Dionysian Imagery In Fifth Century Athens Oxford Monographs On Classical Archaeology:

Dionysian Imagery in Fifth-century Athens Thomas H. Carpenter, 1997 Dionysian Imagery in Fifth Century Athens is a response to the question What can surviving visual sources reveal about fifth century Attic perceptions of Dionysos In this sequel to his book Dionysian Imagery in Archaic Greek Art 1986 Thomas Carpenter defines a methodology for using ancient Greek imagery as evidence for cultural and religious activity based on an empirical rather than theoretical approach Red figure vases provide the richest source of Dionysian iconography but the significant volume of evidence supplied by architectural sculpture coins and the theatre also demands attention The conclusions that Carpenter draws from his extensive study challenge commonly held views about the meaning of Dionysian imagery women depicted with the god in red figure vase scenes are demonstrated to be semi divine nymphs rather than human maenads and cannot be seen as evidence for maenadic practices in Attic cults although many fifth century depictions are mock heroic the Dionysos of the comic theatre is never represented nor is the god ever dressed in feminine clothing It is also argued that the introduction of accessories associated with ecstatic worship in Dionysian scenes can be explained with reference to narratives rather than attributed to cult practices While seeking to unravel the important social and cultural implications of this religious imagery Carpenter takes care to point out the problems inherent in the evidence available for scrutiny Dionysian imagery in archaic Greek art Thomas H. Carpenter, 1990 The Late Mannerists in Athenian Vase-painting Thomas Mannack, 2001 The Late Mannerists were Athenian vase painters working in the fifth century BC They specialized in shapes used during the symposium and had a particular flair for story telling Their unusual style of painting combines elements of the Late Archaic period with characteristics of the Classical period This is a richly illustrated study of the workshop **Sotades** Herbert Hoffmann, 1997 In this book the author explores the work of the fifth century BC Athenian vase painter Sotades one of the most familiar names in vase painting Previous scholarship has dealt mainly with questions of attribution style and iconographic interpretation but Dr Hoffman concentrates on inherent meaning what does the imagery of these decorated vases really signify He argues that contrary to widely held conceptions there is an underlying unity of meaning in Greek vases and their imagery a unity rooted in the religious beliefs and ritual practices of the society from which they spring Each chapter discusses a specific aspect of the artist's iconology placing it in the context of fifth century BC Greek philosophical and religious thought **Chryselephantine Statuary in the Ancient Mediterranean World** Kenneth D. S. Lapatin, 2001 Composite statues of gold chrysolite ivory elephas and other precious materials were the most celebrated artworks of classical antiquity Greek and Latin authors leave no doubt that such images provided a centrepiece for religious and civic life and that vast sums were spent to produce them A number of these statues were the creations of antiquity's most highly acclaimed artists Polykleitos Alkamenes Leochares and of course Pheidias whose magnificent Zeus Olympios came to be ranked among the Seven Wonders of the World Although a few individual images such as Pheidias Athena Parthenos have been the subject

of detailed scholarly analysis chryselephantine statuary as a class from the exquisite statuettes of Minoan Crete to the majestic temple images constructed by classical Greek city states and imitated by the Romans has not received comprehensive study since 1815 This book presents not only the ancient literary and epigraphical evidence for lost statues and examines representations of them in other media but also assembles and analyses much neglected physical survivals elucidating throughout the innovative techniques such as ivory bending employed in their production as well as the variety of social religious and political roles they played within the ancient societies that produced them

Consumerism in the Ancient World Justin St. P. Walsh, 2013-11-26 Greek pottery was exported around the ancient world in vast quantities over a period of several centuries This book focuses on the Greek pottery consumed by people in the western Mediterranean and trans Alpine Europe from 800 300 BCE attempting to understand the distribution of vases and particularly the reasons why people who were not Greek decided to acquire them This new approach includes discussion of the ways in which objects take on different meanings in new contexts the linkages between the consumption of goods and identity construction and the utility of objects for signaling positive information about their owners to their community The study includes a database of almost 24 000 artifacts from more than 230 sites in Portugal Spain France Switzerland and Germany This data was mapped and analyzed using geostatistical techniques to reveal different patterns of consumption in different places and at different times The development of the new approaches explored in this book has resulted in a shift away from reliance on the preserved fragments of ancient Greek authors descriptions of western Europe remains of monumental buildings and major artworks and toward investigation of social life and more prosaic forms of material culture

Religion in ancient Greece had a strong public character and within this public religion there were special cults mysteries
This welcome volume showcases new research on the archaeology ritual and history of Greek mystery cults **Unwritten Rome** T. P. Wiseman,2022-04-01 In Unwritten Rome a new book by the author of Myths of Rome T P Wiseman presents us with an imaginative and appealing picture of the early society of pre literary Rome as a free and uninhibited world in which the arts and popular entertainments flourished This original angle allows the voice of the Roman people to be retrieved empathetically from contemporary artefacts and figured monuments and from selected passages of later literature How do you understand a society that didn't write down its own history That is the problem with early Rome from the Bronze Age down to the conquest of Italy around 300 BC The texts we have to use were all written centuries later and their view of early Rome is impossibly anachronistic But some possibly authentic evidence may survive if we can only tease it out like the old story of a Roman king acting as a magician or the traditional custom that may originate in the practice of ritual prostitution This book consists of eighteen attempts to find such material and make sense of it **Gnomon** ,2000
