The Right to Research Kate Reed,Marcia C. Schenck,2023-01-15 Refugees and displaced people rarely figure as historical actors and almost never as historical narrators We often assume a person residing in a refugee camp lacking funding training social networks and other material resources that enable the research and writing of academic history cannot be a historian because a historian cannot be a person residing in a refugee camp The Right to Research disrupts this tautology by featuring nine works by refugee and host community researchers from across Africa Europe and the Middle East Identifying the intrinsic challenges of making space for diverse voices within a research framework and infrastructure that is inherently unequal this edited volume offers a critical reflection on what history means who narrates it and what happens when those long excluded from authorship bring their knowledge and perspectives to bear Chapters address topics such as education in Kakuma Refugee Camp the political power of hip hop in Rwanda women migrants to Yemen and the development of photojournalism in Kurdistan Exploring what it means to become a researcher The Right to Research understands historical scholarship as an ongoing conversation one in which we all have a right to participate

Schooling and the Politics of Disaster Kenneth J. Saltman,2010-06-10 Schooling and the Politics of Disaster is the first volume to address how disaster is being used for a radical social and economic reengineering of education From the natural disasters of the Asian tsunami and the hurricanes in the Gulf Coast to the human made disasters

in Iraq Afghanistan Haiti Sudan Indonesia the United States and around the globe disaster is increasingly shaping policy and politics This groundbreaking collection explores how education policy is being reshaped by disaster politics Noted scholars in education and sociology tackle issues as far ranging as No Child Left Behind the War on Terror Hurricane Katrina the making of educational funding crises in the US and the Iraq War to bring to light a disturbing new phenomenon in educational policy

Sword & Salve Peter J. Hoffman, Thomas G. Weiss, 2006-03-03 Arguing forcefully that changing times are a clarion call for new thinking this book convincingly shows that if humanitarian organizations continue to operate as they have in the past they will fail to help the very victims whom they try to save Focusing especially on the emergence of new wars Hoffman and Weiss insist that humanitarian organizations must recognize that they live in a political world and that their actions and goals are invariably affected by military action The brand of warfare that erupted in the 1990s marked by civil or transnational armed conflicts featuring potent non state actors altered political economies a high proportion of

civilian casualties and a globalized media produced horrors that shocked consciences and led humanitarian agencies to question their unyielding stance of neutrality and impartiality Indeed in a departure from earlier norms and practices some have reinvented their policies and tools and created new humanitarianisms This authoritative book traces the evolution of the international humanitarian system from its inception in the 1860s parses the dynamics of war and emergency response from the 1980s through the current disasters in Afghanistan and Iraq and provides a strategic roadmap for practitioners By bringing historical perspective to bear this volume provides an invaluable analytical framework for grasping the nature of humanitarian crises and how agencies can respond strategically rather than reactively to change Students will find its blend of clearly presented theory and case studies a powerful tool for understanding the roles of state and non state actors in international relations By charting the tides of continuity and change this book will prepare agencies to dodge both figurative and actual bullets that threaten humanitarian action at the outset of the millennium

Humanitarianism in Question

Michael Barnett, Thomas G. Weiss, 2012-05-15 Years of tremendous growth in response to complex emergencies have left a mark on the humanitarian sector Various matters that once seemed settled are now subjects of intense debate What is humanitarianism Is it limited to the provision of relief to victims of conflict or does it include broader objectives such as human rights democracy promotion development and peacebuilding For much of the last century the principles of humanitarianism were guided by neutrality impartiality and independence More recently some humanitarian organizations have begun to relax these tenets The recognition that humanitarian action can lead to negative consequences has forced humanitarian organizations to measure their effectiveness to reflect on their ethical positions and to consider not only the values that motivate their actions but also the consequences of those actions In the indispensable Humanitarianism in Question Michael Barnett and Thomas G Weiss bring together scholars from a variety of disciplines to address the humanitarian identity crisis including humanitarianism s relationship to accountability great powers privatization and corporate philanthropy warlords and the ethical evaluations that inform life and death decision making during and after emergencies

The EU as a State-builder in International Affairs

Labinot Greiçevci, 2021-11-04 This book presents a systematic in depth and comparative analysis of the role of the EU in the process of international state building and is one of the first comprehensive books to do so at an international level Taking the case of Kosovo it examines the EU s role in the birth of a state in comparison to other international actors from 1999 to 2008 and moves on to analyse the EU s role in norm diffusion in the post independence period 2008 2020 Throughout the book the author draws parallel analyses with broader debates and scholarly literature regarding the EU s role as a state builder or norm diffuser Combining a liberal peace thesis framework with the normative power Europe NPE approach it analyses how successful the EU and other international actors were in the diffusion of tangible and normative impacts in the

process of state building in Kosovo 1999 2008 along with the EU's diffusion of normative impact from 2008 to 2020 Finally it scrutinises the role of the EU and other international actors in the processes of state building through transference tools funding and overt tools political role This book will be of key interest to scholars and students of EU foreign policy European politics peace and conflict studies the Western Balkans state building international organisations and more broadly to international relations
