**Contesting Christendom** James L. Halverson, 2007-07-27 The pervasiveness of the Christian religion has long been treated as one of the key features of medieval society. Indeed, Europe in the Middle Ages is often described simply as a Christian culture. Yet what do we mean when we say that medieval Europe was a Christian society and what did it mean to be a Christian in the Middle Ages? These questions are fundamental to any understanding of the Middle Ages, yet the variety of theoretical approaches and conclusions represented in this carefully selected and provocative collection of key works in the field highlights the complexity of the answers. Introducing students to medieval Christianity, James L. Halverson presents a rich array of readings that offers a variety of ways to study the history of religion within a chronological setting. His opening chapter and introductions to each section and selection frame the essays and provide a strong conceptual framework to build upon. Making it clear that scholars have approached religion from many perspectives and used many different methodologies, this collection presents some of the best scholarship of religion as culture and practice, emphasizing the ongoing attempt to understand the social and cultural aspects of medieval Christianity. Contributions by Rudolf Bell, Constance Brittain Bouchard, Peter Brown, Marcus Bull, Caroline Walker Bynum, Mark R. Cohen, Georges Duby, Eamon Duffy, Joan Ferrante, Richard Fletcher, Katherine L. French, Thomas A. Fudge, Herbert Grundmann, James L. Halverson, Karen Louise Jolly, Lester K. Born, Rob Means, Bernd Moeller, Andrew P. Roach, Jane Tibbets Schulenburg, Keith Thomas, and Ian Wood. *Contesting Christendom* James L. *An Analysis of Keith Thomas's Religion and the Decline of Magic* Simon Young,Helen Killick,2017-07-05 Keith Thomas s classic study of all forms of popular belief has been influential for so long now that it is difficult to remember how revolutionary it seemed when it first appeared By publishing Religion and the Decline of Magic Thomas became the first serious scholar to attempt to synthesize the full range of popular thought about the occult and the supernatural studying its influence across Europe over several centuries At root his book can be seen as a superb exercise in problem solving one that actually established magic as a historical problem worthy of investigation Thomas asked productive questions not least challenging the prevailing assumption that folk belief was unworthy of serious scholarly attention and his work usefully reframed the existing debate in much broader terms allowing for more extensive exploration of correlations not only between different sorts of popular belief but also between popular belief and state religion It was this that allowed Thomas to reach his famous conclusion that the advent of Protestantism which drove out much of the superstition that characterised the Catholicism of the period created a vacuum filled by other forms of belief for example Catholic priests had once blessed their crops but Protestants refused to do so That left farmers looking for other ways of ensuring a good harvest It was this Thomas argues that explains the survival of what we now think of as magic at a time such beliefs might have been expected to decline at least until science arose to offer alternative paradigms

Confession and Criminal Justice in Late Medieval Italy Lidia Luisa Zanetti Domingues,2021-08-26 In medieval Italy the practice of revenge as criminal justice was still popular amongst members of all social classes yet crime also was increasingly perceived as a public matter that needed to be dealt with by the government rather than private citizens Confession and Criminal Justice in Late Medieval Italy sheds light on this contradiction through an in depth comparison of lay and religious sources produced in Siena between 1260 and 1330 on criminal justice conflict and violence Confession and Criminal Justice in Late Medieval Italy argues that religious people were an effective pressure group with regards to criminal justice thanks both to the literary works they produced and their direct intervention in political affairs and that their contributions have not

received the attention they deserve It shows that the dichotomy between theories and practices of private and of public justice should be substituted by a framework in which three models or discourses of criminal justice are recognised as present in medieval Italian communes with the addition of a specifically religious discourse based on penitential spirituality Although the models of criminal justice were competing they also influenced each other Reformation and Education

