Northrop,2011 Nothing is Beyond Belief Imagination is the key to creating a new reality Whatever you can imagine you can implement Whatever you believe to be actually creates the world you see Life doesn t just happen to you It responds to you and the thoughts that you are creating on a continuing basis Although thoughts are not tangible they are programmable and powerful Thoughts can transform the abstract into the absolute This book is about creative visualization or wishcraft which is a way of thinking that can change your life The principles proposed in this book can propel you from poverty to prosperity and jumpstart your JOY as you learn how to transform your thoughts into reality The process starts with a dream a desire or even just a wish Wishes come in all sizes One can wish small or one can wish big or tall One can even choose not to wish at all but wishing is really the key to creating a new reality Everything that you can conceive of already exists or you couldn t even conceive of it Creative visualization simply makes the invisible visible Your beliefs are the key to making the invisible materialize Predicting the future actually becomes possible once you realize that you can create your own future by propelling your dreams into reality The world can be yours to have and to hold once you take control of your own destiny That doesn t mean that you can control the events that will happen in your life but you can control how you envision those events Those visualizations can either empower you to excel or cripple you in crisis If you want your life to change try doing

Confidence : How To Unleash Your Confidence, Be Super Innovative & Design Your Life In 30 Days Scott

Green,2015-06-10 Creative confidence sounds like some type of a fancy term for something but in reality it is a reference to the level of confidence that a person has when it comes to their own creativity For example if you have a lot of confidence when it comes to your creative abilities then you have a lot of creative confidence On the other hand if you are someone that believes that you have no artistic ability no musical ability and no ability to think outside the box then your creative confidence is probably very low Just as you would do with virtually anything else the level of creative confidence that you have in your abilities is directly tied to your ability to achieve the things that you want to achieve Most of the time you are able to do exactly what you think you can do Therefore if you believe that you can do anything when it comes to being creative then you probably can By the same token if you believe that you have virtually no creative ability you will probably experience a perceived lack of creativity because you are beating yourself before you even make an attempt at doing something creative This often leads to a self fulfilling prophecy To reiterate that point if you believe you can do something you can likely do it If you believe that you cannot do something you will probably quit before you ever find success 12
