Moore brings new life to the Old World and in the process sends readers into paroxysms of laughter and delight.

Included are stories of Thomas Stevens, the doughty Englishman who circumnavigated the world on a penny-farthing; the 1904 Tour de France winner who was disqualified for catching the train; the 1937 Japanese invasion of China spearheaded by 50,000 bicycle-mounted troops; and the man who soared over nine circus elephants on an ordinary yellow bike. The stories come from every corner of the cycling world, whether it's the open road, the velodrome, or the BMX track. Historical Dictionary of Cycling Jeroen Heijmans, Bill Mallon, 2011-10-16

The nearly 150-year-old sport of cycling had its first competition in France in 1868. Soon afterward, the need arose for purpose-built cycling tracks because of poor road conditions at the time. Racing on blocked-off pieces of street or grass soon evolved into racing on special tracks called velodromes. This development marked the split into what are still the two main forms of cycling competition: road racing and track racing. Initially, track cycling was more popular in terms of public attention and money to be earned by racers, but this gradually changed in favor of road racing, which has been the most popular form of cycling since at least the end of World War II. The Historical Dictionary of Cycling takes a closer look at the sport as well as discussing the use of bicycles as a means of fitness, touring, and commuting. This is done through a chronology, an introductory essay, appendixes, photos, a bibliography,

and over 500 cross referenced dictionary entries on cycling's two main disciplines road and track as well as brief overviews of the other forms of cycling This book is an excellent access point for students researchers and anyone wanting to know more about cycling
