Desert Christians An Introduction To The Literature Of Early Monasticism:

Desert Christians William Harmless, 2004-06-17 In the fourth century the deserts of Egypt became the nerve center of a radical new movement what we now call monasticism Groups of Christians from illiterate peasants to learned intellectuals moved out to the wastelands beyond the Nile Valley and in the famous words of Saint Athanasius made the desert a city In so doing they captured the imagination of the ancient world They forged techniques of prayer and asceticism of discipleship and spiritual direction that have remained central to Christianity ever since Seeking to map the soul's long journey to God and plot out the subtle vagaries of the human heart they created and inspired texts that became classics of Western spirituality These Desert Christians were also brilliant storytellers some of Christianity's finest This book introduces the literature of early monasticism It examines all the best known works including Athanasius Life of Antony the Lives of Pachomius and the so called Sayings of the Desert Fathers Later chapters focus on two pioneers of monastic theology Evagrius Ponticus the first great theoretician of Christian mysticism and John Cassian who brought Egyptian monasticism to the Latin West Along the way readers are introduced to path breaking discoveries to new texts and recent archeological finds that have revolutionized contemporary scholarship on monastic origins Included are fascinating snippets from papyri and from little known Coptic Syriac and Ethiopic texts Interspersed in each chapter are illustrations maps and diagrams that help readers sort through the key texts and the richly textured world of early monasticism Geared to a wide audience and written in clear jargon free prose *Desert Christians* offers the most comprehensive and accessible introduction to early monasticism

The Oxford Handbook of Christian Monasticism Bernice M. Kaczynski, 2020-09-30 The Handbook takes as its subject the complex phenomenon of Christian monasticism It addresses for the first time in one volume the multiple strands of Christian monastic practice Forty four essays consider historical and thematic aspects of the Catholic Eastern Orthodox Oriental Orthodox Protestant and Anglican traditions as well as contemporary new monasticism The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day Taken together they offer not a narrative survey but rather a map of the vast terrain The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism It presents the work of both academic and monastic authors and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues They indicate developing trends in their areas of specialisation The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies In today's world where

there is increasing interest in all world monasticisms where scholars are adopting more capacious global approaches to their investigations and where monks and nuns are casting a fresh eye on their ancient traditions this publication is especially timely
