Desert Solitaire Edward Abbey, 1985-01-12 Rough tough combative a passionately felt deeply poetic book Edwin Way Teale The New York Times Book Review This is not primarily a book about the desert writes Edward Abbey in his introduction In recording my impressions of the natural scene I have striven above all for accuracy since I believe that there is a kind of poetry even a kind of truth in simple fact But the desert is a vast world an oceanic world as deep in its way and complex and various as the sea Language makes a mighty loose net with which to go fishing for simple facts when facts are infinite If a man knew enough he could write a whole book about the juniper tree Not juniper trees in general but that one particular juniper tree which grows from a ledge of naked sandstone near the old entrance to Arches National Monument What I have tried to do then is something a bit different Since you cannot get the desert into a book any more than a fisherman can haul up the sea with his nets I have tried to create a world of words in which the desert figures more as medium than as material Not imitation but evocation has been the goal *The Desert : Further Studies in Natural Appearances* ,2011 The Desert by John Charles Van Dyke published in 1901 is a lush poetic description of the natural beauty of the American Southwest What land can equal the desert with its wide plains its grim mountains and its expanding canopy of sky Van Dyke a cultivated art historian saw sublimity in the desert s lonely desolation which previous generations had perceived only as a wasteland and his book has a conservationist flavor which seems distinctly modern The deserts should never be reclaimed he writes They are the breathing spaces of the west and should be preserved for ever The changing colors of the sky hills and sand impress Van Dyke as do the mirages He celebrates the long overlooked commonplace things of nature cactus and grease wood desert animals and winged life the birds and insects His writing has a philosophical undertone Not in vain these wastes of sand simply because they are beautiful in themselves and good to look upon whether they be life or death Anyone who views with equal awe fiery sunrises and weeds growing out of pavement cracks will enjoy this reading of Van Dyke s The Desert **The Desert** John Charles Van Dyke, John C. Van Dyke, 1999-08-12 Since its first appearance in 1901 John C Van Dyke s The Desert has been considered one of the classics of American nature writing Before its publication Americans thought of deserts as scorpion infested wastelands with names like Devil s Domain and the Lands That God Forgot All this changed as The Desert drew attention to the extraordinary beauty that existed in the American West rolling sand dunes golden vistas vibrant sunsets and remarkable plant and animal life Van Dyke s book captured the nation s imagination at a time when attitudes about the land were changing It provided a vocabulary that continues to be used as appreciation of deserts increases and ever greater pressures lead to new calls to protect these fragile environments With a critical introduction by Peter Wild this edition offers new insights and reveals some surprising truths about this legendary author and his best known work Van Dyke was not it seems the plaster saint of the desert He was not entirely honest with his readers about the journeys that inspired the book and his natural history includes serious errors But in this more informed

reading Wild notes Van Dyke emerges as all the more fascinating a writer and his famous book becomes far more intriguing than most readers have imagined through the decades As the centennial of its publication approaches and the complex story behind its long success is finally told this new edition of The Desert reveals an equally complex and dramatic narrative our changing relationship with the American landscape Van Dyke came at just the right time No sooner had Americans conquered the wilderness cut down the forests and slaughtered the buffalo than the romantic nation began sentimentalizing the past longing for what it had just destroyed from the Introduction
