Juliana de Nooy, 2020-07-30 While only one book length memoir recounting the sojourn of an Australian in France was published in the 1990s well over 40 have been

published since 2000 overwhelmingly written by women Although we might expect a focus on travel intercultural adjustment and communication in these texts this is the case only in a minority of accounts More frequently France serves as a backdrop to a project of self renovation in which transplantation to another country is incidental hence the question What's France got to do with it The book delves into what France represents in the various narratives its role in the self transformation and the reasons for the seemingly insatiable demand among readers and publishers for these stories It asks why these memoirs have gained such traction among Australian women at the dawn of the twenty first century and what is at stake in the fascination with France Savoring Gotham Andrew F. Smith, 2015 Savoring Gotham traces the rise of New York City's global culinary stardom in 570 accessible yet well researched A Z entries From the Native Americans who arrived in the area 5 000 years before New York was New York and who planted the maize squash and beans that European and other settlers to the New World embraced centuries later to Greek diners in the city that are arguably not diners at all this is the first A Z reference work to take a broad and historically informed approach to NYC food and drink The Merchant John Askin Justin M. Carroll, 2017-09-01 John Askin a Scots Irish migrant to North America built his fur trade between the years 1758 and 1781 in the Great Lakes region of North America His experience serves as a vista from which to view important aspects of the British Empire in North America The close interrelationship between trade and empire enabled Askin's economic triumphs but also made him vulnerable to the consequences of imperial conflicts and mismanagement The ephemeral contested nature of British authority during the 1760s and 1770s created openings for men like Askin to develop a trade of smuggling liquor or to challenge the Hudson's Bay Company's monopoly over the fur trade and allowed them to boast in front of British officers of having the Key of Canada in their pockets How British officials responded to and even sanctioned such activities demonstrates the vital importance of trade and empire working in concert Askin's life s work speaks to the collusive nature of the British Empire its vital need for the North American merchants officials and Indigenous communities to establish effective accommodating relationships transgress boundaries real or imagined and reject certain regulations in order to achieve the empire s goals Beverage Consumption Habits around the World: Association with Total Water and Energy Intakes Lluis Serra-Majem, Mariela Nissensohn, 2018-07-04 This book is a printed edition of the Special Issue Beverage Consumption Habits around the World Association with Total Water and Energy Intakes that was published in Nutrients

The Politics of Self-Determination Volker Prott,2016-09-08 The Politics of Self Determination examines the territorial restructuring of Europe between 1917 and 1923 when a radically new and highly fragile peace order was established It opens with an exploration of the peace planning efforts of Great Britain France and the United States in the final phase of the First World War It then provides an in depth view on the practice of Allied border drawing at the Paris Peace Conference of 1919 focusing on a new factor in foreign policymaking academic experts employed by the three Allied states to aid in peace planning and border drawing This examination of the international level is juxtaposed with two case studies of disputed

regions where the newly drawn borders caused ethnic violence albeit with different results the return of Alsace Lorraine to France in 1918 19 and the Greek Turkish War between 1919 and 1922 A final chapter investigates the approach of the League of Nations to territorial revisionism and minority rights thereby assessing the chances and dangers of the Paris peace order over the course of the 1920s and 1930s Volker Prott argues that at both the international and the local levels the temptation of violence drove key actors to simplify the acclaimed principle of national self determination and use ethnic definitions of national identity While the Allies thus hoped to avoid uncomfortable decisions and painstaking efforts to establish an elusive popular will local elites administrations and paramilitary leaders soon used ethnic notions of identity to mobilise popular support under the guise of international legitimacy Henceforth national self determination ceased to be a tool of peace making and instead became an ideology of violent resistance Lincoln's First Crisis William Bruce Johnson, 2020-07-21 Lincoln's First Crisis concerns five of the most consequential months in American history December 1860 through April 1861 When Abraham Lincoln swore his oath as president the United States was disintegrating Seven states had seceded and as many as eight seemed poised to join them depending upon how the new president handled the secession crisis and its flashpoint Fort Sumter in South Carolina the heart of the rebellion The fate of the republic hung in the balance The Sumter crisis has been hotly debated and deeply researched for more than 150 years In this thoughtful reassessment William Bruce Johnson combines thorough research and the latest historiography with a litigator s methodical analysis and a storyteller's eye for meaningful detail Shortly after taking office Lincoln decided upon a plan to avoid war with the seceded states while keeping his inaugural promise to maintain a Union military presence in the South Because he chose not to reveal his plan to anyone rumors soon spread that he was simply afraid to act One source of such rumors was Lincoln s secretary of state William Henry Seward Resentful that Lincoln had deprived him of the Republican nomination and convinced that Lincoln lacked the political sophistication necessary to deal with the secession crisis Seward decided to negotiate with the Confederacy on his own and in secret General Winfield Scott meanwhile the Union s most senior military officer had for a decade depended upon Seward for political advice and now considered himself under orders from Seward not the president Johnson traces how Seward and Scott sabotaged Lincoln's plan From this account from his examination of various personalities such as that of Fort Sumter's commander Major Robert Anderson and from his granular research into aspects of the Order of Battle in Charleston Johnson has here constructed a new narrative of this crucial period culminating in a new theory of how and why the Civil War began as it did and how and why if the new president s orders had been properly carried out by Seward and Scott it might have been averted Lacan, Deleuze and World Politics Andreja Zevnik, 2016-02-26 This book aims to re think the way in which the subject is inscribed in the modern political and does so by exploring the potentiality of Lacano Deleuzian theoretical framework It concerns a different ontology and a non dualist understanding of political and legal existence by focusing on questions such as how to think alternative notions of political

