Intersubjective Existence Oliva Blanchette, 2021-11-26 Intersubjective Existence as the author notes aims first to develop a wisdom about human life that takes the form of a theory of selfhood and second to reflect on what is called for in the ethical practice of human existence Secondly the ethical implications of this theory of selfhood are explored specifically looking at conscience prudential reasoning justice friendship the law temperance courage and concluding with a brief treatment of religion Olivia Blanchette charts the path of his inquiry through an analysis of reflective self consciousness in selves communing with one another They are constituted in their substance as a union of body and soul with intelligence and free will that give rise to cultures in communion with other selves These cultures are over and above what is given to each self in sense consciousness and in sense appetites and which each one contends with in the exercise of selfhood and the rights that go with that in keeping with justice Concern for right reasoning and justice leads to an analysis of temperance and courage The chief arguments take the form of phenomenological reflections on the building blocks of the perennial philosophy Blanchette recasts Aristotelian Thomistic metaphysics from the perspective of a phenomenology of the mutual recognition of agents and the historical consciousness to which it gives rise

Models of the Self Shaun Gallagher, Jonathan Shear, 1999 A comprehensive reader on the problem of the self as seen from the perspectives of philosophy development psychology robotics cognitive neuroscience psychopathology semiotics phenomenology and contemplative studies all focused on a keynote paper

Transcendentalism Overturned Anna-Teresa Tymieniecka, 2011-04-02 This collection offers a critical assessment of transcendentalism the understanding of consciousness absolutized as a system of a priori laws of the mind that was advanced by Kant and Husserl As these studies show transcendentalism critically informed 20th Century phenomenological investigation into such issues as temporality historicity imagination objectivity and subjectivity freedom ethical judgment work praxis Advances in science have now provoked a questioning of the absolute prerogatives of consciousness Transcendentalism is challenged by empirical reductionism And recognition of the role the

celestial sphere plays in life on planet earth suggests that a radical shift of philosophy's center of gravity be made away from absolute consciousness and toward the transcendental forces at play in the architectonics of the cosmos **Fichte** Johann Gottlieb Fichte, 2018-07-05 No detailed description available for Fichte *Higher Learning for Higher Activities* R L Bishop, 2019-12-19 Higher Learning for Higher Activities is the story of a young man who joins the military and shortly after loses his father His life is changed forever from this sudden loss of the greater stability his father gave him and his military career and his marriage go down in flames Coping with life becomes more and more difficult His only solace is the freedom the road gives him and hitchhiking becomes a way of life and a search to find anything to fill the emotional vacancy in his soul One day through a series of unbelievable coincidences he finds something that holds his attention and begins a four decades long journey that eventually leads to an unveiling he never could have imagined Only in retrospect can he see the steps that brought him to a place in his life he didn't have a clue he was headed toward And when he arrived he found the difficulty in his acceptance was his own intellect His learning had been as his teacher stressed step by step and so much had to be left behind to make way for the new There were many times he thought he was a slacker but he never gave up His love of the search and his perseverance finally pay off and he learns the truth of the Law of Laws **Activities for Building Character and Social-Emotional Learning Grades 3-5** Katia S. Hart,2013-11-11 What follows attempts to synthesize Husserl's social ethics and to integrate the themes of this topic into his larger philosophical concerns Chapter I proceeds with the hypothesis that Husserl believed that all of life could be examined and lived by the transcendental phenomenologist and therefore action was not something which one did isolated from one's commitment to being philosophical within the noetic noematic field Therefore besides attempting to be clear about the meaning of the reduction it relates the reduction to ethical life Chapter II shows that the agent properly understood i.e. the person is a moral theme indeed reflection on the person involves an ethical reduction which leads into the essentials of moral categoriality the topic of Chapter IV Chapter III mediates the transcendental ego individual person and the social matrix by showing how the common life comes about and what the constitutive processes and ingredients of this life are It also shows how the foundations of this life are imbued with themes which adumbrate moral categoriality discussed in Chapter IV The final Chapters V and VI articulate the communitarian ideal the godly person of a higher order emergent in Chapters II III and IV in terms of social political and theological specifications of what this godly life looks like *Entrepreneurship in Biotechnology* Martin Grossmann,2012-12-06 Research and development of novel medicines for human therapy commonly takes over a decade before significant revenues from sales are forthcoming How can biotechnology companies be founded and grow successfully in an industry with such extended innovation processes The book investigates this problem and distinguishes three growth phases From incorporation and start up through collaborative R D with large pharmaceutical firms to value creation from R D pipelines to Public Offerings and product marketing In this book a dynamic simulation model for testing different decision making strategies is developed For each phase the author identifies decision rules that provide for successful corporate growth **Hearings Before the House Select Committee on Lobbying Activities, House of Representatives, Eighty-first Congress, Second Session, Created Pursuant to H.
