Dinosaurs And A Dirigible:

Dinosaurs & A Dirigible David Drake, 2014-08-16 Henry Vickers's job is to keep clients safe from the dinosaurs they're hunting. That's the easy part. The hard part is to keep the clients safe from themselves and each other. Men with enough money to go into the past to hunt the largest land animals of all time are powerful and self-willed. Some make an effort to act like decent human beings but more are selfish, stupid, sadistic, or all three together. The few women are likely to be worse. Vickers doesn't expect rich people to understand the dangers of where they are and what they're doing; he doesn't expect them to be competent with the powerful rifles they carry and he particularly doesn't expect them to be reasonable. He treats his clients' behavior as he does the rain and the baking heat: the cost of having a life he loves and which he couldn't afford in any other way. But no matter how detached Vickers tries to be, eventually there are moral questions that he can't ignore. And when Henry Vickers starts to behave like a human being instead of a hunting guide, things get really dangerous. And in a complete change of pace, *Travellers*. An airship is crossing the United States in 1897 in search of the weird and the wonderful. The two teenagers aboard know that the airship's captain is a great scientist and inventor but they don't know how much more he is. Also, all five of David Drake's time travel stories collected for the first time. At the publisher's request, this title is sold without DRM Digital Rights Management.

Into the Maelstrom David Drake, John Lamshead, 2015-02-16 ENTRY 2 IN CITIZEN SERIES SEQUEL TO INTO THE HINTERLANDS Science fiction adventure on the frontier realms of empire written by biological scientist Dr John Lamshead and nationally best-selling David Drake. *THE RIGHT MAN FOR A VERY BAD JOB* The Cutter Stream colonies were at peace. If everybody behaved reasonably, that peace could last a thousand years. Allen Allenson had known war; it had made him peaceful and reasonable. He was far too experienced to believe the same was true of all his fellow colonists; however, let alone the government of the distant homeworld. Across the Bight War was coming, a war that the colonies had to win if they were ever to be more than prison camps and a dumping ground for incompetent noblemen. The experience that had caused Allenson to hate war made him the only man who could lead the colonial army. Allenson knew that he wasn't really a general but he understood his fellow colonists better than any homeworld general could. He would free the Cutter Stream or he would die trying. What Allen Allenson would not do, what he would never do, was quit. At the publisher's request, this title is sold without DRM Digital Rights Management.

About *Into the Maelstrom* The authors neatly adapt real history to a science fiction framework in the second novel of the Citizen trilogy. Drake and Lamshead are telling the story of George Washington as a space opera. Ingeniously structured retelling. *Publishers Weekly* About *Into the Hinterlands* Drake and Lamshead combine politics, military expeditions, and deep space exploration into an intriguing tale. Recommended for all SF collections. *Booklist* About David Drake's RCN series *R*ousing old-fashioned space opera. *Publishers Weekly* on the *RCN* series *The* fun is in the telling and Mr Drake has a strong voice. I want more. *Philadelphia Weekly Press* *S*pace opera is alive and well. This series is getting better as the author goes along. Character

The Spark David Drake,2017-11-07 In the time of the Ancients the universe was united but that was so far in the past that not even memory remains only the broken artifacts that a few Makers can reshape into their original uses What survives is shattered into enclaves some tiny some ruined some wild Into the gaps between settlements and onto the Road that connects all human reality and the reality that is not human and may never have been human have crept monsters Some creatures are men twisted into inhuman evil some of them are alien to Mankind And there are things which are hostile to all life things which will raven and kill until they are stopped A Leader has arisen welding the scattered human settlements together in peace and safety and smashing the enemies of order with an iron fist In his capital Dun Add the Leader provides law and justice In the universe beyond his Champions advance and enforce the return of civilization Pal a youth from the sticks has come to Dun Add to become a Champion Pal is a bit of a Maker and in his rural home he s been able to think of himself as a warrior because he can wield the weapons of the Ancient civilization Pal has no idea of what he s really getting into in Dun Add On the other hand the Leader and Dun Add have no real idea of what might be inside this hayseed with high hopes THE SPARK A story of hope and violence and courage And especially a story of determination At the publisher s request this title is sold without DRM Digital Rights Management
