From Fasting Saints To Anorexic Girls The History Of Self Starvation:

From Fasting Saints to Anorexic Girls Walter Vandereycken, Ron Van Deth, 2001-01-01 Down the centuries self starvation has taken many morbid guises This story culminates in the 19th century labelling of anorexia nervosa a condition which has since attracted a host of theories and explanations in the course of which a medical curiosity has been transformed into a modern disease

Victorian Literary Cultures Kenneth Womack, James M. Decker, 2016-11-01 Victorian Literary Cultures Studies in Textual Subversion provides readers with close textual analyses regarding the role of subversive acts or tendencies in Victorian literature By drawing clear cultural contexts for the works under review including such canonical texts as Dracula Jane Eyre Middlemarch and stories featuring Sherlock Holmes the critics in this anthology offer groundbreaking studies of subversion as a literary motif For some late nineteenth century British novelists subversion was a central aspect of their writerly existence Although or perhaps because most Victorian authors composed their works for a general and mixed audience many writers employed strategies designed to subvert genteel expectations In addition to using coded and oblique subject matter such figures also hid their transgressive material in plain sight While some writers sought to critique and even destabilize their society others juxtaposed subversive themes and aesthetics negatively with communal norms in hopes of quashing progressive agendas

Death in the Shape of a Young Girl Patricia Melzer, 2015-04-24 In the early 1970s a number of West German left wing activists took up arms believing that revolution would lead to social change In the years to come the bombings shootings kidnappings and bank robberies of the Red Army Faction RAF and Movement 2nd June dominated newspaper headlines and polarized legislative debates Half of the terrorists declaring war on the West German state were women who understood their violent political actions to be part of their liberation from restrictive gender norms As women participating in a brand of systematic violence usually associated with masculinity they presented a cultural paradox and their political decisions were viewed as gender transgressions by the state the public and even the burgeoning women s movement which considered violence as patriarchal and unfeminist Death in the Shape of a Young Girl questions this separation of political violence from feminist politics and offers a new understanding of left wing female terrorists actions as feminist practices that challenged existing gender ideologies Patricia Melzer draws on archival sources unpublished letters and interviews with former activists to paint a fresh and interdisciplinary picture of West Germany s most notorious political group from feminist responses to sexist media coverage of female terrorists to the gendered nature of their infamous hunger strikes while in prison Placing the controversial actions of the Red Army Faction into the context of feminist politics Death in the Shape of a Young Girl offers an innovative and engaging cultural history that foregrounds how gender shapes our perception of women s political choices and of any kind of political violence

Aguecheek's Beef, Belch's Hiccup, and Other Gastronomic Interjections Robert Appelbaum, 2008-09-15 We didn't always eat the way we do today or think and feel about eating as we now do But we can trace the roots of our own eating

culture back to the culinary world of early modern Europe which invented cutlery haute cuisine the weight loss diet and much else besides Aguecheek's Beef Belch's Hiccup tells the story of how early modern Europeans put food into words and words into food and created an experience all their own Named after characters in Shakespeare's Twelfth Night this lively study draws on sources ranging from cookbooks to comic novels and examines both the highest ideals of culinary culture and its most grotesque ridiculous and pathetic expressions Robert Appelbaum paints a vivid picture of a world in which food was many things from a symbol of prestige and sociability to a cause for religious and economic struggle but always represented the primacy of materiality in life Peppered with illustrations and a handful of recipes Aguecheek's Beef Belch's Hiccup will appeal to anyone interested in early modern literature or the history of food

Born Again Bodies R. Marie Griffith, 2004-10-04 Fat People Don't Go to Heaven screamed a headline in the tabloid Globe in November 2000 The story recounted the success of the Weigh Down Workshop the nation's largest Christian diet corporation and the subject of extensive press coverage from Larry King Live to the New Yorker In the United States today hundreds of thousands of people are making diet a religious duty by enrolling in Christian diet programs and reading Christian diet literature like What Would Jesus Eat and Fit for God Written with style and wit far ranging in its implications and rich with the stories of real people Born Again Bodies launches a provocative yet sensitive investigation into Christian fitness and diet culture Looking closely at both the religious roots of this movement and its present day incarnations R Marie Griffith vividly analyzes Christianity's intricate role in America's obsession with the body diet and fitness As she traces the underpinning of modern day beauty and slimness ideals as well as the bigotry against people who are overweight Griffith links seemingly disparate groups in American history including seventeenth century New England Puritans Progressive Era New Thought adherents and late twentieth century evangelical diet preachers

Women, Sainthood, and Power Oliva M. Espín, 2019-10-23 Women Sainthood and Power explores the life stories of an international gallery of female saints from the wide angle lens of several intellectual disciplines and the close up view afforded by keenly observed fine points of character Oliva M Espín combines multidisciplinary scholarly research with a novelist's eye for detail to create vivid portraits of saints in their times and places Using her own memories Espín argues that there are lessons to learn today from the lives of these exceptional women This book is recommended for scholars and students of psychology religious studies gender and women's studies history cultural studies and ethnic studies

