Freud's Moses Judaism Terminable And Interminable The Franz Rosenzweig Lecture Series:

Freud's Moses Yosef Hayim Yerushalmi, 1993-01-01 Moses and Monotheism Freud's last major book and the only one specifically devoted to a Jewish theme has proved to be one of the most controversial and enigmatic works in the Freudian canon. Among other things, Freud claims in the book that Moses was an Egyptian who derived the notion of monotheism from Egyptian concepts and that after he introduced monotheism to the Jews, he was killed by them. Since these historical and ethnographic assumptions have been generally rejected by biblical scholars, anthropologists, and historians of religion, the book has increasingly been approached psychoanalytically as a psychological document of Freud's inner life of his allegedly unresolved Oedipal complex and ambivalence over his Jewish identity. In Freud's Moses, a distinguished historian of the Jews brings a new perspective to this puzzling work. Yosef Hayim Yerushalmi argues that while attempts to psychoanalyze Freud's text may be potentially fruitful, they must be preceded by a genuine effort to understand what Freud consciously wanted to convey to his readers. Using both historical and philological analysis, Yerushalmi offers new insights into Freud's intentions in writing Moses and Monotheism. He presents the work as Freud's psychoanalytic history of the Jews, Judaism, and the Jewish psyche, his attempt under the shadow of Nazism to discover what has made the Jews what they are. In the process, Yerushalmi's eloquent and sensitive exploration of Freud's last work provides a reappraisal of Freud's feelings toward anti-Semitism and the gentile world, his ambivalence about psychoanalysis as a Jewish science, his relationship to his father, and above all, a new appreciation of the depth and intensity of Freud's identity as a godless Jew.

The Unfinished Business of Human Evolution Gilbert McArdle M.D., 2017-01-10 This book is written by Dr. Gilbert McArdle, who is a retired general surgeon. During his surgical practice, he treated numerous disease states in which it appeared that some of these illnesses could possibly be related to unresolved aspects of human evolution, e.g., recurrent diseases of the spine, hernias, arthritis, etc. Discussions of these various anomalies of human evolution, so to speak, are presented along with possible suggested evolutionary corrections, both anatomical and biochemical, of these anomalies. These discussions are prefaced by a brief review of the major historical concepts in the theory of evolution. Obviously, these personal suggestions and opinions concerning human evolution will be controversial or even unreasonable to evolutionists and those groups or individuals who do not believe in evolution. It should be stated that my intent is not to be offensive to anyone but merely to present several ideas about evolution that may perhaps stimulate interest in the multiple fascinating scientific aspects of evolution in general and human evolution in particular.

The Stakes of History David N. Myers, 2018-01-09 A leading scholar of Jewish history's bracing and challenging case for the role of the historian today. Why do we study history? What is the role of the historian in the contemporary world? These questions prompted David N. Myers's illuminating and poignant call for the relevance of historical research and writing. His inquiry identifies a number of key themes around which modern Jewish historians have wrapped their labors: liberation, consolation, and witnessing. Through these portraits, Myers revisits the chasm between history and memory, revealing the

middle space occupied by modern Jewish historians as they work between the poles of empathic storytelling and the critical sifting of sources History properly applied can both destroy ideologically rooted myths that breed group hatred and create new memories that are sustaining of life Alive in these investigations is Myers s belief that the historian today can and should attend to questions of political and moral urgency Historical knowledge is not a luxury to society but an essential requirement for informed civic engagement as well as a vital tool in policy making conflict resolution and restorative justice

Moses among the Moderns ,2024-04-30 A historic lawgiver and founder of an ancient nation Moses was powerful and pivotal in the imagination of modern Germany The late eighteenth to early twentieth century was an intense period of religious controversy especially on the Jewish question with new models for understanding faith science and the past This volume focuses on the identification of Jewish law both Pentateuch and Talmud with the figure of Moses to trace the fascinations and anxieties of the Bible in modern culture Through diverse perspectives it examines the representations and appropriations of Moses as a father of Judaism and framer of European civilization *What Am I Missing?* Joseph A. Edelmet,2020-02-27 What Am I Missing Illuminates the difficult life lesson that everyone is missing something in their lives This truth includes six significant characters of the Hebrew Bible Abraham and Rachel Moses and Miriam and David and Esther Using texts from the Hebrew Bible as our source of interpretation we search for the meaning of what is missing in each of them and ourselves These challenges provoke questions that have no simple answers and stimulate us to reflect on being a human with purpose and hope today **Modernity as Exception and Miracle** Eduardo Sabrofsky,2020-08-01 Translated from the Spanish De lo extraordinario Nominalismo y Modernidad this book argues that a defining aspect of modernity is an ever increasing pursuit of and need for what Eduardo Sabrofsky calls the extraordinary a term that encompasses both the exception and the miraculous Sabrofsky shows the degree to which Robert Musil s novel The Man without Qualities functions as a paradoxical paradigm of the extraordinary and he extends the theoretical insights drawn from Musil s magisterial work through a series of inquiries into cardinal elements of modern literature material culture historiography physical science psychoanalysis and political theory Sabrofsky demonstrates how the extraordinary condition of modernity emerges from the debates conducted by the last representatives of medieval scholasticism in which nominalism defeated realism and he resituates the results of this triumph of nominalism in the writings of Friedrich Nietzsche Theodor Adorno Walter Benjamin and Georges Bataille among others What Happened to Abraham? Victoria Aarons,2005 What Happened to Abraham Reinventing the Covenant in American Jewish Fiction examines the ways in which contemporary American Jewish writers reinvent and reconfigure stories of the Hebraic covenant as a way of conceiving negotiating and redefining Jewish identity in America In attempting to locate a place for Jewish identity at the end of the twentieth century and the beginning of the twenty first American Jewish writers look to an imaginary memory to reengage a defining central Jewish history that has post World War II become diluted in American culture The Faith of Fallen Jews David N.

Gordon, 2020-11-24 A beautifully written exploration of religion's role in a secular modern politics by an accomplished scholar of critical theory *Migrants in the Profane* takes its title from an intriguing remark by Theodor W Adorno in which he summarized the meaning of Walter Benjamin's image of a celebrated mechanical chess playing Turk and its hidden religious animus Nothing of theological content will persist without being transformed every content will have to put itself to the test of migrating in the realm of the secular the profane In this masterful book Peter Gordon reflects on Adorno's statement and asks an urgent question Can religion offer any normative resources for modern political life or does the appeal to religious concepts stand in conflict with the idea of modern politics as a domain free from religion's influence In answering this question he explores the work of three of the Frankfurt School's most esteemed thinkers Walter Benjamin Max Horkheimer and Theodor W Adorno His illuminating analysis offers a highly original account of the intertwined histories of religion and secular modernity
