Tharp,2022-11-22 Exploring how design can be used for good prompting self reflection igniting the imagination and affecting positive social change Good design provides solutions to problems It improves our buildings medical equipment clothing and kitchen utensils among other objects But what if design could also improve societal problems by prompting positive ideological change In this book Bruce and Stephanie Tharp

survey recent critical design practices and propose a new more inclusive field of socially minded practice discursive design While many consider good design to be unobtrusive intuitive invisible and undemanding intellectually discursive design instead targets the intellect prompting self reflection and igniting the imagination Discursive design derived from discourse expands the boundaries of how we can use design how objects are in effect good s for thinking Discursive Design invites us to see objects in a new light to understand more than their basic form and utility Beyond the different foci of critical design speculative design design fiction interrogative design and adversarial design Bruce and Stephanie Tharp establish a more comprehensive unifying vision as well as innovative methods They not only offer social criticism but also explore how objects can for example be used by counselors in therapy sessions by town councils to facilitate a pre vote discussions by activists seeking engagement and by institutions and industry to better understand the values beliefs and attitudes of those whom they serve Discursive design sparks new ways of thinking and it is only through new thinking that our sociocultural futures can change *Exploring the Theory, Pedagogy and Practice of Networked Learning* Lone Dirckinck-Holmfeld, Vivien Hodgson, David McConnell, 2011-10-29 Based on a selection of the most relevant and high quality research papers from the 2010 Networked Learning Conference this book is an indispensable resource for all researchers instructional designers program managers and learning technologists interested in the area of Technology Enhanced Learning The book was an important catalyst for the Springer Research in Networked Learning Book Series edited by Vivien Hodgson and David McConnell Details of the Research in Networked Learning Book Series and current titles can be found at <http://www.springer.com/series/11810> This volume provides information on current trends and advances in research on networked learning technology enhanced learning and e learning Specifically it provides cutting edge information in the areas of Designing and Facilitating Learning in a Networked World Methodologies for Research in Networked Learning Learning in Social Networks Embedding Networked Learning in Public and Private Organizations Problem based Networked Learning Globalization and Multiculturalism in Networked Learning Networked Learning and International Development Participation and Alienation in Networked Learning Textile Technology and Design Deborah Schneiderman, Alexa Griffith Winton, 2016-01-28 Textile Technology and Design addresses the critical role of the interior at the intersection of design and technology with a range of interdisciplinary arguments by a wide range of contributors from design practitioners to researchers and scholars to aerospace engineers Chapters examine the way in which textiles and technology while seemingly distinct continually inform each other through their persistent overlapping of interests and eventually coalesce in the practice of interior design Covering all kinds of interiors from domestic prefabricated kitchens and 3D wallpaper to extreme underwater habitats and space stations it features a variety of critical aspects including pattern and ornament domestic technologies craft and the imperfect gender issues sound and smart textiles This book is essential reading for students of textile technology textile design and interior design **Scale** Gerald Adler, Timothy Brittain-Catlin, Gordana Fontana-Giusti, 2013-01-11 Scale is a

word which underlies much of architectural and urban design practice its history and theory and its technology Its connotations have traditionally been linked with the humanities in the sense of relating to human societies and to human form To build in scale is an aspiration that is usually taken for granted by most of those involved in architectural production as well as by members of the public yet in a world where value systems of all kinds are being questioned the term has come under renewed scrutiny The older more particular meanings in the humanities pertaining to classical Western culture are where the sense of scale often resides in cultural production Scale may be traced back ultimately to the discovery of musical harmonies and in the arithmetic proportional relationship of the building to its parts One might question the continued relevance of this understanding of scale in the global world of today What in other words is culturally specific about scale And what does scale mean in a world where an intuitive visual understanding is often undermined or superseded by other senses or by hyper reality Structured thematically in three parts this book addresses various issues of scale The book includes an introduction which sets the scene in terms of current architectural discourse and also contains a visual essay in each section It is of interest to undergraduate and postgraduate students academics and practitioners in architecture and architectural theory as well as to students in a range of other disciplines including art history and theory geography anthropology and landscape architecture