Violent States and Creative States (Volume 2) John Adlam, Tilman Kluttig, Bandy Lee, 2018-05-03 This is a provocative collection exploring the different types of violence and how they relate to one another examined through the integration of several disciplines including forensic psychotherapy psychiatry sociology psychosocial studies and political science By examining the violent states of mind behind specific forms of violence and the social and societal contexts in which an individual act of human violence takes place the contributors reveal the dynamic forces and reasoning behind specific forms of violence including structural violence and conceptualise the societal structures

themselves as violent states Other research often stops short at examining the causes and risk factors for violence without considering the opposite states that may not only mitigate but allow for a different unfolding of individual and societal evolution As a potential antidote to violence the authors prescribe an understanding of these creative states with their psychological origins and their importance in human behaviour and meaning seeking Making a call to move beyond merely mitigating violence to the opposite direction of fostering creative potential this book is foundational in its capacity to cultivate social consciousness and effect positive change in areas of governance policy making and collective responsibility

Volume 2 Human Violence and Creative Humanity explores violent states of mind behavioural or subjective interpersonal violence including self injury and the fine distinctions between violent and creative states of mind Medical Muses Asti Hustvedt, 2012-01-01 In 1862 the Salpêtrière Hospital in Paris became the epicenter of the study of hysteria the mysterious illness then thought to affect half of all women There prominent neurologist Jean Martin Charcot's contentious methods caused furore within the church and divided the medical community Treatments included hypnosis piercing and the evocation of demons and despite the controversy they caused the experiments became a fascinating and fashionable public spectacle Medical Muses tells the stories of the women institutionalised in the Salpêtrière There is a tale of science and ideology medicine and the occult of hypnotism sadism love and theatre Combining hospital records municipal archives memoirs and letters Medical Muses sheds new light on a crucial moment in psychiatric history *Never Pure* Steven Shapin, 2010-06 Steven Shapin argues that science for all its immense authority and power is and always has been a human endeavor subject to human capacities and limits Put simply science has never been pure To be human is to err and we understand science better when we recognize it as the laborious achievement of fallible imperfect and historically situated human beings Shapin's essays collected here include reflections on the historical relationships between science and common sense between science and modernity and between science and the moral order They explore the relevance of physical and social settings in the making of scientific knowledge the methods appropriate to understanding science historically dietetics as a compelling site for historical inquiry the identity of those who have made scientific knowledge and the means by which science has acquired credibility and authority This wide ranging and intensely interdisciplinary collection by one of the most distinguished historians and sociologists of science represents some of the leading edges of change in the scholarly understanding of science over the past several decades Fat Church Anastasia Kidd, 2023-04-15 Whether your body is small or large aged or young disabled or abled toned or soft lithe or stiff or somewhere in between anti fatness affects us all because it is intended to Fat Church critiques anti fat prejudice and the Church's historic participation in it calling for a fatphobic reckoning for the sake of God's gospel of freedom Pastor and theological educator Anastasia Kidd reviews the history of diet culture fat studies beauty body policing and the white supremacist machinations underpinning them in order to work for a society rooted in body liberation for all Fat Church offers a disruption to social habits of shame and remembers

the theology of abundance that calls us all beloved by God The Land of the Hunger Artists Agustí Nieto-Galan,2023-11-23 From the 1880s to the 1920s hunger artists professional fasters lived on the fringes of public spectacle and academic experiment Agust Nieto Galan presents the history of this phenomenon as popular urban spectacle and subject of scientific study showing how hunger artists acted as mediators between the human and the social body Doctors journalists impresarios artists and others used them to reinforce their different philosophical views scientific schools political ideologies cultural values and professional interests The hunger artists generated heated debates on objectivity and medical pluralism and fierce struggles over authority recognition and prestige Set on the fringes of the freak show culture of the nineteenth century and the scientific study of physiology laboratories Nieto Galan explores the story of the public exhibition of hunger emaciated bodies and their enormous impact on the public sphere of their time 'Shall She Famish Then?' Nancy A. Gutierrez,2016-12-05 Nancy Gutierrez's exploration of female food refusal during the early modern period contributes to the ongoing conversation about female subjectivity and agency in a number of ways She joins such scholars as Gail Kern Paster Jonathan Sawday and Michael Schoenfeldt who locate early modern ideas of selfhood in the age's understanding of the body and bodily functions that is the recognition that behavior and feelings are a result of the internal workings of the body Exploring the portrayals of the anorectic woman in the work of Ford Shakespeare Heywood and others and arguing that the survival of these women undermines regulatory policies exercised over them by those in authority Gutierrez here demonstrates how female food refusal is a unique demonstration of individuality The chapters of this book reveal how the common cultural association of women and food manifests itself in the early modern period not as religious expression which is the medieval representation and not as an expression of dysfunctional adolescence and maturation our own contemporary view but rather as a trope in which the female body is a site of political apprehension and cultural change This study is neither a history nor a survey of the anorectic female body in early modern England but rather individual yet related discussions in which the starved female body is seen to signify certain unexpressed tensions within the culture The Devotion and Promotion of Stigmatics in Europe, c. 1800-1950 Tine Van Osselaer,Andrea Graus,Leonardo Rossi,Kristof Smeyers,2020-10-12 In the nineteenth century a new type of mystic emerged in Catholic Europe While cases of stigmatisation had been reported since the thirteenth century this era witnessed the development of the stigmatic young women who attracted widespread interest thanks to the appearance of physical stigmata To understand the popularity of these stigmatics we need to regard them as the saints and religious celebrities of their time With their miraculous bodies they fit contemporary popular ideas if not necessarily those of the Church of what sanctity was As knowledge about them spread via modern media and their fame became marketable they developed into religious celebrities *Research in the Social Scientific Study of Religion* R. L. Piedmont,2008-06-25 This volume provides a wide range of research on the psychological and sociological aspects of spirituality and religiousness Volume 19 also contains a special section focusing on

