Answer the following questions **DURING** the movie.

1. Use the chart below to compare and contrast what you learned about continental drift in class with what happened in the movie.

Continental drift (science)	SAME	Continental drift (movie)
Type answer here...	Type answer here...	Type answer here...
The supercontinent broke apart because the earth's rotation causes the earth's continents to shift apart from each other.	The plates drifting apart	In the movie the continental drift started from the misadventure with the squirrel and the acorn.

2. What period of time in Earth's history does the movie take place?

The movie Ice Age Continental Drift took place in the mesozoic period. The mesozoic period was 245 years ago that time period was when the supercontinent pangea broke apart.

3. What was the reason why the tectonic plates started to move?

The reason the tectonic plates began to move is because of the convection currents in the earth's mantle. The pressure and heat along the earth caused magma to cycle in convection currents. Therefore the movement of the tectonic plates that are made up by the earth's crust were caused by these such currents.

4. What were the tectonic plates floating on in the movie?

The reason the tectonic plates we
