Tutankhamun's Tomb Susan J. Allen, 2006 This richly illustrated book of vintage photographs commemorates one of the most memorable episodes in the history of archaeology: the discovery and exploration in 1922 of the tomb of the ancient Egyptian pharaoh Tutankhamun. Dynasty 18 ruled ca. 1336–1327 B.C. These photographs, documenting every stage in the process of discovery, were taken by the renowned archaeological photographer Harry Burton. Burton was a staff member of the Metropolitan Museum Egyptian Expedition when he was lent to Howard Carter, the famed excavator of Tutankhamun's tomb. From the rock-cut steps leading down to the entrance passage to the opening of the sealed chambers inside to the first view of the contents of the tomb and the removal of the objects, Burton's beautiful black and white photographs show thousands of the richly made and decorated objects found in the tomb. Carefully reproduced from Burton's original prints, the photographs are accompanied by new descriptive text written by two prominent Egyptologists with extensive knowledge of the history of Tutankhamun and the contents of his tomb. *The Tomb of Tutankhamun: Volume 1* Howard Carter, 2014-10-23 The discovery of the resting place of the great Egyptian King Tutankhamun, Tutankhamen, in November 1922 by Howard Carter and the fifth Earl of Carnarvon was the greatest archaeological find the world had ever seen. Despite its plundering by thieves in antiquity, the burial of the king lay intact with its nest of coffins and funerary shrines surrounded by a mass of burial equipment arranged in three

peripheral chambers Published in 1923 this is the first volume of Carter's trilogy describing the years of frustration in search of the burial site the triumph of its eventual discovery and the long painstaking process of exploring and cataloguing its treasures Containing over 100 images from the site itself this volume also includes Carter's short article The Tomb of the Bird which inadvertently spawned the legend of the great curse of Tutankhamun's tomb [The Discovery of Tutankhamun's Tomb](#) Howard Carter, Arthur Cruttenden Mace, 2023-12-03 Delve into the monumental discovery of King Tutankhamun's tomb through the lens of exploratory narrative and vivid descriptive accounts in The Discovery of Tutankhamun's Tomb This anthology captures the historical cultural and archaeological significance of the excavation bringing together a range of styles from detailed observational reports to reflective essays Each piece stands out for its immersive quality drawing readers into the dynamic world of early 20th century Egyptology and the groundbreaking journey led by those who unraveled the mysteries of the boy king's resting place The anthology's contributing authors notably Howard Carter and Arthur Cruttenden Mace bring vast expeditions and scholarly expertise to the collection Their collective work aligns with the rich tradition of archaeological exploration and historical inquiry that defined an era These narratives not only document the tangible treasures uncovered but also the profound cultural insights gained showcasing a blend of firsthand experiences and scholarly analysis that illuminate the tomb's historical context and its impact on the understanding of ancient Egypt Savor this unique volume as an unprecedented opportunity to engage with multiple perspectives on a singular historical event The expertly curated voices within offer both educational enrichment and inspiring discourse underscoring the invaluable dialogues sparked among archaeologists historians and enthusiasts The Discovery of Tutankhamun's Tomb enriches readers' appreciation of the intricate tapestry of human history through meticulous documentation and interpretations of one of its most fascinating chapters *The Discovery of Tutankhamun's Tomb* Omar Khalil, The search for Tutankhamun's tomb was one of the most ambitious archaeological pursuits of the early 20th century For years Egyptologists and explorers had scoured the Valley of the Kings believing that the burial site of the young pharaoh remained hidden beneath the desert sands Despite previous excavations yielding little success one man remained convinced that the tomb had yet to be discovered Howard Carter a British archaeologist had spent decades working in Egypt developing an unmatched expertise in excavation His belief in the existence of Tutankhamun's tomb was fueled by fragments of artifacts bearing the young pharaoh's name suggesting that his final resting place was still untouched However funding such an extensive search required a patron and it was Lord Carnarvon a wealthy British aristocrat who provided the financial backing In 1917 Carter's systematic excavation of the Valley of the Kings began but after several years of fruitless digging Carnarvon grew impatient By 1922 with resources nearly depleted Carter convinced Carnarvon to allow him one final season of excavation It was in November of that year that Carter's persistence paid off While investigating an area near the tomb of Ramses VI workers uncovered a set of steps leading down into the earth Clearing away the debris Carter discovered a sealed doorway marked with the insignia of

Tutankhamun Excitement and caution filled the air as he realized that the tomb had remained undisturbed for centuries