issues related to adolescent spirituality **Religion and Psychiatry** Peter Verhagen, Herman M. Van Praag, Juan José Lopez-Ibor, John Cox, Driss Moussaoui, 2012-02-27 Religion and spirituality is very much alive and shapes the cultural values and aspirations of psychiatrist and patient alike as does the choice of not identifying with a particular faith Patients bring their beliefs and convictions into the doctor patient relationship The challenge for mental health professionals whatever their own world view is to develop and refine their vocabularies such that they truly understand what is communicated to them by their patients Religion and Psychiatry provides psychiatrists with a framework for this understanding and highlights the importance of religion and spirituality in mental well being This book aims to inform and explain as well as to be thought provoking and even controversial Patiently and thoroughly the authors consider why and how when and where religion and spirituality are at stake in the life of psychiatric patients The interface between psychiatry and religion is explored at different levels varying from daily clinical practice to conceptual fieldwork The book covers phenomenology epidemiology research data explanatory models and theories It also reviews the development of DSM V and its awareness of the importance of religion and spirituality in mental health What can religious traditions learn from each other to assist the patient Religion and Psychiatry discusses this as well as the neurological basis of religious experiences It describes training programmes that successfully incorporate aspects of religion and demonstrates how different religious and spiritual traditions can be brought together to improve psychiatric training and daily practice Describes the relationship of the main world religions with psychiatry Considers training policy and service delivery Provides powerful support for more effective partnerships between psychiatry and religion in day to day clinical care This is the first time that so many psychiatrists psychologists and theologians from all parts of the world and from so many different religious and spiritual backgrounds have worked together to produce a book like this one In that sense it truly is a World Psychiatric Association publication Religion and Psychiatry is recommended reading for residents in psychiatry postgraduates in theology psychology and psychology of religion researchers in psychiatric epidemiology and trans cultural psychiatry as well as professionals in theology psychiatry and psychology of religion **The Art of Hunger** Alys Moody, 2018 When we think of writers today we often think of them as thin and poor as starving artists This book traces the history of this idea and asks why hunger has been such a compelling metaphor for thinking about writing in modern times *Eating Disorders and Obesity* Christopher G. Fairburn, Kelly D. Brownell, 2005-07-01 This unique handbook presents and integrates virtually all that is currently known about eating disorders and obesity in one authoritative accessible and eminently practical volume From leading international authorities 112 concise chapters encapsulate the latest information on all pertinent topics from biological psychological and social processes associated with risk to clinical methods for assessment and intervention The contents are organized to highlight areas of overlap between lines of research that often remain disparate Suggestions for further reading at the end of each chapter replace extended references and enhance the practical value and readability of the volume *Freedom and*

Confinement in Modernity A. Kordela, D. Vardoulakis, 2011-05-09 Kafka's literary universe is organized around constellations of imprisonment. *Freedom and Confinement in Modernity* proposes that imprisonment does not signify a tortured state of the individual in modernity. Rather, it provides a new reading of imprisonment, suggesting it allows Kafka to perform a critique of a modernity instead.

Horror and Religion Eleanor Beal, Jon Greenaway, 2019-07-15 *Horror and Religion* provides new readings of contemporary horror fiction in conjuncture with debates in religious studies and theology. It gives a broad analysis of a wide range of contemporary and historical horror texts in a new interdisciplinary way. This study establishes the importance of discussing theology and contemporary horror fiction in present scholarship.

The Secrets of Generation Raymond Stephanson, Darren Wagner, 2015-11-26 From theories of conception and concepts of species to museum displays of male genitalia and the politics of breastmilk, *The Secrets of Generation* is an interdisciplinary examination of the many aspects of reproduction in the eighteenth century. Exploring the theme of generation from the perspective of histories of medicine, literature, biology, technology, and culture, this collection offers a range of cutting edge approaches. Its twenty-four contributors, scholars from across Europe and North America, bring an international perspective to discuss reproduction in British, French, American, German, and Italian contexts. The definitive collection on eighteenth-century generation and its many milieus, *The Secrets of Generation* will be an essential resource for studying this topic for years to come.
