The Making of Terrorism in Pakistan Eamon Murphy, 2013 This book explains the origins and nature of terrorism in Pakistan and examines the social political and economic factors that have contributed to the rise of political violence there Since 9 11 the state of Pakistan has come to be regarded as the epicentre of terrorist activity committed in the name of Islam The central argument of this volume suggests that terrorism in Pakistan has in essence been manufactured to suit the interests of mundane political and class interests and effectively debunks the myth of Islamic terrorism A logical consequence of this argument is that the most effective way of combating terrorism in Pakistan lies in addressing the underlying political social and economic problems facing the country After exploring the root causes of terrorism in Pakistan the author goes on to relate the historical narrative of the development of the Pakistani state to the theories and questions raised by Critical Terrorism Studies CTS scholars The book will therefore make an important contribution to CTS scholarship as well as presenting an analysis of the many complex factors that have shaped the rise of Pakistani terrorism This book will be of great interest to students of Critical Terrorism Studies Asian history and politics

Security Studies and IR in general **Arguing Counterterrorism** Daniela Pisoiu, 2014-04-03 This book offers a multifaceted analytical account of counterterrorism argumentative speech. Traditionally existing scholarship in this field of research has taken a selective focus on issues and actors concentrating mainly on US state discourse after 9/11. However, this approach ignores the fact that there was counterterrorism speech before 9/11 and that there are other countries and other actors who also actively engage in the counterterrorism discursive field both within and outside of the Western world. Addressing several thematic, chronological and methodological gaps in the current literature, *Arguing Counterterrorism* offers a dynamic perspective on counterterrorism argumentative speech. Over the course of the volume, the authors tackle the following key issues: first, historical and cultural continuity and change; second, the phenomenology of counterterrorism speech, its nature, instrumentalisation, implications and interactions between the various actors involved; the third theme is the anatomy of counterterrorism speech, namely its political, cultural and linguistic constitutive elements. Employing a multi-disciplinary framework, the authors explore these issues through a geographically and historically diverse range of case studies, resulting in a book that broadens the perspective of counterterrorism argumentation analysis. This book will be of much interest to students of critical terrorism studies, counterterrorism discourse analysis, security studies and IR.

Lessons and Legacies of the War on Terror Gershon Shafir, Everard Meade, William J. Aceves, 2013 A decade after 9/11, it is increasingly difficult to deny that terror has prevailed not as a specific enemy but as a way of life. This book examines the social, cultural and political drivers of the war on terror through the framework of a political moral panic.

Terrorism and Policy Relevance James Fitzgerald, Nadya Ali, Megan Armstrong, 2018-11-08 This book explores the interrelationship between terrorism and policy relevance from a range of critical perspectives. In particular, it questions the politics of policy relevance: that is, it interrogates how epistemological and practical pressures to produce policy-relevant research shape prevalent understandings of counterterrorism and vice versa. It also reflects on the Critical Terrorism Studies (CTS) relationship to policy relevance: Should CTS eschew engagement with policy relevance and maintain a position outside the orthodoxy, or are CTS scholars uniquely positioned to offer meaningful alternatives to contemporary counterterrorism practices? Read thus, the question of policy relevance is central to CTS identity and represents an essential juncture as to how associated scholarship might develop into the future.

Huttenbach, Daniel Feierstein, 2009-09-10 This edited volume explores political violence and genocide in Latin America during the Cold War examining this in light of the United States hegemonic position on the continent Using case studies based on the regimes of Argentina Chile Guatemala Peru and Uruguay this book shows how U S foreign policy far from promoting long term political stability and democratic institutions has actually undermined them The first part of the book is an inquiry into the larger historical context in which the development of an unequal power relationship between the United States and Latin American and Caribbean nations evolved after the proliferation of the Monroe Doctrine The region came to be seen as a contested terrain in the East West conflict of the Cold War and a new US inspired ideology the National Security Doctrine was used to justify military operations and the hunting down of individuals and groups labelled as communists Following on from this historical context the book then provides an analysis of the mechanisms of state and genocidal violence is offered demonstrating how in order to get to know the internal enemy national armies relied on US intelligence training and economic aid to carry out their surveillance campaigns This book will be of interest to students of Latin American politics US foreign policy human rights and terrorism and political violence in general Marcia Esparza is an Assistant Professor in Criminal Justice Department at John Jay College of Criminal Justice in New York City Henry R Huttenbach is the Founder and Chairman of the International Academy for Genocide Prevention and Professor Emeritus of City College of the City University of New York Daniel Feierstein is the Director of the Center for Genocide Studies at the Universidad Nacional de Tres de Febrero Argentina and is a Professor in the Faculty of Genocide at the University of Buenos Aires Argentina **Extremisms in Africa Volume 2** Alain

Tschudin, Craig Moffat, Stephen Buchanan-Clarke, Susan Russell, Lloyd Coutts, 2019-06-18 Over the past two decades the rapid emergence and spread of both local and transnational extremist organisations has become a primary source of insecurity in Africa Extremist organisations represent the fluid and variable nature of conflict systems today and are at the heart of some of Africa s most enduring conflicts Moreover the inability of African states to contain the threat of extremism or of heavy handed security responses has led to the loss of thousands of lives displaced millions and deeply impacted the continent s democratisation and development goals This is the second anthology published by Good Governance Africa GGA on the topic

of extremism and political violence in Africa Extremisms in Africa one of the first anthologies of its kind on this topic to be authored and published on the African continent provided an account of how extremist groups arose in Africa and the various ways in which they have harnessed their global agendas to local conflict dynamics and structural challenges enabling them to exploit the grievances of individuals and communities for their cause This anthology Extremisms in Africa Volume 2 looks forward giving special attention to the ways in which emergent trends global geopolitics and conflict dynamics merge to impact upon the African continent To this end we have sought to engage diverse topics ranging from ecological concerns surrounding climate change and migration the implications of such human movement for modern day trafficking and slavery and the roles of women and youth State responses to extremisms on the African continent are not uniform the capacity of individual states to detect identify police investigate and prosecute is highly variable At the most fundamental level extremisms are ripe to arise in contexts where governments are failing especially when democracy is on the wane This anthology identifies some of the most pressing challenges in addressing extremisms today and provides chapters that could offer actionable policy insights to governments and civil society Given the nature of Africa s geopolitical landscape state and security services alone cannot prevent extremism It will take a whole of society approach where government civil society academia communities families and individuals collaborate to better understand the local dynamics of recruitment and radicalisation and develop context specific strategies in response This anthology will hopefully provide practitioners with improved insight into some of the key challenges and potential solutions in preventing extremism while also being of interest to the general reader

Russia's Securitization of Chechnya Julie Wilhelmsen, 2016-10-04 This book provides an in depth analysis of how mobilization and legitimation for war are made possible with a focus on Russia s conflict with Chechnya Through which processes do leaders and their publics come to define and accept certain conflicts as difficult to engage in and others as logical even necessary Drawing on a detailed study of changes in Russia s approach to Chechnya this book argues that re phrasing Chechnya as a terrorist threat in 1999 was essential to making the use of violence acceptable to the Russian public The book refutes popular explanations that see Russian war making as determined and grounded in a sole authoritarian leader Close study of the statements and texts of Duma representatives experts and journalists before and during the war demonstrates how the Second Chechen War was made a legitimate undertaking through the efforts of many A post structuralist reinterpretation of securitization theory guides and structures the book with discourse theory and method employed as a means to uncover the social processes that make war acceptable More generally the book provides a framework for understanding the broad social processes that underpin legitimized war making This book will be of much interest to students of Russian politics critical terrorism studies security studies and international relations
