Remote Control Tips

Press the **DIRECTV** button once to go to DIRECTV Control, or twice to go to the Now Playing List.

LIST brings you directly to the Now Playing List.

Press **FF** (FAST FORWARD) and **REW** (REWIND) up to 3 times for 3 speeds. Press a fourth time, or press **PAUSE**, to resume normal play.

RESTART REPLAY repeats the last 30 seconds of a program.

Press **GUIDE** to delete a title in a list (like the Now Playing list) or to clear things that aren't part of the program you're watching (like the channel banner and status bar).

INFO brings up the channel banner. Press the **RIGHT** arrow to switch among three versions of the banner, each with a different amount of information.

CHANG UP/DOWN does more than change the channel—it also pages up or down through lists of programs or menu items.

With dual-tuner enabled, press **LIVE TV** or **DOVRN** arrow while watching live TV to switch between the two tuners.

Inserting Batteries in the Remote Control

Hold the remote with the battery door facing you. Push your thumb in the depression of the door and slide the door towards you.

Insert two AA batteries (supplied). Be sure to match the + and - marks on the batteries to the + and - marks in the compartments.

Replace the battery door by sliding it back into the slot with the tab towards the rear of the compartment. You'll hear a click when it's securely back in place.

Press **GUIDE** to see the DIRECTV Advanced Programs Guide™, then press **INFO** (while the guide is visible) to see Guide Options and change the day or time, or show only a category of programs.

RATIO lets you change how the HD-DVR displays a picture when the broadcast aspect ratio (screen width and height) does not match your TV's screen size.

CLEAR clears all menus and goes to the last channel or recorded program you were watching. If you press it while you are watching a program, it clears things that aren't part of the program (like the channel banner and status bar).

ADVANCE moves you quickly through record programming. Press it while you are fast forwarding or rewinding to jump to the next full mark on the status bar.

When you're watching "behind" live TV (for example, if you pressed live TV and later resumed watching from the paused spot), **ADVANCE** catches you up to the live broadcast or a recorded program, press it once to jump to the end of the program, then again to jump to the beginning.

Use **ADVANCE** to enter a dash (-) for channel numbers that include a dash (for example, all our high-definition channels).

If you program your remote control (as explained in chapter seven), the **TV POWER**, **VOLUME**, **INPUT**, and **TV INPUT** buttons can control your TV and A/V equipment.

The **SAT/TV** switch lets the remote control to send channel-changing signals to either the HD-DVR (SAT) or the television (TV). Many of the remote control's buttons are disabled when this switch is set to TV (for example, **PAUSE**, **FAST FORWARD** and **REVERSE**). So if your remote control doesn't seem to be working, check to make sure this switch is set to SAT.

The On-Screen Menus and The Remote Control

Arrow Buttons

To navigate the DIRECTV® HD-DVR's on-screen menus, use the remote control's arrow buttons to move the highlight bar onto the option you want, then press **SELECT**.

The **LEFT** arrow button often takes you to a previous screen.

Two Types of On-Screen Arrows

The arrows that appear beside or near the highlight bar show possible directions. For example, on this screen, you could press the **RIGHT** arrow to highlight options on the **Options** menu to highlight "SAT Keyword WatchList."

Page Up Arrow

Page Down Arrow

When you run page up or page down arrows at the top or bottom of the screen for a list, press the **UP** (or **DOWN**) button to jump to those items on entire page at a time.