existence and what kind of political social and legal order do these come to create This investigation into political appearance of subjects through concepts of law body and life is led and influenced by the thought of Gilles Deleuze and Jacques Lacan as well as Alain Badiou Antonio Negri and Slavoj i ek The book takes on various conceptualisations of life explores the relationship between law and life and develops an alternative notion of legal and political existence in particular in the context of rights On the back of Guant namo's legal and political discourses this work aims to show why and how the problems of world politics or the limitations of human rights discourse require an engagement with questions such as what it means to exist as a human being what forms of life are politically recognised which are not and why this distinction By pointing to a different ontology for thinking and understanding global politics and demonstrating how a trans disciplinary and philosophical approaches can foster the debates in world politics this book will be of interest to postgraduates and scholars working on critical normative ideas in international politics critical security studies and critical legal studies The Devil from Over the Sea Sarah Covington, 2022 Since his brutal conquest of Ireland Oliver Cromwell has attained the status of Ireland's national ogre This book uncovers the ways in which he was memorialised and sometimes conveniently forgotten from 1660 to 1900 exploring his diverse personae in history writing religious works literature political polemic folklore and Canon Constitution and Canon Change in Children's Literature Bettina Kümmerling-Meibauer, Anja the landscape Muller, 2016-12-01 This volume focuses on the de canonization processes in children's literature considering the construction and cultural historical changes of canons in different children's literatures Chapters by international experts in the field explore a wide range of different children's literatures from Great Britain Germany Scandinavia the Low Countries Eastern and Central Europe as well as from Non European countries such as Australia Israel and the United States Situating the inquiry within larger literary and cultural studies conversations about canonicity the contributors assess representative authors and works that have encountered changing fates in the course of canon history Particular emphasis is given to sociological canon theories which have so far been under represented in canon research in children's literature The volume therefore relates historical changes in the canon of children's literature not only to historical changes in concepts of childhood but to more encompassing political social economic cultural and ideological shifts This volume s comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation. This book thus renders evident the structural similarities between patterns and strategies of canon formation emerging in different children's literatures

**Aesthetic evaluation and film** Andrew Klevan, 2018-08-08 This book provides an in depth holistic examination of evaluative aesthetics and criticism as they apply to film Organised around the explanation of key concepts it illuminates connections between the work of philosophers theorists and critics and demonstrates the evaluation of form through the close analysis of film sequences The book advocates that aesthetic evaluation should be flexibly informed by a cluster of

concerns including medium convention prominence pattern and relation and rather than privileging a particular theory or film style it models a type of approach attention process and discourse Suitable for students of film studies and philosophical aesthetics at both undergraduate and postgraduate levels Aesthetic evaluation and film also provides a framework for academics researching or teaching in the area At the same time the crisp and lucid style will make the book accessible to a wider readership *Thundersticks* David J. Silverman,2016-10-10 David Silverman argues against the notion that Indians prized flintlock muskets more for their pyrotechnics than for their efficiency as tools of war Native peoples fully recognized the potential of firearms to assist them in their struggles against colonial forces and mostly against one another as arms races erupted across North America
