MHRA Medical Device Alert: MDA/2010/020

Update of 5008 Operating Instructions with respect to local colour-coding policy for dialyser couplings

Dear XXXXX,

As you may be aware, the MHRA sent out a Medical Device Alert (Ref: MDA/2010/020) on the 10th March 2010 regarding all dialysis machines and the potential for the red and blue dialyser couplings (also known as Hansen connectors) to be incorrectly configured, resulting in a significantly less efficient dialysis.

Fresenius Medical Care 5008 Dialysis Machines are supplied from the manufacturing plant with the dialyser couplings configured as:

Dialysate supply line: Red Dialysate return line: Blue

However, in the UK, many units choose to interchange this colour coding on installation to bring them in line with local colour coding policy and treatment procedures. According to our records, you requested that the dialyser couplings for your 5008 dialysis machines were interchanged on installation. Therefore, your 5008 dialyser couplings will be configured as:

Dialysate supply line: Blue Dialysate return line: Red

Our records show that you have XX such 5008 dialysis machines with Software Version X.XX.
