Cases And Materials On The Regulation Of International Business And Economic Relations:

Cases and Materials on the Regulation of International Business and Economic Relations Alan C. Swan,1991

Cases and Materials on the Regulation of International Business and Economic Relations Alan C. Swan,John Francis Murphy,2001 **Cases and Materials on the Regulation of International Business and Economic Relations** Alan C. Swan,John Francis Murphy,1997 *Cases and Materials of the Regulation on International Business and Economic Relations* Alan C. Swan,John A. Murphy,John Francis Murphy,1991 Cases and Materials on the Regulation of International Business and Economic Relations Alan Swan,John Murphy,1999-12-31 This publication supplements the 1999 book *Cases and Materials on the Regulation of International Business and Economic Relations* Second Edition **The United Nations and International Law** Christopher C. Joyner,1997-04-28 This volume provides students and scholars with a text that examines explains and appraises contributions made by the United Nations to contemporary international law and the law creating process The authors consider how UN institutions have made the law what law has been made and the extent to which that law has been meaningfully accepted by and evidenced in contemporary state practice The study first deals with processes and measures that cut across law making covering practical as well as conceptual aspects Then the substantive law is addressed in terms of the different fields of activity that the United Nations has made subject to legal rules and processes Some chapters cover prominent areas such as human rights use of force and economic relations others deal with topics which have not previously been examined with sufficient care such as labor the environment refugees and women The book s final section deals with the internal law of the UN system itself the international civil services and financial contributions **Basic Documents on International Trade Law** Chia-Jui Cheng,2024-11-25 International Contracts and National Economic Regulation:Dispute Resolution Through International Commercial Arbitration Mahmood Bagheri,2000-12-06 The growth of national economic regulation and the process of globalisation increasingly expose international transactions to an array of regulations from different jurisdictions These developments often contribute to widespread international contractual failures when parties claim the incompatibility of their contractual obligations with regulatory laws The author challenges conventional means of dispute resolution and argues for an interdisciplinary approach whereby disciplines such as international economic law conflict of laws contract law and economic regulations are functionally united to resolve international and multifaceted regulatory disputes He identifies the normative foundation of contract law as an important determinant in this process contending that contract law is essentially neutral and underpinned by the concept of corrective justice while economic regulations are mainly prompted by distributive justice Applying this corrective distributive justice dichotomy to international contracts the author critically assesses major conflict of laws approaches such as proper law the Rome Convention and governmental interest analysis which could disregard either public interest or private rights The author taking these theories into account proposes an alternative two dimensional interest

analysis approach He tests the viability of this approach with reference to arbitral awards and court decisions in various jurisdictions and concludes that it uniquely fits into the structure of international commercial arbitration In adopting this approach arbitrators would take into account both corrective and distributive justice and to the extent that corrective justice prevails would be able to avert a total failure of the contract The American Society of International Law's First Century, 1906-2006 Frederic L. Kirgis, 2006-04-01 From the historic launch of the organization by such luminaries as Elihu Root and Charles Evans Hughes to the recent era when international law is more and more in the public realm Kirgis's book traces the evolution of the organization and its relationship to events in the United States and around the world As he says in the preface In the end the reader will have to make his/her own judgment about how well the Society has run the course it set out for itself in 1906 I hope this book will provide a basis for that judgment And of course no judgment at this stage can be final The American Society of International Law will carry on into its second century with new and continuing programs that take into account what it has done in its first one hundred years It will continue to do its best to demonstrate not only what international law is or should be but also that in the words of former ASIL President Louis Henkin international law matters
