State Capacity Building in Contemporary China Hiroko Naito, Vida Macikenaite, 2020-03-26 This volume explores the governing mechanism employed by the Chinese Communist Party CCP in the light of state capacity building. It is built on the premise that regime type notwithstanding, boosting state capacity and utilizing it in their political survival is of crucial concern for any political leader. Xi Jinping, who is no exception to this, has called for the necessity to expand state capacity while he aims to centralize the power under the party. This volume stands out as it offers a comprehensive view of Chinese party-state especially under Xi Jinping. The research presented here is built on the analysis of authentic datasets and materials. It examines the CCP's relations with various state organs in the Chinese political system: mainly administrative organs, legislature, the people's congresses, judicial branch, the people's court system, as well as the military, the People's Liberation Army, and state-owned enterprises. This volume attempts to bring China closer to the field of comparative politics, making it a more comparable case.

American Studies of Contemporary China David L. Shambaugh, 2016-09-16 Examines the historical evolution of contemporary China studies in the United States, reflecting the growth and maturation of the field since the Communist Party seized power in 1949.

Health Care Transformation in Contemporary China Jiong Tu, 2018-06-12 This multifaceted book examines the free market reform of the Chinese healthcare system in the 1980s and the more collectivist or socialist counter reforms that have been implemented since 2009 to remedy some of the problems introduced by marketization. The book is based on an ethnographical study in a Chinese county from 2011 to 2012, which investigated local people's experience of healthcare reforms and the various ways in which they have adapted their own behavior to the constraints and opportunities introduced by these reforms. It provides a vivid depiction of the morality and emotionality of people's experiences of the Chinese healthcare system and the myriad frustrations and sometimes desperation it induces, not only among patients with significant health problems and their families, but also healthcare practitioners caught between their desire to do right by their patients and the penalties they personally incur if they do not adhere to institutionalized cost-saving measures. The people's experiences within China's health sector presented reflect many similar experiences in the wider Chinese society. The book is thus a valuable resource for researchers and graduate students interested in China's healthcare reforms and scholars concerned with issues of contemporary Chinese society.

Contemporary China Review [2024 Autumn/Winter Issue] Editors of Contemporary China Review, 2025-01-13 If Winter comes, can Spring be far behind? But this year's winter will probably be long-lasting cold, and it is unknown when spring will come. 2024 can be said to have experienced another extraordinary year, or it can be said to have experienced a year of stormy waves. Because this year's US election can be said to have been like a lever that has moved the entire world. It can be noted that not only Americans but also many Chinese people are looking forward to Trump being called the return of the king. Trump has achieved a true second entry; his second term road to the White House will undoubtedly bring great

changes to the world The question is where will the world change Is it tragedy comedy or farce as I said when Trump took office in his first term in 2017 Or is it Make America Great Again as he said When the Republicans and their supporters celebrate together including those extreme right wingers in the United States and of course white supremacists are extremely exclusive of minority groups such as LGPTQ and will inevitably be highly exclusive of ethnic minorities an independent Chinese scholar far away in Europe said online that China is still the same while the United States is the little under its fur coat The marks on the aristocracy s buttocks are becoming more and more prominent To use Aaron s sentence I hate the Communist Party as much as the Nazis Now it should be said the other way around I hate America first white people first and Christianity first as much as I hate one party dictatorship I hate Trump Putin and Netanyahu as much as Xi Jinping Every word is powerful The world has reached such a divided state or it should be said that it has reached such a state of division Has the ancient Greek philosopher Herodotus words come true If God wants to destroy someone he must first make him crazy What changes will happen in 2025 Let s wait and see *Ethnic Identity of the Kam People in Contemporary China* Wei Wang,Lisong Jiang,2021-07-20 Based on three years of fieldwork in Zhanli a remote Kam Village in Guizhou Province Wang and Jiang explore the complex dynamics between the discursive practices of the local government and the villagers in relation to the reconstruction of Kam identity in response to social change particularly the rise of rural tourism China s profound demographic and socio economic transformation has intensified the dominance of Han culture and language and seriously challenged the traditional cultures in ethnic minority areas The authors draw on multiple empirical sources including in depth interviews with Kam villagers and local officials field observations media discourse local archives and government documents They present an engaging account of the significant compromises that government and villagers have made in relation to ethnic identity in the name of economic development and of the tensions and struggles that characterise the ongoing process of ethnic identity reconstruction Students and researchers in sociolinguistics ethnography and discourse studies especially those with an interest in Chinese discourse and everyone interested in issues around ethnicity minzu issues in China will find this book a valuable resource *The Constitutional Identity of Contemporary China* Han Zhai,2019-12-16 In *The Constitutional Identity of Contemporary China* The Unitary System and Its Internal Logic Han Zhai offers a profound understanding of China s constitutional history with her account of constitutional identity of multi layered states in other parts of the world This book successfully bridges China s constitutional complex and the emerging common theory of constitutional law with methodological innovations In constitutional comparison this work s treatment of the Kingdoms of Spain and the Netherlands provides effective structural and historical analysis This book does not only awaken China s constitutional identity in contemporary scholarship but also presents rich possibilities in the constitutional study and the way we understand a country s fundamental arrangements in its national context *Contemporary China Review* □2024 Spring/Summer Issue□ Journal Editors,2024-07-25 As the Year 2024 has already passed half I sincerely hope and pray for

