dem exklusiven Kohl R tsel von CUS dem Autor des SZ Magazins Unlikely History J. Zipes, L. Morris, 2016-04-30 In the English speaking world it is generally believed that there are very few Jews living and thriving in Germany Yet there has been an unlikely postwar history 1945 2001 that has been somewhat repressed in North America and the United Kingdom While most people are well informed about the Holocaust and the consequences that this tragic event has had for the world very few people know that there has been a steady increase in the population of Jews in Germany since 1945 and that there is a flourishing Jewish culture certainly a relatively strong Jewish presence in Germany today Does this development mean that Jews are playing a significant role in German social life Does this mean that the great German Jewish relationship often referred to as a kind of symbiosis has re emerged despite the odds against it The sixteen essays in this book written by the leading critics in the field cover the fascinating changes that have been made in German society since 1945 in the Jewish communities literature theater film architecture and other areas of interest including an examination of the resurgence of anti Semitism in Austria For anyone interested in reading about the unpredictable transformations in German Jewish relations since 1945 Unlikely History will provide information and insights into a history that needs to be told to bring about greater understanding of Jews and Germans in contemporary Germany Nazi Buildings, Cold War Traces and Governmentality in Post-Unification Berlin Clare Copley, 2020-05-28 Bringing together approaches from cultural and urban history as well as German studies and political theory Clare Copley's probing study reflects on post unification responses to iconic Nazi architecture to reveal insights into power legitimacy and memory politics in the Berlin Republic Analysing public debates physical interventions into the buildings and the structuring of the memory landscapes around them the book demonstrates that the politics of memory impact not just upon the built environment of the post dictatorship city but upon the way decisions about it are made In doing so Nazi Buildings Cold War Traces and Governmentality in Post Unification Berlin makes the case for conceiving of a specifically post authoritarian governmentality and uses the responses to constructions like Goering's Aviation Ministry Tempelhof Airport and the Olympic complex to explore its features

Shadows of War Efrat Ben-Ze'ev,Ruth Ginio,Jay Winter,2010-02-25 Silence lies between forgetting and remembering This book explores how different societies have constructed silences to enable men and women to survive and make sense of the catastrophic consequences of armed conflict Using a range of disciplinary approaches it examines the silences that have followed violence in twentieth century Europe the Middle East and Africa These essays show that silence is a powerful language of remembrance and commemoration and a cultural practice with its own rules This broad ranging book discloses the universality of silence in the ways we think about war through examples ranging from the Spanish Civil War and the Israeli Palestinian conflict to the Armenian Genocide and South Africa's Truth and Reconciliation Commission Bringing together scholarship on varied practices in different cultures this book breaks new ground in the vast literature on memory and opens up new avenues of reflection and research on the lingering aftermath of war

Guarnaschelli, 2021-09-23 This study investigates the relationship between Lothar G nther Buchheim 1918 2007 his bestselling 1973 novel Das Boot The Boat and West Germany s Vergangenheitsbew ltigung As a war reporter during the Battle of the Atlantic Buchheim benefitted from distinct privileges yet he was never in a position of power Almost thirty years later Buchheim confronted the duality of his own past and railed against what he perceived to be a varnished public memory of the submarine campaign Michael Rothberg s theory of the implicated beneficiary is used as a lens to view Buchheim and this duality Das Boot has been retold by others worldwide because many people claim that the story bears an anti war message Wolfgang Petersen's critically acclaimed 1981 film and interpretations as a comedy sketch a theatrical play and a streamed television sequel have followed This trajectory of Buchheim's personal memory reflects a process that practitioners of memory studies have described as transnational memory formation Archival footage interviews and teaching materials reflect the relevance of Das Boot since its debut Given the debates that surrounded Buchheim's endeavors the question now raised is whether Germany's mastering the past serves as a model for other societies analyzing their own histories Sitting at the intersection of History Literature and Film Studies this is an unprecedented case study depicting how the pre and postwar times affected writers and others caught in the middle of the drama of the era

Hitler's Germany Roderick Stackelberg, 2002-01-22 This book provides a comprehensive history of Nazi Germany and sets it in the wider context of 19th and 20th century German history It analyses how a culture of such creativity and achievement could generate such barbarism and destructivity **Deciphering the New Antisemitism** Alvin H. Rosenfeld, 2015-12-09 Deciphering the New Antisemitism addresses the increasing prevalence of antisemitism on a global scale Antisemitism takes on various forms in all parts of the world and the essays in this wide ranging volume deal with many of them European antisemitism antisemitism and Islamophobia antisemitism and anti Zionism and efforts to demonize and delegitimize Israel Contributors are an international group of scholars who clarify the cultural intellectual political and religious conditions that give rise to antisemitic words and deeds These landmark essays are noteworthy for their timeliness and ability to grapple

effectively with the serious issues at hand German Literature in a New Century Katharina Gerstenberger, Patricia Herminghouse, 2008 While the first decade after the fall of the Berlin wall was marked by the challenges of unification and the often difficult process of reconciling East and West German experiences many Germans expected that the new century would achieve normalization The essays in this volume take a closer look at Germany's new normalcy and argue for a more nuanced picture that considers the ruptures as well as the continuities Germany's new generation of writers is more diverse than ever before and their texts often not only speak of a Germany that is multicultural but also take a more playful attitude toward notions of identity Written with an eye toward similar and dissimilar developments and traditions on both sides of the Atlantic this volume balances overviews of significant trends in present day cultural life with illustrative analyses of individual writers and texts Building Nazi Germany Joshua Hagen, Robert C. Ostergren, 2019-08-19 This richly illustrated book details the wide ranging construction and urban planning projects launched across Germany after the Nazi Party seized power The authors show that it was an intentional program to thoroughly reorganize the country's economic cultural and political landscapes in order to create a dramatically new Germany saturated with Nazi ideology Der inoffizielle "Miami Vice" Episodenguide Thomas Foltyn, 2007-03-10 Dieser inoffizielle und ultimative Serienguide beschreibt alle zwischen 1984 und 1989 produzierten Folgen der TV Serie Miami Vice und gibt detailiiert Auskunft ber alle Aspekte wie Drehtermin Inhalt verwendete Musik Drehorte und viele andere Details und Hintergrundinformationen pro Episode Remembering the German Democratic Republic D.
