Directed by Allen Smithee Jeremy Braddock, Stephen Hock, 2001 Allen Smithee specializes in the mediocre He is versatile He is prolific And he doesn't exist From 1969 until 1999 Allen Smithee was the pseudonym adopted by Hollywood directors when they wished not to be associated with films ostensibly of their making Encompassing over fifty films of various stripes B movies sequels music videos made for TV movies Smithee's three decades of work affords the authors of this volume a unique opportunity to reassess the claims of auteurism both in its traditional guise and in the more commodified form it currently assumes Sometimes treating Smithee as an auteur in much the same way critics and scholars have treated directors as diverse as Douglas Sirk Abbas Kiarostami and Quentin Tarantino the contributors reclaim new possibilities for auteurist filmmaking and film studies even as they show what an empty display it has recently become In accounting for this change the essays in this volume employ innovative theories of authorship to recapture the subversive effect that auteurism once enjoyed Thus the Smithee name becomes part of a larger discussion of the economics and history of pseudonyms in filmmaking notably in the blacklist of the 1950s as well as an opportunity to employ Jacques Derrida's theory of the signature to recover obscured economic and historic contexts within Smithee's films Unique in its focus innovative in its approach Directed by Allen Smithee argues that it is precisely through throwaway films such as Smithee's that recent Hollywood cinema can best be studied

Hollywood's Artists Virginia Wright Wexman, 2020-07-21 Today the director is considered the leading artistic force behind a film The production of a Hollywood movie requires the labor of many people from screenwriters and editors to cinematographers and boom operators but the director as author of the film overshadows them all How did this concept of the director become so deeply ingrained in our understanding of cinema In Hollywood's Artists Virginia Wright Wexman offers a groundbreaking history of how movie directors became cinematic auteurs that reveals and pinpoints the influence of the Directors Guild of America DGA Guided by Frank Capra's mantra one man one film the Guild has portrayed its director members as the creators responsible for turning Hollywood entertainment into cinematic art Wexman details how the DGA differentiated itself from other industry unions focusing on issues of status and creative control as opposed to bread and butter concerns like wages and working conditions She also traces the Guild's struggle for creative and legal power exploring subjects from the language of on screen credits to the House Un American Activities Committee's investigations of the movie industry Wexman emphasizes the gendered nature of images of the great director demonstrating how the DGA promoted the idea of the director as a masculine hero Drawing on a broad array of archival sources interviews and theoretical and sociological insight Hollywood's Artists sheds new light on the ways in which the Directors Guild of America has shaped the role and image of directors both within the Hollywood system and in the culture at large
