for trial preparation, testimony, presentation, deposition, fraud investigation, and more. A wealth of cases illustrates how to prove

damages and gives you real world insight into the entire litigation process from a financial expert's perspective. The discussion includes Sarbanes Oxley implementation, new technological tools, and the practical consideration of court appearances. The need for financial experts to act as witness and consultant to litigating attorneys is growing faster than litigation itself, and it's important for practitioners offering their services to have a firm grasp of the necessary procedures and expectations surrounding effective financial litigation consultation. This guide provides the most up to date case law and best practices financial experts need to know. Understand the accountant's role in litigation. Conduct a thorough investigation that proves damages. Present your testimony accurately, thoroughly, and eloquently. Maintain authority under direct and cross examination. Twenty years ago few certified public accountants or economists offered litigation related services; now a large number devote their practice to this area. As the practice evolves, so do the procedures, tools, and methods. Comprehensive and up to date *Litigation Services Handbook* is the indispensable reference that every practitioner needs to succeed in offering litigation support services. *Litigation Services Handbook, 2016 Cumulative Supplement* Roman L. Weil, Daniel G. Lentz, 2016-04-18. The financial expert's litigation bible updated and expanded. The updated *Litigation Services Handbook* is an indispensable reference for financial experts offering litigation support services. The text is a robust framework for all aspects of the litigation process, written by experts drawing upon years of institutional knowledge, experience, and techniques. It can be used alone or in conjunction with *Litigation Services Handbook Fifth Edition*. A wide variety of cases illustrate important concepts, and in depth actionable coverage spans trial preparation, testimony, deposition, investigation, and more. This update includes the latest procedures and changes to the law, and a discussion on emerging technology explores its impact on the financial expert's practice. Two new chapters have been added to provide additional insight into the accountant's role in litigation; the focus on investigation makes this book a highly practical reference for any practitioner in the field. The increased need for financial witnesses and consultants to litigators has created plentiful opportunity for accountants, economists, and other practitioners. This book provides clear, comprehensive guidance for each step of the litigation process to help practitioners enhance their practice in the courtroom and beyond. Leverage financial expertise to provide litigation support services. Successfully prove damages with effective investigation techniques. Maintain authority while presenting accurate, thorough, and eloquent testimony. Get up to date on new technology and Sarbanes Oxley implementation. Litigation support requires a specific skill set and knowledge base, some of which may fall outside of everyday procedure, and all of which continue to evolve with new procedures, tools, and methods. *Litigation Services Handbook 2016 Cumulative Supplement* provides the most up to date case law and best practices financial experts need to know.
