primitive savage or wild And so we began to make our existence together more civilized In our interference we began to lose respect for our planet and all that lived upon it including ourselves One of the three though remained steadfast throughout the story Horses except in their physical appearance have neither changed nor tried to change anything just being themselves constantly at our sides Tracing the story of the relationship from the beginning of time the unique bond between humans and horses is explored through different civilizations and cultures up to present day It tracks the journey of the two species and the effect they had on earth as they walked around it It also tells the story of how when in times of disruption chaos and imbalance earth has spoken to us giving us signs and horses have always been there guiding us to a path back home It is a path to a home on earth where all can live in harmony and at peace a path that we will hopefully choose to walk together once again

Reading Plato through Jung Paul Bishop, 2023-01-19 This book examines the Jungian imperative that the Third must become the Fourth through the lens of Carl Jung's complex reception of Plato While in psychoanalytic discourse the Third is typically viewed as an agent that brings about healing the author highlights that in the case of Jung an early emphasis on the Third as the transcendent function gave way to an increasing insistence on the importance of the Fourth And yet he asks why must the Third become the Fourth Paul Bishop begins with a survey of work on Jung's relation to Plato before turning to Jung's readings of the *Timaeus* and *Black Books* as well as Goethe's *Faust II* and Nietzsche's *Zarathustra* He proceeds to unpick Jung's statements on the Third and the Fourth though a compelling analysis of how Jung draws upon religious and alchemical traditions Pythagorean numerology his own dream like experiences and Plato's cosmology This book will appeal to practitioners and to scholars working in the history of ideas psychoanalysis philosophy and psychoanalytic theory
