Imaginary Worlds Wayne Fife, 2022-08-08 In this work the author contends that we should create a comparative framework for the study of imaginary worlds in the social sciences Making use of extended examples from both science fiction and fantasy fiction as well as the living movement of steampunk the reader is invited to an argument about how best to define imaginary worlds and approach them as social locations for qualitative research It is suggested in this volume that increasing economic and existential forms of alienation fuel the contemporary surge of participation in imaginary worlds from gaming worlds to young adult novels and impel a search for more humane forms of social and cultural organization Suggestions are made about the usefulness of imaginary worlds to social scientists as places for both testing out theoretical formulations and as tools for teaching in our classrooms

Uncanny Tales Robert Sheckley, 2014-05-13 The acclaimed author demonstrates his incredible versatility in this career spanning story collection that ranges from sci fi to supernatural horror Known for science fiction that combined brilliant speculation with sharp satirical wit Robert Sheckley was also capable of conjuring chills and inventing fantastical new worlds Uncanny Tales presents sixteen of the beloved author's best stories spanning a range of genres from across his long career Unforgettable early works are paired with some of his final pieces of fiction each with a brief introduction by the author The sixteen stories included are A Trick Worth Two of That The Mind Slaves of Manitori Pandora's Box Open with Care The Dream of Misunderstanding Magic Maples and Maryanne The New Horla The City of the Dead The Quijote Robot Emissary from a Green and Yellow World The Universal Karmic Clearing House Deep Blue Sleep The Day the Aliens Came Dukakis and the Aliens Mirror Games Sightseeing 2179 and Agamemnon's Run

Desiring Dragons Kevan Manwaring, 2014-05-30 Author of The Hobbit JRR Tolkien talked of desiring dragons that he would prefer a wilderness of dragons to the bleak territory of the unimaginative critic The genre of Fantasy including Science Fiction and its various sub genres in TV film computer games has never been more popular This book seeks to examine why this might be and why so many are tempted to write Fantasy fiction Tolkien suggested how consolation is an important criteria of the Fairy Tale we look at how writing Fantasy can be consoling in itself as well as a portal to Fantastic Realms for the reader Along the way famous dragons of myth legend and fiction will be encountered from Grendel to Smaug The riddles of dragons will be tackled and their hoard unlocked

Romantic Education in

Nineteenth-Century American Literature Monika Elbert, Lesley Ginsberg, 2014-12-05 American publishing in the long nineteenth century was flooded with readers primers teaching training manuals children's literature and popular periodicals

aimed at families These publications attest to an abiding faith in the power of pedagogy that has its roots in transatlantic Romantic conceptions of pedagogy and literacy The essays in this collection examine the on going influence of Romanticism in the long nineteenth century on American thinking about education as depicted in literary texts in historical accounts of classroom dynamics or in pedagogical treatises They also point out that though this influence was generally progressive the benefits of this social change did not reach many parts of American society This book is therefore an important reference for scholars of Romantic studies American studies historical pedagogy and education

Surviving the 21st Century Julian Cribb, 2016-09-20 The book explores the central question facing humanity today how can we best survive the ten great existential challenges that are now coming together to confront us Besides describing these challenges from the latest scientific perspectives it also outlines and integrates the solutions both at global and individual level and concludes optimistically This book brings together in one easy to read work the principal issues facing humanity It is written for the two next generations who will have to deal with the compounding risks they inherit and which flow from overpopulation resource pressures and human nature The author examines ten intersecting areas of activity mass extinction resource depletion WMD climate change universal toxicity food crises population and urban expansion pandemic disease dangerous new technologies and self delusion which pose manifest risks to civilization and potentially to our species long term future This isn't a book just about problems It is also about solutions Every chapter concludes with clear conclusions and consensus advice on what needs to be done at global level but it also empowers individuals with what they can do for themselves to make a difference Unlike other books it offers integrated solutions across the areas of greatest risk It explains why Homo sapiens is no longer an appropriate name for our species and what should be done about it

Hybridity in Life Writing Arnaud Schmitt, 2024-04-28 This book offers new perspectives on text image hybridity in the context of life writing Each chapter explores the very topical issue of how writers and artists combine two media in order to enhance the autobiographical narrative and experience of the reader It questions the position of images in relation to text both on the page and in terms of the power balance between media It also shows how hybridity operates beyond a semantic and cultural balance of power as the combination of text and images are able to produce content that would not have been possible separately Including a range of life writing and different visual media from paintings and photography to graphic memoirs and social media this edited collection investigates the point at which an image whether fixed or moving enters the autobiographical act and confronts the verbal form

Accumulation Jennifer Gabrys, Gay Hawkins, Mike Michael, 2013-07-24 From food punnets to credit cards plastic facilitates every part of our daily lives It has become central to processes of contemporary socio material living Universalised and abstracted it is often treated as the passive object of political deliberations or a problematic material demanding human management But in what ways might a politics of plastics deal with both its specific manifestation in particular artefacts and events and its complex dispersed heterogeneity Accumulation explores the vitality and complexity of plastic This
