Making a Killing Alicia Gaspar de Alba, Georgina Guzmán, 2010-11-01 Since 1993 more than five hundred women and girls have been murdered in Ciudad Juarez across the border from El Paso Texas At least a third have been sexually violated and mutilated as well Thousands more have been reported missing and remain unaccounted for The crimes have been poorly investigated and have gone unpunished and unresolved by Mexican authorities thus creating an epidemic of misogynist violence on an increasingly globalized U S Mexico border This book the first anthology to focus exclusively on the Juarez femicides as the crimes have come to be known compiles several different scholarly interventions from diverse perspectives including feminism Marxism critical race theory semiotics and textual analysis Editor Alicia Gaspar de Alba shapes a multidisciplinary analytical framework for considering the interconnections between gender violence and the U S Mexico border The essays examine the social and cultural conditions that have led to the heinous victimization of women on the border from globalization free trade agreements exploitative maquiladora working conditions and border politics to the sexist attitudes that pervade the social discourse about the victims The book also explores the evolving social movement that has been created by NGOs mothers organizing efforts and other grassroots forms of activism related to the crimes Contributors include U S and Mexican scholars and activists as well as personal testimonies of two mothers of femicide victims

Chicano Nations Marissa K. López, 2011 *Chicano Nations* argues that the trans nationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the labouring classes The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties This is where Marissa K Lopez locates the origins of Chicano literature which is now and always has been

post national encompassing the wealthy the poor the white and the mestizo Tracing the long history of Chicano literature and the diversity of subject positions it encompasses Chicano Nations explores the shifting literary forms authors have used to write the nation from the nineteenth to the twenty first centuries Lopez argues that while national and global tensions lie at the historical heart of Chicana o narratives of the nation there should be alternative ways to imagine the significance of Chicano literature other than as a reflection of national identity In a nuanced analysis the book provides a way to think of early writers as a meaningful part of Chicano literary history and in looking at the nation rather than the particularities of identity as that which connects Chicano literature over time it engages the emerging hemispheric scholarship on U S literature

Coloniality of the US/Mexico Border Roberto D. Hernández, 2018-10-23 National borders are often taken for granted as normal and necessary for a peaceful and orderly global civil society Roberto D Hernández here advances a provocative argument that borders and border violence are geospatial manifestations of long histories of racialized and gendered colonial violence In Coloniality of the U S Mexico Border Hernández offers an exemplary case and lens for understanding what he terms the epistemic and cartographic prison of modernity coloniality He adopts coloniality of power as a central analytical category and framework to consider multiple forms of real and symbolic violence territorial corporeal cultural and epistemic and analyzes the varied responses by diverse actors including local residents government officials and cultural producers Based on more than twenty years of border activism in San Diego Tijuana and El Paso Ciudad Juárez this book is an interdisciplinary examination that considers the 1984 McDonald's massacre Minutemen vigilantism border urbanism the ongoing murder of women in Ciudad Juárez and anti border music Hernández's approach is at once historical ethnographic and theoretically driven yet it is grounded in analyses and debates that cut across political theory border studies and cultural studies The volume concludes with a theoretical discussion of the future of violence at and because of national territorial borders offering a call for epistemic and cartographic disobedience

International Perspectives on Chicana/o Studies Catherine Leen, Niamh Thornton, 2013-10-15 This volume examines how the field of Chicana o studies has developed to become an area of interest to scholars far beyond the United States and Spain For this reason the volume includes contributions by a range of international scholars and takes the concept of place as a unifying paradigm As a way of overcoming borders that are both physical and metaphorical it seeks to reflect the diversity and range of current scholarship in Chicana o studies while simultaneously highlighting the diverse and constantly evolving nature of Chicana o identities and cultures Various critical and theoretical approaches are evident from eco criticism and autoethnography in the first section to the role of fiction and visual art in exposing injustice in section two to the discussion of transnational and transcultural exchange with reference to issues as diverse as the teaching of Chicana o studies in Russia and the relevance of Anzaldá's writings to post 9 11 U S society

Romero-Ruiz, 2014-12-24 The development of new sexualities and gender identities has become a crucial issue in the field of literary and cultural studies in the first years of the twenty first century The roles of gender and sexual identities in the struggle for equality have become a major concern in both fields The legacy of this process has its origins in the last decades of the nineteenth century and the twentieth century The Victorian preoccupation about the female body and sexual promiscuity was focused on the regulation of deviant elements in society and the control of venereal disease homosexuals lesbians and prostitutes identities were considered out of the norm and against the moral values of the time The relationship between sexuality and gender identity has attracted wide ranging discussion amongst feminist theorists during the last few decades The methodologies of cultural studies and in particular of post structuralism and post colonialism urges us to read and interpret different cultures and different texts in ways that enhance personal and collective views of identity which are culturally grounded These readings question the postmodernist concept of identity by looking into more progressive views of identity and difference addressing post positivist interpretations of key identity markers such as sex gender race and agency As a consequence an individual s identity is recognized as culturally constructed and the result of power relations Identities on the Move Contemporary Representations of New Sexualities and Gender Identities offers creative insights on pressing issues and engages in productive dialogue Identities on the Move to addresses the topic of new sexualities and gender

Chicano Detective Fiction Susan Baker Sotelo, 2015-03-10 In his 1985 novel *Partners in Crime* writer Rolando Hinojosa introduced homicide investigator Rafe Buenrostro the first Chicano protagonist in one of the most enduring genres of modern literature Since that time Chicano writers have embraced the detective novel successfully diversifying and refining a traditional Anglo American and British genre The 21 whodunits of Hinojosa Rudolfo Anaya Lucha Corpi Michael Nava and Manuel Ramos are closely studied in this groundbreaking work The models both contemporary and Romantic of this relatively new Chicano genre are first discussed Next come detailed analysis and reviews of such novels as *Shaman Winter Partners in Crime Cactus Blood* and 18 others focusing on how each writer departs from contemporary detective genre formula uniquely rendering a particular regional or cultural variation of what it means to be Chicano It is this departure from the norm that defines these writings and distinguishes them from the Anglo American and British whodunit Interviews with the writers conclude the work

Documenting the Undocumented Marta Caminero-Santangelo, 2017-10-10 Looking at the work of Junot Diaz Cristina Garcia Julia Alvarez and other Latino authors who are U S citizens Marta Caminero Santangelo examines how writers are increasingly expressing their solidarity with undocumented immigrants Through storytelling these writers create community and a sense of peoplehood that includes non citizen Latino as This volume also foregrounds the narratives of unauthorized migrants themselves showing how their stories are emerging into the public sphere Immigration and citizenship are multifaceted issues and the voices are myriad They challenge common interpretations of illegal immigration explore inevitable traumas and ethical dilemmas protest their own silencing in immigration debates and even capitalize on the topic for the commercial market Yet these texts all seek to affect political discourse by advancing the possibility of empathy across lines of ethnicity and citizenship status As border enforcement strategies escalate along with political rhetoric detentions and deaths these counternarratives are more significant than ever before and their perspectives cannot be ignored What we are witnessing argues Caminero Santangelo is a mass mobilization of stories This growing body of literature is critical to understanding not only the Latino immigrant experience but also alternative visions of nation and belonging
