Design For A New Europe:

Design for a New Europe John Gillingham, 2006-04-27 How did the process of European integration break down how can it be repaired In *European Integration 1950-2003* John Gillingham reviewed the history of the European project and predicted the rejection of the European constitution Now the world's leading expert on the EU maps out a route to save the Union The four chapters of this penetrating fiercely argued and often witty book subject today's dysfunctional European Union to critical scrutiny in an attempt to show how it is stunting economic growth sapping the vitality of national governments and undermining competitiveness It explains how the attempt to revive the EU by turning it into a champion of research and development will backfire and demonstrates how Europe's great experiment in political and economic union can succeed only if the wave of liberal reform now under way in the historically downtrodden east is allowed to sweep away the prosperous and complacent west *The New Europe*, 1918

European Foreign Policy Simon J. Nuttall, 2000 This study traces the development of the European Union's foreign policy making from the old governmental co operation EPC to the common foreign and security policy introduced by the Maastricht Treaty It is the first time the process had been explained from a comprehensive historical and political viewpoint The impact of the fall of communism as well as the Gulf War and the early stages of the conflict in Yugoslavia are analyzed in detail The personal roles played by Mitterrand Kohl and Bush are also vividly described

Europe Reborn Harold James, 2014-07-10 In the early twentieth century brutal nation states such as Mussolini's Italy Stalin's Russia and Hitler's Germany came to the fore and the twin evils of dictatorship and war ensured the rapid destruction of liberal democracy market economics and the international order In contrast the latter half was concerned with re thinking and re shaping these core values which still guide political life after the millennium Harold James

analyses the failures and achievements of the twentieth century The demands of the post war period namely the place of Europe in a wider international order are also examined Features include Boxed Case Studies Maps Plates Figures Short Biographies Chronologies Statistical Appendix James lucidly argues that European societies today are dominated by the trend to converge around the principles of democracy market economics and international integration He shows that the stability brought by the gradual unwinding of the nation state and the end of left right politics have created a Europe reborn
