This Information Systems Disaster Recovery Plan (DRP) has been developed by Shasta Community Health Center information systems (IS) leaders to provide guidance for responding to IS disasters and other security incidents. Disasters and security incidents may threaten the organization's ability to carry out its mission as well as other operational functions

Overview

This Information Systems Disaster Recovery Plan (DRP) has been developed by Shasta Community Health Center to provide guidance for responding to ITS disasters and other security incidents. Disasters and security incidents may threaten the organization's ability to carry out its mission as well as other operational functions.

Advance planning and preparation will allow the organization to:

- Continue serving its patients and community;
- Ensure the availability of patient protected health information as well as business information;
- Minimize loss and facilitate recovery of core information systems and other business assets;
- Preserve the organization's public image and reputation within the community;
- Prevent the disaster or incident from threatening the organization's long-term stability and viability;
- Heighten organizational awareness, allow for advance preparation, and workforce education and training; and

Comply with applicable state and federal regulations and accrediting agency standards. The DRP is a collection of references, guidelines, policies, procedures, forms, and suggestions designed for responding to security incidents and disasters.

Components of this plan include:

- Disaster Recovery and Restoration – See Data Recovery Plan and Development Check List.
- Emergency Mode Operation
- Applications and Criticality Analysis
- Data Back-Up (see also supporting ITS Policies and Procedures)
- Security Incident Response (see also supporting ITS Policies and Procedures)
- Testing and Revision

Additionally, there are several documents referred to and/or appended to this plan to provide additional guidance for the management of information security, disasters and other security incidents.
