## **Discovering The Americas The Archive Of The Indies:**

Discovering the Americas Pedro González García, 1997 In the very heart of Seville's historical center stands the General Archive of the Indies It was from Seville of course that all the legendary early Spanish explorers and conquistadors set forth on their glorious adventures of discovery First the explorers then the shippers traders geographers soldiers priests settlers and government officials that followed in their wake kept meticulous accounts and records drew maps city plans and fortifications and sketched and painted the exotic flora and fauna they encountered Here are documents that bring to life a saga that is as quintessential to American as it is to Spaniards The remarkable illustration are fully explained while authors chosen by the Archive first describe the Discovery and then the giant bureaucracy put in place by the Catholic Kings to administer their vast new Empire and negotiate the shipping and communications that were necessary for its support development and exploitation

**Sub-versions of the Archive** Carlos Riobó, 2010-12-29 Sub Versions of the Archive Manuel Puig's and Severo Sarduy's *Alternative Identities* analyzes recent theories of the archive to examine how Manuel Puig and Severo Sarduy reformulate the Latin American literary tradition This study focuses on eclectic theories of the archive as both repository and danger drawing from an array of sources both within and outside the Hispanic literary tradition from Borges Foucault Arrom Derrida González Echevarría and Guillory to digital media and biotechnology This book also applies theories of cultural contamination Maria Lugones and symbolic capital Pierre Bourdieu to the novels of Puig and Sarduy to explore the representation of marginal cultures within a body of literature that previously altered or elided these subaltern cultures from the tradition Through close readings and critical theoretical applications this book demonstrates how archival fiction continues to be one of the most popular strategies among Latin American novelists and most importantly how they have successfully managed to find new ways to inscribe their alternative fictions within this tradition Puig's and Sarduy's novels reproduce discourses popular culture and the mass media that lack prestige within the traditional archive These discourses mirror realities of marginal groups gay people children the poor the illiterate women and racial minorities Their cultural variants sub versions of hegemonic masterstories are endowed with truth bearing power for them but were previously left out of the archive as legitimate novelistic models To date this is the only study of contemporary Latin American fiction that puts current theories of the archive especially that of Roberto González Echevarría to practice in such a systematic way Riobó's analysis of how Puig and Sarduy reformulate the Latin American canon is both a necessary complement of González Echevarría's work and an intelligent answer to the first of his projected masterstories Riobó's multidisciplinary approach

*The Casa del Deán* Penny C. Morrill, 2023-09-15 The Casa del Deán in Puebla Mexico is one of few surviving sixteenth century residences in the Americas Built in 1580 by Tomás de la Plaza the Dean of the Cathedral the house was decorated with at least three magnificent murals two of which survive Their rediscovery in the 1950s and restoration in 2010 revealed works of art that rival European masterpieces of the early Renaissance while incorporating

indigenous elements that identify them with Amerindian visual traditions Extensively illustrated with new color photographs of the murals The Casa del De n presents a thorough iconographic analysis of the paintings and an enlightening discussion of the relationship between Tom s de la Plaza and the indigenous artists whom he commissioned Penny Morrill skillfully traces how native painters trained by the Franciscans used images from Classical mythology found in Flemish and Italian prints and illustrated books from France as well as animal images and glyphic traditions with pre Columbian origins to create murals that are reflective of Don Tom s s erudition and his role in evangelizing among the Amerindians She demonstrates how the importance given to rhetoric by both the Spaniards and the Nahuas became a bridge of communication between these two distinct and highly evolved cultures This pioneering study of the Casa del De n mural cycle adds an important new chapter to the study of colonial Latin American art as it increases our understanding of the process by which imagery in the New World took on Christian meaning **America, the True History of Its Discovery** William Giles Nash,1924 **The Elusive**