world peace and for people to live and work in peace But looking ahead I believe the future will still not be peaceful The Russian Ukrainian war is still raging and the people are suffering The Israeli Hamas conflict seems to have no signs of stopping and the US election is surging As I said before the three major divisions facing the world are presented at the same time this year the Russian Ukrainian war is a major division between the democratic and dictatorial camps the US election is a major left right division and the Israeli Hamas conflict has surpassed the left right division and the democracy dictatorship division Is the world heading for doomsday We wait and see

Weapons Of The Rich. Strategic Action Of Private Entrepreneurs In Contemporary China Thomas Heberer, Gunter Schubert, 2020-04-22 This book provides a fresh perspective on the political agency of private entrepreneurs in contemporary China Most Chinese scholarship describes this group as being politically acquiescent due to systematic co optation by the party state This book however argues that private entrepreneurs should be understood and analytically conceptualized as a strategic group that makes use of different formal and informal channels to safeguard and expand its interests though so far it has not challenged the current regime State business relations in contemporary China should thus be understood not in terms of mere clientelism but as a dynamic symbiosis in which private entrepreneurs contribute substantially to policy and institutional change This book is based on several years of comparative empirical fieldwork across China With its rich and unique qualitative data and insights this volume contributes significantly to our understanding of the political behaviour and impact of private entrepreneurs in contemporary China

Rural Policy Implementation in Contemporary China Anna Ahlers, 2014-01-10 At the turn of the millennium the disparities between rural and urban livelihoods underdevelopment and administrative shortcomings in the Chinese countryside were increasingly seen as posing a manifest threat to social harmony and economic and political stability At that time the term three rural problems sannong wenti was coined which defined the main issues of rural life that needed to be targeted by government action agriculture nongye villages nongcun and farmers nongmin In turn with the launch of the 11th Five Year Plan in 2006 a pledge was made to shift the focus of developmental efforts to the long neglected countryside which is still home to half of the Chinese population This book presents an analysis of adaptive local policy implementation in China in the context of the Building of a New Socialist Countryside BNSC policy framework Based on intensive field work in four counties in Fujian Jiangxi Shaanxi and Zhejiang Provinces between 2008 and 2011 it offers detailed analyses of the form and impact of county governments strategic agency at certain stages and within certain fields of the implementation process for example the design of local BNSC programs the steering of project funding implementation and evaluation the establishment of model villages and the management of public participation Further this study illustrates that BNSC is far more than the empty slogan described by many observers when it was launched in 2005 2006 Instead it has already brought about considerable shifts in terms of the process and outcomes of rural policy implementation Altogether the results of this research challenge existing paradigms by showing how against the background of contemporary approaches to

rural development and recent reforms initiated by the central state local bureaucracies strategic agency can actually push forward effective albeit not necessarily optimal policy implementation to some extent which serves the interests of central authorities local implementors and rural residents By tying into the larger debates on China s state capacity and authoritarian adaptability this book enriches our understanding of the inner workings of the Chinese political system As such it will prove invaluable to students and scholars of Chinese politics public policy and development studies more generally
