Boschma, Robert C. Kloosterman, 2006-03-30 Jan Lambooy retired in October 2002 When Jan was asked how he wanted to celebrate this occasion he was adamant that no great festivities should take place Characteristically Jan wanted just a scientific conference so he could learn something from it and as he insisted no great festivities So that is what we did and a conference was organised in Amsterdam on 25 October 2002 hosted by the Faculty of Economics and Econometrics of the University of Amsterdam Friends of Jan's from academia in the Netherlands and abroad participated and thus paid homage to Jan both as a scientist and as a person We are now very proud to present this festschrift firstly as the palpable result of this conference and secondly as a token of sincere respect and great affection for Jan Edited volumes run the danger of being a hotchpotch of contributions on a wide variety of topics Here we have explicitly focused on a central theme in contemporary economic geography and regional science namely the relationship between learning innovation and clustering Internationally renowned scientists made both theoretical and empirical contributions to this volume We think this book constitutes a broad palette of contemporary thinking and research on the relationship between spatial concentration and innovation and hope it will play a significant role in future debates on this issue **20 Years 010** Hans Oldewarris, Peter de Winter, 2003 Published for 010 Publisher's twentieth anniversary in 2003 this volume celebrates the publishing vision of Hans Oldewarris and Peter de Winter 010's founders Besides hundreds of monographs by and about Dutch architects 010 has published books on architecture interior design photography industrial design graphic design and the visual arts Exhaustively annotated and
