reports and theses While freely acknowledging their debut to the church growth school the contributors to this volume wish to explore further the premises principles and goals of church growth Firmly convinced that church growth is more than empirical data and effective methods and that there is nothing approaching a complete book of church growth they aim not simply to offer definitive answers but rather to open up fresh lines of inquiry historical experiential methodological and theological Thus while interacting with previous studies the authors view their work as a constructive contribution to the search for a more adequate understanding of church growth patterns Contributors to this volume include Alfred C Krass Harvie M Conn Orlando E Costas John H Yoder Harry R Boer and C Ren Padilla **History of the Christian Church. 1-311. Modern Christianity. The German Reformation A.D. 1517-1530 Philip Schaff, 1888 Spiritual Formation as if the Church Mattered James C. Wilhoit, 2022-03-29 Most books on spiritual formation focus on the individual But spiritual formation is at the heart of the church's whole purpose for existence It must be a central task for the church to carry out Christ's mission in the world This book offers an introduction to spiritual formation set squarely in the local church The first edition has been well received and widely used as a textbook The second edition has been updated throughout incorporates findings from positive psychology and reflects an Augustinian formation perspective Foreword by Dallas Willard **A Bride Adorned: Mary-Church Perichoresis in Modern Catholic Theology** John L. Nepil, 2023-09-28 Starting in the early to mid nineteenth century Catholic theology witnessed a profound retrieval of patristic reflection on the interrelationship of the Virgin Mary and the Church This dynamic reached a doctrinal high point with the declarations of Vatican II and Pope Paul VI concerning Mary as type of the Church and Mother of the Church and it also provided the impetus for further theological exploration of the deeper unity of the Mother of Christ and his mystical body In *A Bride Adorned* John L Nepil examines how this interrelationship has been formulated in modern theology in terms of perichoresis a notion of unconfused reciprocity or interpenetration drawn from Christology and Trinitarian theology first applied to Mary and the Church by the nineteenth century German theologian Matthias Scheeben In the first part of the study Nepil treats the foundations of this formulation outlining its historical background and creative articulation by Scheeben The second part tracks developments of Scheeben's insight in the thought of twentieth century theological luminaries Charles Journet Hans Urs von Balthasar Louis Bouyer and Leo Scheffczyk each of whom distinctively articulate the shared conviction that neither Mary nor the Church can be understood apart from each other The third part draws out the far reaching doctrinal and pastoral implications of this deepened account of the Mary Church relation establishing its vital importance for ongoing theological and ecclesial renewal Through his careful engagement with these figures Nepil shows how Mary and the Church are to be understood as two realizations of a single mystery This vantage on Mary and the Church sheds new light on the vision of the Council Fathers at Vatican II and it charts a course for the Church's flourishing via a return to her Marian heart **Virtue Ecclesiology** John Fitzmaurice, 2017-05-15 Critiquing a paradigm of growth within the church this book contends that the church's growth ethic

should be replaced by one based on virtue Drawing on the work of Sennett Fromm and Hauerwas John Fitzmaurice argues that an approach taking growth to be the overriding task of the church is found to be shallow and risks infantilising the faith it purports to proclaim MacIntyre s proposal for a recovery of a virtue based ethic is examined and interpreted theologically through the concepts of narrative theology community sacraments and sanctification the role of practices in developing virtuous character is central The nature of a virtuous organisation is explored through a lens of organisational psychodynamics this understanding informs a model of church as a community of interpretation Fitzmaurice suggests that it is in and through sacramental practices that the transitional space for these virtues to be formed is created Tracing a similar corrosion of character within secular institutions that have opted for an overriding focus on growth this book offers an alternative based on the formation of corporate as well as individual virtuous character and considers the implications of a virtue based growth ethic on theological education and ministerial formation as well as in terms of public theology and the manner of the church s engagement with society
