Neibaur, 2017-04-10 W C Fields was at the top among comedians during Hollywood s Golden Era of the 1930s and 1940s and has since remained a comic icon Despite his character s misanthropic child hating alcoholic tendencies his performances were enduringly popular and Fields became personally defined by them This critical study of his work provides commentary and background on each of his films from the early silents through the cameos near the end of his life with fresh appraisals of his well known classics Pictures once believed to be lost that have been discovered and restored are discussed and new information is given on some that remain lost

Kelley, 2018-06-28 Soundies Jukebox Films and the Shift to Small Screen Culture is the first and only book to position what are called Soundies within the broader cultural and technological milieu of the 1940s From 1940 to 1946 these musical films circulated in everyday venues including bars bowling alleys train stations hospitals and even military bases Viewers would pay a dime to watch them playing on the small screens of the Panoram jukebox This book expands U S film history beyond both Hollywood and institutional film practices Examining the dynamics between Soundies short musical films the Panoram s film jukebox technology their screening spaces and their popular discourse Andrea J Kelley provides an integrative approach to historic media exhibition She situates the material conditions of Soundies screening sites alongside formal considerations of the films and their unique

politics of representation to illuminate a formative moment in the history of the small screen *Doing Digital Film History* Sarah-Mai Dang, Tim van der Heijden, Christian Gosvig Olesen, 2024-12-30 How has the digital turn shaped the practices of film historical research and teaching While computational approaches have been used by film historians since the 1960s and 1970s the arrival and use of digital tools and methods in recent decades has fundamentally changed the ways we search analyze interpret present and so think and write about film history from digital archival and curatorial practices data driven search and analysis of film historical collections to the visualization and dissemination of film historical materials online While film historians have increasingly embraced the new possibilities brought by digital technologies their practical epistemological and methodological implications need further exploration What opportunities does the digitization of film historical sources provide for film historians What new questions can be raised by using digital methods What new perspectives emerge from analyzing interpreting and visualizing film historical data at the levels of both close and distant or scalable reading and viewing By focusing on the concepts tools and practices of digital film historiography this edited volume aims to contribute to a better understanding and critical reflection on the changes and continuities of doing film history in the digital age **The Happiest Trails** John Brooker, 2017-02-09 John Brooker writes in his Introduction B westerns have always been part of my life I decided to tour the US by Greyhound bus and try and track down some of my childhood heroes From that and subsequent trips Brooker began to write books magazine columns and even a TV series Movie Memories This book contains his interviews with the actors and other research on the B westerns Fully illustrated **Rediscovering U.S. Newsfilm** Mark Garrett Cooper, Sara Beth Levavy, Ross Melnick, Mark Williams, 2018-06-14 The twentieth century generated tens of thousands of hours of American newsfilm but not the scholarly apparatus necessary to analyze and contextualize them Assembling new approaches to the study of U S newsfilm in cinema and television this book makes a long overdue critical intervention in the field of film and media studies by addressing the format s inherent intermediality its mediation of events for local national and transnational communities its distinctive archival legacies and consequently its integral place in film and television studies more broadly This collection brings fresh contemporary methodologies and analysis to bear on a vast amount of material that has languished in relative obscurity for far too long *The Soundies* Mark Cantor, 2023-04-19 The 1940s saw a brief audacious experiment in mass entertainment a jukebox with a screen Patrons could insert a dime then listen to and watch such popular entertainers as Nat King Cole Gene Krupa Cab Calloway or Les Paul A number of companies offered these tuneful delights but the most successful was the Mills Novelty Company and its three minute musical shorts called Soundies This book is a complete filmography of 1 880 Soundies the musicians heard and seen on screen recording and filming dates arrangers soloists dancers entertainment trade reviews and more Additional filmographies cover more than 80 subjects produced by other companies There are 125 photos taken on film sets along with advertising images and production documents More than 75 interviews narrate the firsthand experiences and recollections of Soundies directors and

participants Forty years before MTV the Soundies were there for those who loved the popular music of the 1940s This was truly music for the eyes **Format Matters** Marek Jancovic,Axel Volmar,Alexandra Schneider,2020-02-19 From TIFF files to TED talks from book sizes to blues stations the term format circulates in a staggering array of contexts and applies to entirely dissimilar objects and practices How can such a pliable notion meaningfully function as an instrument of classification in so many industries and scientific communities Comprising a wide range of case studies on the standards practices and politics of formats from scholars of photography film radio television and the Internet Format Matters charts the many ways in which formats shape and are shaped by past and present media cultures This volume represents the first sustained collaborative effort to advance the emerging field of format studies **When the Cock Crows** Richard Lewis Ward,2016-06-02 Influential during Hollywood s silent film era the Path Exchange was a multinational film company with a production and distribution model very different from the self contained units of most major studios When the Cock Crows A History of the Path Exchange by Richard Lewis Ward tells the unconventional story of this unique company examining its triumphs and failures on the margins of the Hollywood system and its legacy in the movie business Ward traces the company s turbulent evolution from its roots as an American distributor for Path Fr res its French parent studio through its many subsequent changes in ownership to its final years under the controversial leadership of Joseph P Kennedy and the eventual merger of the company s production department with RKO Included are the stories of the unlikely survival of Path s nonproduction assets such as Path Industries Inc Path America Distributing Co Inc and Path Communications Corporation which continued to operate as part of the industry long after the Exchange had ceased to exist Ward also provides a fascinating glimpse into the silent movie era and the business and creative decisions that led the Exchange to fail Film historians have largely ignored the Path Exchange despite its having produced some of the most famous early serials including the series that began with The Perils of Pauline and distributed the first films of comedy legends Harold Lloyd Harry Langdon Laurel and Hardy and Our Gang When the Cock Crows reveals the promise and peril of early Hollywood and establishes the company s vital place in film history creating a more vivid picture of this era The Channeled Image Erica Levin,2022-11-23 A fascinating look at artistic experiments with televisual forms Following the integration of television into the fabric of American life in the 1950s experimental artists of the 1960s began to appropriate this novel medium toward new aesthetic and political ends As Erica Levin details in The Channeled Image groundbreaking artists like Carolee Schneemann Bruce Conner Stan VanDerBeek and Aldo Tambellini developed a new formal language that foregrounded television s mediation of a social order defined by the interests of the state capital and cultural elites The resulting works introduced immersive projection environments live screening events videographic distortion and televised happenings among other forms For Levin the channeled image names a constellation of practices that mimic simulate or disrupt the appearance of televised images This formal experimentation influenced new modes of installation which took shape as multi channel

displays and mobile or split screen projections or in some cases experimental work produced for broadcast Above all this book asks how artistic experimentation with televisual forms was shaped by events that challenged television broadcasters claims to authority events that set the stage for struggles over how access to the airwaves would be negotiated in the future
