Discover National Monuments Cynthia Light Brown, 2009-03-01 Fascinating facts about America's most popular natural landmarks provide the backbone for this fun-filled collection of activities that replicate the organic processes that formed them. Interspersed with history factoids and sidebars, this engaging reference explores scientific concepts such as the formation of coral reefs and the cause of volcanic eruptions. Each monument from the Lava Beds to the Petrified Forest is showcased in a graphic multipage spread and is followed by hands-on experiments allowing children to make their own stalactites and discover how a river can erode rock into a canyon. Expressing true appreciation for the United States' natural wonders, this comprehensive guide clearly illustrates their formation from glittering caves to giant trees. **Discover the**

Oceans Lauri Berkenkamp, 2009-07-01 From both a historical and scientific point of view, above and below the surface, this engaging guide brings the world's oceans to life through fun facts, illustrations, and in-depth information. Interactive activities appear throughout, ranging from making solar stills and simple fishing spears to experimenting with a homemade diving bell and figuring out how much water it really takes to survive. With the oceans being the least explored environment on Earth, this reference illuminates some of the most incredible and surprising plants and animals as well as how to survive and navigate these vast expanses. **Talking Walls: Discover Your World** Margy Burns Knight, 2014-02-07 If walls could talk,

what would they say? Perhaps they would tell us who built them and why. Maybe they could even tell us about people's lives today or about how our ancestors lived thousands of years ago. In this book, walls really do talk, and oh, the stories they tell. This new edition combines the beloved children's books *Talking Walls* and *Talking Walls: The Stories Continue Together*; those titles sold more than 170,000 copies. This new edition, thoroughly revised by the author, makes the text more accessible to young readers and English Language Learners and produces a book that is ideal for reading aloud. The back matter includes a world map that helps readers locate the many walls described, as well as additional information about the walls, the places, and the people. The *Talking Walls* books have been much honored, including Top 25 Non-Fiction Children's Books, Boston Globe Children's Books of Distinction, Hungry Mind Review Noteworthy Book from Parallel Cultures, Horn Book Paperback Plum Booklinks Notable Children's Trade Book in the Social Studies, Children's Book Council National Council on the Social Studies Winner of a Mom's Choice Gold Award, Picture Books category. Delving into a seemingly dry and barren ecosystem, this fun-filled activity book closely examines the desert landscape and shows how many exciting discoveries it holds. Exploring native plants and animals and depicting the extreme temperatures, rough terrain, and vast distances in detail, this lively reference describes lost civilizations as well as today's desert-dwelling cultures. Try This science and history activities are also included from creating mirages and fashioning an Anasazi clay bowl to growing salt crystals and even assembling a cactus dish terrarium.
