Dirty Linen Couples As Seen Through Their Laundry Material Culture:

Tangled Mobilities Asuncion Fresnoza-Flot, Gracia Liu-Farrer, 2022-07-08 The emotional social and economic challenges faced by migrants and their families are interconnected through complex decisions related to mobility Tangled Mobilities examines the different crisscrossing and intersecting mobilities in the lives of Asian migrants their family members across Asia and Europe and the social spaces connecting these regions In exploring how the migratory process unfolds in different stages of migrants lives the chapters in this collected volume broaden perspectives on mobility offering insight into the way places affects and personhood are shaped by and connected to it Wild Things Judy Attfield, 2020-08-20 What do things mean What does the life of everyday objects reveal about people and their material worlds Has the quest for the real thing become so important because the high tech world of total virtuality threatens to engulf us This pioneering book bridges design theory and anthropology to offer a new and challenging way of understanding the changing meanings of contemporary human object relations The act of consumption is only the starting point of object s lives Thereafter they are transformed and invested with new meanings and associations that reflect and assert who we are Defining designed things as things with attitude differentiates the highly visible fashionable object from ordinary aretefacts that are too easily taken for granted Through case studies ranging from reproduction furniture to fashion and textiles to clutter the author traces the connection between objects and authenticity ephemerality and self identity Beyond this she shows the materiality of the everyday in terms of space time and the body and suggests a transition with the passing of time from embodiment to disembodiment **Home Possessions** Daniel Miller, 2021-07-30 Although so much of the life we care about takes place at home this private space often remains behind closed doors and is notoriously difficult for researchers to infiltrate We may think it is just up to us to decorate transform and construct our homes but in this book we discover a new form of estate agency the active participation of the home and its material culture in the construction of our lives What do the possessions people choose to take with them when moving say about who they are and should we emphasize the mobility of a move or the stability of what movers take with them How is the home an active partner in developing relationships Why are our homes sometimes haunted by ghosts This intriguing book is a rare behind the scenes expos of the domestic sphere across a range of cultures Examples come from working class housewives in Norway a tribal society in Taiwan a museum in London tenants in Canada and students from Greece to produce a genuinely comparative perspective based in every case on sustained fieldwork So Japan long thought to be a nation that idealizes uncluttered simplicity is shown behind closed doors to harbour illicit pockets of disorganization while the warmth inside Romanian apartments is used to expel the presence of the state Representing a vital development in the study of material culture this book clearly shows that we may think we possess our homes but our homes are more likely to possess us Material Culture and (Forced) Migration Friedemann Yi-Neumann, Andrea Lauser, Antonie Fuhse, Peter J. Bräunlein, 2022-02-17 Material Culture and Forced Migration argues that

materiality is a fundamental dimension of migration During journeys of migration people take things with them or they lose find and engage things along the way Movements themselves are framed by objects such as borders passports tents camp infrastructures boats and mobile phones This volume brings together chapters that are based on research into a broad range of movements from the study of forced migration and displacement to the analysis of retirement migration What ties the chapters together is the perspective of material culture and an understanding of materiality that does not reduce objects to mere symbols Centring on four interconnected themes temporality and materiality methods of object based migration research the affective capacities of objects and the engagement of things in place making practices the volume provides a material culture perspective for migration scholars around the globe representing disciplines such as anthropology sociology contemporary archaeology curatorial studies history and human geography The ethnographic nature of the chapters and the focus on everyday objects and practices will appeal to all those interested in the broader conditions and tangible experiences of migration

Indians could become French through religion language and culture This fluid and mutable conception of identity carried a risk while Indians had the potential to become French the French could themselves be transformed into Indians French officials had effectively admitted defeat of their policy by the time Louisiana became a province of New France in 1682 But it was here in Upper Louisiana that proponents of French Indian intermarriage finally claimed some success with Frenchification For supporters proof of the policy s success lay in the appearance and material possessions of Indian wives and daughters of Frenchmen Through a sophisticated interdisciplinary approach to the material sources Wild Frenchmen and Frenchified Indians offers a distinctive and original reading of the contours and chronology of racialization in early America While focused on Louisiana the methodological model offered in this innovative book shows that dress can take center stage in the investigation of colonial societies for the process of colonization was built on encounters mediated by appearance

System Innovation and the Transition to Sustainability Boelie Elzen, Frank W. Geels, Kenneth Green, 2004-01-01 Modern societies face several structural problems such as transport congestion and greenhouse gas emissions due to the widespread use of fossil fuels To address these important societal problems and achieve sustainability in the broad sense major transformations are required but this poses an enormous challenge given the complexity of the processes involved Such transformations are called transitions or system innovations and involve changes in a variety of elements including technology regulation user practices and markets cultural meaning and infrastructure This book considers two main questions how do system innovations or transitions come about and how can they be influenced by different actors in particular by governments The authors identify the theories which can be used to conceptualise the dynamics of system innovations and discuss the weaknesses in these theories They also look at the lessons which can be learned from historical examples of transitions and highlight the instruments and policy tools which can be used to stimulate future system innovations towards sustainability The expert contributors address these questions using insights from a variety of different disciplines including innovation studies evolutionary economics the sociology of technology environmental analysis and governance studies The book concludes with an extensive summary of the results and practical suggestions for future research This important new volume offers an interdisciplinary assessment of how and why system innovations occur It will engage and inform academics and researchers interested in transitions towards sustainability and will also be highly relevant for policymakers concerned with environmental issues structural change and radical innovation

Ince, Sarah Marie Hall, 2017-09-05 The new sharing economy is a growing phenomenon across the Global North It claims to transform relationships of production and consumption in a way that can improve our lives reduce environmental impacts and reduce the cost of living Amidst various economic environmental and other crises this message has strong resonance Yet it is not without controversy and there have been heated debates over negative dimensions for workers and consumers alike This book stretches far beyond the sharing economy as it is popularly defined and explores the complex intersections of sharing and the economy and how a better understanding of these relationships might help us address the multiple crises that confront contemporary societies The contributors to this book explore a wide diversity of sharing systems and practices from various empirical case studies ranging from hospitality to seed swapping and from indigenous land rights to alcohol consumption In each chapter a different crisis or vulnerability frames and shapes the study allowing contributors to unpick the ways in which crisis and sharing relate to each other in real life The book is divided into three thematic sections Following an extended introduction to the themes and ideas of the book by the editors the first section foregrounds the shaping of sharing practices by already existing or anticipated crises The second section focuses on the lived relations between sharing and economic practice In the third section authors conclude the book by exploring the possibilities and challenges for creating alternative economic forms grounded in practices of sharing This edited volume makes a major original contribution towards academic understandings of sharing economies in the context of crises It is suitable for both students and academics who are interested in political economy economic geography and consumption
