Derrida Benoît Peeters, 2013-08-27 This biography of Jacques Derrida 1930 2004 tells the story of a Jewish boy from Algiers excluded from school at the age of twelve who went on to become the most widely translated French philosopher in the world a vulnerable tormented man who throughout his life continued to see himself as unwelcome in the French university system We are plunged into the different worlds in which Derrida lived and worked pre independence Algeria the microcosm of the cole Normale Sup rieure the cluster of structuralist thinkers and the turbulent events of 1968 and after We meet the remarkable series of leading writers and philosophers with whom Derrida struck up a friendship Louis Althusser Emmanuel Levinas Jean Genet and H l ne Cixous among others We also witness an equally long series of often brutal polemics fought over crucial issues with thinkers such as Michel Foucault Jacques Lacan John R Searle and J rgen Habermas as well as several controversies that went far beyond academia the best known of which concerned Heidegger and Paul de Man We follow a series of courageous political commitments in support of Nelson Mandela illegal immigrants and gay marriage And we watch as a concept deconstruction takes wing and exerts an extraordinary influence way beyond the philosophical world on literary studies architecture law theology feminism queer theory and postcolonial studies In writing this compelling and authoritative biography Beno t Peeters talked to over a hundred individuals who knew and worked with Derrida He is also the first person to make use of the huge personal archive built up by Derrida throughout his life and of his extensive correspondence Peeters book gives us a new and deeper understanding of the man who will perhaps be seen as the major philosopher of the second half of the twentieth century

[Dictionary of Visual Discourse](#) Dr Barry Sandywell, 2012-10-01 This substantial and ambitious dictionary explores the languages and cultures of visual studies It provides the basis for understanding the foundations and motivations of current theoretical and academic discourse as well as the different forms of visual culture that have come to organize everyday life The book is firmly placed in the context of the visual turn in contemporary thought It has been designed as an interdisciplinary or transdisciplinary introduction to the vocabularies and grammars of visibility that inform thinking in the arts and humanities today It also offers insight into the philosophical frameworks which underpin the field of visual culture A central theme that runs throughout the entries is the task of moving away from a narrow understanding of visibility inherited from traditional philosophy toward a richer cultural and multi sensorial philosophy of concrete experience The dictionary incorporates intertextual links that encourage readers to explore connections between major themes theories and key figures in the field In addition the author s introduction provides a comprehensive and critical introduction which documents the significance of the visual turn in contemporary theory and culture It is accompanied by an extensive bibliography and further reading list As both a substantive academic contribution to this growing field and a useful reference tool this book offers a theoretical introduction

Postmodern Apocalypse Richard Dellamora,1995 From accounts of the Holocaust to representations of AIDS to predictions of environmental disaster from Hal Lindsey s fundamentalist 1970s bestseller The Late Great Planet Earth to Francis Fukuyama s The End of History and the Last Man in 1992 the sense of apocalypse is very much with us In Postmodern Apocalypse Richard Dellamora and his contributors examine apocalypse in works by late twentieth century writers filmmakers and critics *Against Value in the Arts and Education* Sam Ladkin,Robert McKay,Emile

Bojesen,2016-05-18 *Against Value in the Arts and Education* proposes that it is often the staunchest defenders of art who do it the most harm by suppressing or mollifying its dissenting voice by neutralizing its painful truths and by instrumentalizing its ambivalence The result is that rather than expanding the autonomy of thought and feeling of the artist and the audience art s defenders make art self satisfied or otherwise an echo chamber for the limited and limiting self description of people s lives lived in an audit culture a culture pervaded by the direct and indirect excrescence of practices of accountability This book diagnoses the counter intuitive effects of the rhetoric of value It posits that the auditing of values pervades the fabric of people s work lives their education and increasingly their everyday experience The book uncovers figures of resentment disenchantment and alienation fostered by the dogma of value It argues instead that value judgments can behave insidiously and incorporate aesthetic ethical or ideological values fundamentally opposed to the value they purportedly name and describe The collection contains contributions from leading scholars in the UK and US with contributions from anthropology the history of art literature education musicology political science and philosophy **Unlocking the World** Claudia W.

