The Innovation Delusion Lee Vinsel, Andrew L. Russell, 2020-09-08 Innovation is the hottest buzzword in business But what if our obsession with finding the next big thing has distracted us from the work that matters most The most important book I ve read in a long time It explains so much about what is wrong with our technology our economy and the world and gives a simple recipe for how to fix it Focus on understanding what it takes for your products and services to last Tim O Reilly founder of O Reilly Media It s hard to avoid innovation these days Nearly every product gets marketed as being disruptive whether it s genuinely a new invention or just a new toothbrush But in this manifesto on the state of American work historians of technology Lee Vinsel and Andrew L Russell argue that our way of thinking about and pursuing innovation has made us poorer less safe and ironically less innovative Drawing on years of original research and reporting *The Innovation Delusion* shows how the ideology of change for its own sake has proved a disaster Corporations have spent millions hiring chief innovation officers while their core businesses tank Computer science programs have drilled their students on programming and design even though the overwhelming majority of jobs are in IT and maintenance In countless cities suburban sprawl has left local governments with loads of deferred repairs that they can t afford to fix And sometimes innovation even kills like in 2018 when a Miami bridge hailed for its innovative design collapsed onto a highway and killed six people In this provocative deeply researched book Vinsel and Russell tell the story of how we devalued the work that underpins modern life and in doing so wrecked our economy and public infrastructure while lining the pockets of consultants who combine the ego of Silicon Valley with the worst of Wall Street s greed The authors offer a compelling plan for how we can shift our focus away

from the pursuit of growth at all costs and back toward neglected activities like maintenance care and upkeep For anyone concerned by the crumbling state of our roads and bridges or the direction our economy is headed The Innovation Delusion is a deeply necessary reevaluation of a trend we can still disrupt

Rape and the Criminal Trial Anna Carline, Clare Gunby, Jamie Murray, 2020-03-23 This book explores the shortcomings of the criminal justice system's response to sexual violence Despite a plethora of legal and policy reforms concerns remain regarding the conviction rates for rape and the extent to which cases fall out of the system Ample research has highlighted the ongoing impact of rape myths and the presence of an implementation gap whereby policies provisions and measures proposed in order to improve the system's response are frequently not brought into practice nor utilised as expected Rape and the Criminal Trial proposes a move beyond representational theory and towards New Materialism and affects a school of thought which emphasises the importance of embodiment and the ontological intensive regime as necessary in order to generate radical new approaches for understanding this problematic status quo and in order to move forward to the production of more effective solutions

Marketing Death Cheris Shun-ching Chan, 2012-03-22 How do companies sell life insurance in a country where death is a taboo subject In Marketing Death Cheris S C Chan explores both how and why the life insurance industry has managed to emerge in China a country with an entrenched cultural stigma against the very topic of death Drawing on extensive ethnographic fieldwork and engaging with current scholarship Chan explores the processes and micro politics by which foreign and domestic companies have negotiated local cultural resistance and created a market in spite of it In doing so she asks larger questions about how different societies view and value life and death what is meant by cultural values how they interact with a set of fragmented cultural tools to compellingly organize individuals practical daily lives and how the market is influenced by them Chan tells a story not just of the emergence of the Chinese life insurance industry but of the dynamic relationships between culture and markets local norms and foreign influences in one of the world's fastest growing economies Marketing Death is the first book to offer a sociological analysis of the emergence of a life insurance market outside of a European or American context Through in depth study of the expansion of an industry whose unique product gambling on one's own sudden death has always met with a measure of resistance but never more so than in China Chan provides a new lens for understanding how modern capitalist enterprises are diffused to regions with disparate cultural traditions

Sex Work and Human Dignity Stewart Cunningham, 2020-11-02 The notion of human dignity is frequently yet enigmatically invoked in legal and political debates on sex work where many people use it without much elaboration on
