From Gabriel to Lucifer Valery Rees, 2012-12-04 For sceptics angels may be no more than metaphors poetic devices to convey at least for those with a religious sensibility an active divine interest in creation But for others angels are absolutely real creatures manifestations of cosmic power with the capacity either to enlighten or annihilate those whose awestruck paths they cross Valery Rees offers the first comprehensive history of these beautiful enigmatic and sometimes dangerous beings whose existence and actions have been charted across the eons of time and civilization Whether exploring the fevered visions of Ezekiel and biblical cherubim Persian genii Arab djinn Islamic archangels the austere and haunting icons of Andrei Rublev or Wim Wenders Wings of Desire and the more benign idea of the watchful guardian angel the author shows that the ubiquity of these celestial messengers reveals something profound if not about God or the devil then about ourselves our perennial preoccupation with the transcendent

main twentieth century texts usually studied as representative of the genre Aldous Huxley's *Brave New World* and George Orwell's *Nineteen Eighty Four* The remainder of the section examines the evolution of the genre in the second half of the twentieth century down to the present

Hulster,Brent A. Strawn,Ryan P. Bonfiglio,2015-10-28 Iconographic exegesis combines the study of biblical texts exegesis with the study of ancient expressions of visual art iconography Studying ancient visual art that is contemporary with the documents of the Old Testament gives remarkable insight not only on the meaning and historical context of the biblical text but also because it facilitates greater understanding of how the ancient authors and audiences saw thought and made sense of the world Iconography thus merits close attention as another avenue that can lead to a more nuanced and more complete understanding of the biblical text Each chapter of this book provides an exegesis of a particular biblical text or theme The book is organized around the tripartite structure of the Hebrew Bible and demonstrates that iconographical exegesis is pertinent to every nook and cranny of the Bible Within the three parts there is special emphasis on Genesis Isaiah and the Psalms in order to make the book attractive for classes that deal with one or more of these books and might therefore include an iconographic perspective In addition to connecting with a major issue in biblical interpretation theology or visual studies each chapter will end with one or two exercises directing the reader student to comparable texts and images enabling them to apply what was described in the chapter for themselves This approach enables beginners as well as advanced readers to integrate iconography into their toolbox of exegetical skills **Iconology, Neoplatonism, and the Arts in the**

Renaissance Berthold Hub,Sergius Koder,2020-09-23 The mid twentieth century saw a change in paradigms of art history iconology The main claim of this novel trend in art history was that renowned Renaissance artists such as Botticelli Leonardo or Michelangelo created imaginative syntheses between their art and contemporary cosmology philosophy theology and magic The Neoplatonism in the books by Marsilio Ficino and Giovanni Pico della Mirandola became widely acknowledged for

its lasting influence on art. It thus became common knowledge that Renaissance artists were not exclusively concerned with problems intrinsic to their work but that their artifacts encompassed a much larger intellectual and cultural horizon. This volume brings together historians concerned with the history of their own discipline and also those whose research is on the art and culture of the Italian Renaissance itself with historians from a wide variety of specialist fields in order to engage with the contested field of iconology. The book will be of interest to scholars working in art history, Renaissance history,

Renaissance studies, historiography, philosophy, theology, gender studies and literature. **Eating Otherwise** Maria Christou, 2017-09-28. This book explores the philosophical implications of the popular adage that you are what you eat through twentieth century literature. It investigates the connections between the alimentary and the ontological between what or how one eats and what one is. Maria Christou's focus is on two influential modernist figures, Georges Bataille and Samuel Beckett, and two influential postmodernist figures, Paul Auster and Margaret Atwood. She aims to theorize the relationship between modernism and postmodernism from a specifically alimentary perspective. By examining the work of these major twentieth century authors, this book focuses on strange or unusual acts of eating, eating otherwise as a means to ways of being otherwise. What can eating tell us about being, about who we are and about our being in the world? This powerful, innovative study takes literary food studies in a new direction. **Acta Conventus Neo-Latini Monasteriensis**

Religion and Politics in Neo Latin Literature. Forty-five individual and five plenary papers spanning the period from the Renaissance to the present offer a variety of themes covering a range of genres such as history, literature, philology, art history and religion. Women Who Fly Serinity Young, 2018-01-02. From the beautiful apsaras of Hindu myth to the swan maidens of European fairy tales, stories of flying women, some carried by wings, others by clouds, rainbows, floating scarves and flying horses, reveal the perennial fascination with and ambivalence about female power and sexuality. In *Women Who Fly*, Serinity Young examines the motif of the flying woman as it appears in a wide variety of cultures and historical periods in legends, myths, rituals, sacred narratives and artistic productions. She considers supernatural women like the Valkyries of Norse legend who transport men to immortality, winged deities like the Greek goddesses Iris and Nike, figures of terror like the Furies, witches and succubi, airborne Christian mystics and wayward, dangerous women like Lilith and Morgan le Fay. Looking beyond the supernatural, Young examines the modern mythology surrounding twentieth century female aviators like Amelia Earhart and Hanna Reitsch. Throughout, Young demonstrates that female power has always been inextricably linked with female sexuality.

and that the desire to control it is a pervasive theme in these stories This is vividly depicted for example in the twelfth century *Nibelungenlied* in which the proud warrior queen Brunnhilde loses her great physical strength when she is tricked into surrendering her virginity Even in the twentieth century the same idea is reflected in the exploits of the comic book and film character Wonder Woman who Young suggests retains her physical strength only because her love for fellow aviator Steve Trevor goes unrequited The first book to systematically chronicle the figure of the flying woman in myth literature art and pop culture *Women Who Fly* offers a fresh look at the ways in which women have both influenced and been understood by society and religious traditions throughout the ages and around the world