Kopelson,2019-03-12 In the seventeenth century English Atlantic religious beliefs and practices played a central role in creating racial identity English Protestantism provided a vocabulary and structure to describe and maintain boundaries between insider and outsider In this path breaking study Heather Miyano Kopelson peels back the layers of conflicting definitions of bodies and competing practices of faith in the puritan Atlantic demonstrating how the categories of white black and Indian developed alongside religious boundaries between Christian and heathen and between Catholic and Protestant *Faithful Bodies* focuses on three communities of Protestant dissent in the Atlantic World Bermuda Massachusetts and Rhode Island In this puritan Atlantic religion determined insider and outsider status at times Africans and Natives could belong as long as they embraced the Protestant faith while Irish Catholics and English Quakers remained suspect Colonists interactions with indigenous peoples of the Americas and with West Central Africans shaped their understandings of human difference and its acceptable boundaries Prayer religious instruction sexual behavior and other public and private acts became markers of whether or not blacks and Indians were sinning Christians or godless heathens As slavery became law transgressing people of color counted less and less as sinners in English puritans eyes even as some of them made Christianity an integral part of their communities As Kopelson shows this transformation proceeded unevenly but inexorably during the long seventeenth century *The History of Christianity* Dyron B. Daugherty,2019-07-08 Christianity has been accused of being misogynistic pro slavery and anti science and some say it is finally beginning its long decline This book provides an entirely

different side to the stories about this faith Why did Christianity become the largest religion in the world Is it because it was misogynistic pro slavery anti science and set on condemning those who didn t join it This book investigates many of the misconceptions about Christianity and argues that there are good reasons this faith has become the world s largest The book includes chapters on various misconceptions related to the history of Christianity such as the beliefs that Jesus was a meek and mild carpenter the Roman emperor Constantine was insincere in his Christian faith medieval Europe was devoutly Christian and Christianity was anti science Each chapter explores how the historical misconception developed and spread and offers what we now believe to be the historical truth contradicting the fiction Excerpts from primary source documents provide evidence for the historical misconceptions and truths and help readers to respond critically to claims about Christian history

**Vormoderne Macht und Herrschaft** Matthias Becher, Achim Fischelmanns, Katharina Gahbler, 2021-11-15 Die Beitr ge dieses Bandes widmen sich Fragestellungen zu Macht Herrschaft und Geschlechterordnungen in der Vormoderne Eheliche Beziehungen von Herrschenden oder Fragen nach der Funktion und

Stabilität von Herrschaftssystemen werden ebenso unter die Lupe genommen wie das Patriarchat als dauerndes Herrschaftssystem für sich. So bietet der Band sowohl konkrete Einzelfallstudien als auch theoretische Überlegungen zu Machtausübungen und Herrschaftsstrukturen und die kritische Überprüfung von Forschungsansätzen. Er zeichnet so ein hochkomplexes, vielfältiges und teils auch widersprüchliches Bild, das aus vergangenen Macht und Herrschaftskonfigurationen hervorgeht. This volume gathers thirteen contributions from different scientific disciplines that are dedicated to questions of power, domination and gender in pre-modern times. For instance, it examines marital relationships of rulers, questions the function and stability of ruling systems and investigates patriarchy as an enduring ruling system as such. Thus, the volume offers individual case studies as well as theoretical reflections on the exercise of power and structures of domination and then also takes a critical look on research approaches. It presents a highly complex, diverse and sometimes contradictory picture of power and domination. In conclusion, it offers, with reference to volume 11 of the publication series *Macht und Herrschaft*, critical reflections, outlines, joining ideas and thus gives valuable suggestions for future investigations of power, domination and gender in a transcultural perspective.

**La dignità personale dell'embrione umano nella luce dell'Istruzione Dignitas personae** Adrian Magdici, 2014-10-15. La nostra ricerca condotta nella luce dell'Istruzione Dignitas personae è basata su argomenti scientifici, filosofici e teologici. Ha cercato di argomentare a che la dignità della persona umana, pur non sfuggendo del tutto ad un'analisi puramente razionale, meglio fondata in prospettiva teologica e segnatamente cristologica, è che una lettura strettamente biomorfica dell'essere umano non ci permette di rendere conto in modo adeguato delle dimensioni trascendenti della persona e infine a che ogni essere umano, incluso l'embrione umano sano o difettivo, persona nel senso boeziano del termine. A nostro avviso, dunque, l'identità personale dell'embrione umano, presupposta dall'insegnamento di Dignitas personae, pur potendo essere intuita in teoria, anche in un contesto puramente filosofico, in realtà ha bisogno di essere illuminata dalla cristologia e liberata dalla trappola del naturalismo imperante per venire adeguatamente proclamata e difesa.
