Contemporary Health Studies:

Contemporary Health Studies Louise Warwick-Booth, Ruth Cross, Diane Lowcock, 2012-07-23 *Contemporary Health Studies An Introduction* provides a lively and accessible introduction to the current issues and key debates in this area. It contains a strong up to date global social scientific focus examining the human experience of health particularly emphasizing its social political and environmental dimensions. The book's diverse content is usefully divided into three main parts. Part one sets the scene looking closely at the definition of health studies and the debates surrounding the concept of health. Part two explores different disciplines underpinning Health Studies including chapters such as sociology psychology anthropology and health promotion. Part three of the book explores the determinants of health and contains chapters on individual factors influencing health policy influences on health public health and the global context of health. Each chapter Opens with a list of key learning outcomes. Contains topical learning tasks. Poses questions for reflection and debate. Provides an in depth case study to summarise the key arguments made. Carefully chosen tables figures and photographs bring the text to life whilst the companion web site offers additional learning resources for both students and lecturers alike. *Contemporary Health Studies An Introduction* is an essential guide for undergraduate health students written by three authors who have a wealth of teaching experience in this subject area. Their book will inspire readers to consider the human experience of health within contemporary global society as it is mediated by individual societal and global contexts. **Contemporary Health Studies**

Louise Warwick-Booth, Ruth Cross, Diane Lowcock, 2021-04-20 *Contemporary Health Studies* provides an accessible introduction to current issues and key debates in understanding and promoting health. Its up to date global focus places a strong emphasis on the social political and environmental dimensions of health. Part One sets the scene by looking closely at the definition of health and outlining the aims and purpose of health studies. Part Two explores the different disciplines that underpin health studies such as sociology psychology anthropology and health psychology incorporating new theoretical frameworks to help readers understand health. Part Three applies this knowledge to address the determinants of health including chapters on individual factors the role of public health the latest policy influences on health and the growing importance of the global context. Each chapter contains contemporary statistics and evidence alongside carefully developed learning features designed to highlight the fundamentals of each topic to apply these to in depth case studies from global antibiotic resistance to the challenge and promise of digital data and to pose questions for reflection and debate. *Contemporary Health Studies* is an essential guide for undergraduate health students written by three authors who have a wealth of teaching experience in this subject area. Congress. House Interstate and Foreign Commerce,1966 Gender, Health and Healthcare Jacqueline H. Watts,2016-03-09 Health status and the experience of working in health care roles are both strongly shaped by gender and although there have been attempts to incorporate gender awareness in both health and

employment policies the significance of gender in these areas continues to be marginalised within public debates and academic discourses Taking a social constructionist perspective Watts considers the ways in which gender impacts upon health in all its elements including access technology professionalisation health promotion and health as an important sector of the labour market She discusses gender as a developing and diversified category exploring ideas about masculinity and the fluidity of gender boundaries in determining individual identity Chapters that follow discuss men s and women s health ideology of gender and health specifically exploring different social norms and ideas about male and female health and the dominant ideological association between femaleness and caring working for health with particular focus on the gendered interplay of caring and curing roles technology and changes to gender health and healthcare health promotion as a gendered activity and finally the importance of introducing an intersectional approach beyond gender to articulate a deeper understanding of health in a postmodern context The concluding chapter draws together these themes to underscore the importance of placing gender at the centre of health and health care delivery to fully take account of both the different life and health experiences of men and women and the gendered dimensions of working in health care