Mouse Muse Lorna Owen, 2014-11-18 A beautifully designed introduction to art history by way of artworks that feature the mouse from the ancient world to drawings by Picasso Disney and Art Spiegelman Across centuries and civilizations artists have used the mouse the planet's most common mammal after us to illustrate our myths and beliefs Mice have appeared as Japanese symbols of good luck or medieval emblems of evil in Arab fables Russian political satire and Nazi propaganda as scientific tools and to help us challenge the way we see nature With more than 80 rarely reproduced works including paintings by Hieronymus Bosch and Gustav Klimt a silkscreen by Andy Warhol a print by Hokusai a photograph by Andr Kert sz a sculpture by Claes Oldenburg a video installation by Bruce Nauman a performance by Joseph Beuys and many more Lorna Owen has created an engaging presentation of an extraordinary range The pieces which represent every period of visual art are accompanied by Owen's intriguing text about the story behind each work She has combined her passion for art and her empathy for the unsung archetype of the animal kingdom to explain not only how or why the artist came to use the mouse as a subject but how the art in the end reveals more about us than it could ever reveal about this humble creature

Writing Design Grace Lees-Maffei, 2013-09-12 How do we learn about the objects that surround us As well as gathering sensory information by viewing and using objects we also learn about objects through the written and spoken word from shop labels to friends recommendations and from magazines to patents But even as design commentators have become increasingly preoccupied with issues of mediation the intersection of design and language remains under explored Writing Design provides a unique examination of what is at stake when we convert the material properties of designed goods into verbal or textual description Issues discussed include the role of text

in informing design consumption designing with and through language and the challenges and opportunities raised by design without language Bringing together a wide range of scholars and practitioners Writing Design reveals the difficulties ethics and politics of writing about design **OE Case Files, Vol. 01** Simone Ferracina, 2021-05-06 Over the past ten years Organs Everywhere has promoted conversations that approach architectural design from the edges of the discipline testing its boundaries technologies methods and evaluation systems and keeping them unstable It has valued transdisciplinary speculative and irreverent explorations over strict publishing formats and academic purity promoting a profanatory and open ended ethos Each issue has strung together disparate organs and limbs activating precarious couplings and associations and testing new metabolisms and assemblages And so does the first volume of Case Files continue its commitment to the making and unmaking of monsters both by anthologising past contributions into fresh configurations and designs and by combining them with entirely new articles and voices Here philosophers designers experimental architects artists science fiction writers activists and poets shift expand and re imagine notions of space time inhabitation technology knowledge use value and experience A patchwork of essays stories design experiments buildings art installations drawings prose poems photographs and speculative projects collide in the book infecting simple disciplinary orthodoxies with doubt and potentials uncertainty and hope indecisive photons and softness metatactility and haunted houses neurodiversity and protocells prosthetics grease and darkness post human scenographies software and GPS anklets anthropocenic devices paprika and synthetic biology

Design and Creativity Guy Julier, Liz Moor, 2009-08-01 Design and other creative industries not only shape our lives in numerous ways providing cultural goods such as films music and magazines but also shape the look and feel of everyday objects and spaces The creative industries are also important economically governments and businesses now make considerable efforts to manage creativity for a range of political and economic ends Does the management of design conflict with traditional ideas of creative freedom and autonomy How do government policies and business priorities influence the day to day practices of designers And how far have the processes and purpose of creative work been changed by its new centrality to business and government Bringing together case studies and material from a range of industries and contexts as well as a series of interviews with practitioners Design and Creativity provides a cutting edge account of key trends in the creative industries at the start of the twenty first century History of Modern Design Third Edition David Raizman, 2023-08-31 This unparalleled and wide ranging book surveys the history of applied arts and industrial design from the eighteenth century to the present day exploring the dynamic relationship between design and manufacturing and the technological social and commercial contexts in which this relationship has developed In this extensively revised and expanded third edition David Raizman addresses international questions more fully with the addition of six Global Inspiration sections that examine the contributions of non Western traditions rendering the very notion of a national design debatable The text also pays closer attention to issues of gender race and climate change and their impact on design With over 580

illustrations mostly in colour History of Modern Design is an inclusive well balanced introduction to a field of increasing scholarly and interdisciplinary research and provides students in design with historical perspectives of their chosen fields of study