Ruitenbergh,2015-12-03 *Unlocking the World* proposes hospitality as a guiding ethic for education Based on the work of Jacques Derrida it suggests that giving place to children and newcomers is at the heart of education The primary responsibility of the host is not to assimilate newcomers into tradition but rather to create or leave a place where they may arrive Hospitality as a guiding ethic for education is discussed in its many facets including the decentered conception of subjectivity on which it relies the way it casts the relation between teacher and student and its conception of curriculum as an inheritance that asks for a critical reception The book examines the relation between an ethic of hospitality and the educational contexts in which it would guide practice Since these contexts are marked by gender culture and language it asks how such differences affect enactments of hospitality Since hospitality typically involves a power difference between host and guest the book addresses how an ethic of hospitality accounts for power whether it is appropriate for educational contexts marked by colonialism and how it might guide education aimed at social justice The Traces of Jacques Derrida's

Cinema Timothy Holland, 2024 Situated at the intersection of film and media studies literary theory and continental philosophy *The Traces of Jacques Derrida's Cinema* provides a trenchant account of the role of cinema in the oeuvre of one of the most influential philosophers of the twentieth century Jacques Derrida 1930-2004 The book is animated by Derrida's self-confessed passion for the movies his reluctance to write about film despite the range of his corpus and the generative encounters arising between his legacy and the field of film and media studies as a result Given the expanse of its references interdisciplinarity and consideration of Derrida's approach to the experience of both spectatorship and the act of being filmed *The Traces of Jacques Derrida's Cinema* contributes to the ongoing close analyses of the philosopher's work while also providing a rigorous introduction to deconstruction Author Timothy Holland interweaves historical and speculative modes of research and writing to articulate the peripheral yet surprisingly crucial place of the cinematic medium for Derrida and his philosophical enterprise The outcome is a meticulously detailed survey of the centers and margins of Derrida's oeuvre that include forays into such terrain as his notable appearances in films an unrealized project on cinema and belief that Derrida proposed in a 2001 interview the correspondences between the strategies of deconstruction and the traditions homecomings and wordplay of David Lynch's cinematic media and the questions wedded to the future of film studies amid the vicissitudes of the modern virtual university Ultimately Holland pursues the thinking activated by the flickering of Derrida's cinema not only the absence and presence of film in Derrida's professional and personal life but also the rigor of academic discourse and the pleasures of the movies ghosts and technology religious faith and scientific knowledge and ruination and survival as a critical chance for reflection

The Idea of Difficulty in Literature Alan Carroll Purves, 1991-09-03 This book redefines the nature of textual difficulty in literature and shows the implications of the new definition for teachers at all levels of education Contrary to the traditional use of grade levels or readability formulae the authors redefine difficulty in terms of readers and the texts they meet They base their arguments on contemporary linguistic theory on historical and comparative studies of criticism on literary theory about readers and texts on post-Freudian psychology on empirical research concerning the nature of reading literature and on studies of classrooms curricula and testing What emerges is a coherent work that builds a case for seeing difficulty in literature as a human phenomenon more than a textual one

The Duplicity of Philosophy's Shadow Elliot R. Wolfson, 2018-04-24 Martin Heidegger 1889-1976 is considered one of the most influential philosophers of the twentieth century in spite of his well-known transgressions his complicity with National Socialism and his inability to show remorse or compassion for its victims In *The Duplicity of Philosophy's Shadow* Elliot R. Wolfson intervenes in a debate that has seen much attention in scholarly and popular media from a unique perspective as a scholar of Jewish mysticism and philosophy who has been profoundly influenced by Heidegger's work Wolfson sets out to probe Heidegger's writings to expose what remains unthought In spite of Heidegger's explicit anti-Semitic statements Wolfson reveals some crucial aspects of his thinking including criticism of the biological racism and militant apocalypticism of Nazism that betray

an affinity with dimensions of Jewish thought the triangulation of the concepts of homeland language and peoplehood Jewish messianism and the notion of historical time as the return of the same that is always different inclusion exclusion and the status of the other the problem of evil in kabbalistic symbolism Using Heidegger s own methods Wolfson reflects on the inextricable link of truth and untruth and investigates the matter of silence and the limits of speech He challenges the tendency to bifurcate the relationship of the political and the philosophical in Heidegger s thought but parts company with those who write off Heidegger as a Nazi ideologue Ultimately The Duplicity of Philosophy s Shadow argues the greatness and relevance of Heidegger s work is that he presents us with the opportunity to think the unthinkable as part of our communal destiny as historical beings

Untimely Beggar Patrick Greaney, This highly original book takes as its starting point a central question for nineteenth and twentieth century literature and philosophy how to represent the poor Covering the period from the publication of *Les Fleurs du Mal* in 1857 to the composition of Benjamin s final texts in the 1930s *Untimely Beggar* investigates the coincidence of two modern literary and philosophical interests representing the poor and representing potential To take account of literature s relation to the poor Patrick Greaney proposes the concept of impoverished writing which withdraws from representing objects and registers the existence of power By reducing itself to the indication of its own potential by impoverishing itself literary language attempts to engage and participate in the power of the poor This focus on impoverished language offers new perspectives on major French and German authors including Marx Nietzsche Mallarmé Rilke and Brecht and makes significant contributions to recent debates about power and potential in thinkers such as Agamben Deleuze Foucault Hardt and Negri In doing so Greaney offers significant insights into modernity s intense philosophical and literary interest in socioeconomic poverty Patrick Greaney is assistant professor of German studies at the University of Colorado Boulder
