Contested Futures Nik Brown, Brian Rappert, 2017-03-02 In a unique volume Contested Futures brings together a group of scholars to examine the relationships

between social action and the future Rather than speculating upon what the future might bring the volume interrogates the metaphors and practices through which the future is mobilized as an object of present day action and agency The book shifts the analytical gaze from looking into the future to looking at the future as a sociological phenomenon in its own right Futures are thus contested in as much as they register differences of interest time frame or organizational and political form Contestation is also evident in the ascendancy of certain discourses languages and metaphors which foreclose some futures whilst facilitating others But futures are far from being simply linguistic abstractions and in fact can often be seen to harden into material entrenchment as expectations become scripted into path dependency and lock in Contested Futures is an invaluable analysis for both academics and policy actors seeking a better understanding of the ubiquity of futures discourse in the context of today s uncertainties

Megaregulation Contested Benedict Kingsbury,David M. Malone,Paul Mertenskötter,Richard B. Stewart,Thomas Streinz,Atsushi Sunami,2019-06-06 The Japan led Trans Pacific Partnership CPTPPA of 2018 is the most far reaching megaregional economic agreement in force with several major countries beyond its eleven negotiating countries also interested Still bearing the stamp of the original US involvement before the Trump era reversal TPP is the first instance of megaregulation a demanding combination of inter state economic ordering and national regulatory governance on a highly ambitious substantive and trans regional scale Its text and ambition have influenced other negotiations ranging from the Japan EU Agreement JEEPA and the US Mexico Canada Agreement USMCA to the projected Pan Asian Regional Comprehensive Economic Partnership RCEP This book provides an extensive analysis of TPP as a megaregulatory project for channelling and managing new pressures of globalization and of core critical arguments made against economic megaregulation from standpoints of development inequality labour rights environmental interests corporate capture and elite governance Specialized chapters cover supply chains digital economy trade facilitation intellectual property currency levels competition and state owned enterprises government procurement investment prescriptions for national regulation and the TPP institutions Country studies include detailed analyses of TPP related politics and approaches in Japan Mexico Brazil China India Indonesia and Thailand Contributors include leading practitioners and scholars in law economics and political science At a time when the WTO and other global scale institutions are struggling with economic nationalism and geopolitics and bilateral and regional agreements are pressed by public disagreement and incompatibility with digital and capital and value chain flows the megaregional ambition of TPP is increasingly important as a precedent requiring the close scrutiny this book presents

Contested World Orders Matthew D. Stephen,Michael Zürn,2019-07-11 World orders are increasingly contested As international institutions have taken on ever more ambitious tasks they have been challenged by rising powers dissatisfied with existing institutional inequalities by non governmental organizations worried about the direction of global governance and even by some established powers no longer content to lead the institutions they themselves created For the first time this volume examines these sources of contestation under a

common and systematic institutionalist framework While the authority of institutions has deepened at the same time it has fuelled contestation and resistance In a series of rigorous and empirically revealing chapters the authors of *Contested World Orders* examine systematically the demands of key actors in the contestation of international institutions Ranging in scope from the World Trade Organization and the Nuclear Non proliferation Regime to the Kimberley Process on conflict diamonds and the climate finance provisions of the UNFCCC the chapters deploy a variety of methods to reveal just to what extent and along which lines of conflict rising powers and NGOs contest international institutions *Contested World Orders* seeks answers to the key questions of our time Exactly how deeply are international institutions contested Which actors seek the most fundamental changes Which aspects of international institutions have generated the most transnational conflicts And what does this mean for the future of world order Revised Laws of Oklahoma, 1910 Oklahoma, 1915 **Access**
