From Ibm To Mgm Cinema At The Dawn Of The Digital Age:

From IBM to MGM Andrew Utterson,2019-07-25 Andrew Utterson's unique study charts the beginnings of digital cinema addressing both how filmmakers used new digital technologies and how attitudes and anxieties about the rise of the computer were represented in films such as Lang's *Desk Set*, Godard's *Alphaville*, Kubrick's *2001 A Space Odyssey* and Crichton's *Westworld*

Hollywood Action Films and Spatial Theory Nick Jones,2015-03-02 This book applies the discourse of the so called spatial turn to popular contemporary cinema in particular the action sequences of twenty first century Hollywood productions Tackling a variety of spatial imaginations contemporary iconic architecture globalisation and non places phenomenological knowledge of place consumerist spaces of commodity purchase cyberspace the diverse case studies not only detail the range of ways in which action sequences represent the challenge of surviving and acting in contemporary space but also reveal the consistent qualities of spatial appropriation and spatial manipulation that define the form Jones argues that action sequences dramatise the restrictions and possibilities of space offering examples of radical spatial praxis through their depictions of spatial engagement struggle and eventual transcendence

Contemporary Directors' Cinema Jacob Leigh,2024-12-12 Contemporary Directors Cinema refreshes the argument about the role of the director through the practice of evaluative criticism The book identifies what makes nine recent films successful achievements by their directors and collaborators Each chapter gives some context for the director's work but the central argument focuses on the style form and themes of each film while explicating aspects of point of view and tone Contemporary Directors Cinema argues that in each of its nine case studies the director's work is central to the achievement of economy unity eloquence subtlety depth vigour vividness and intensity By offering critical readings of nine films from mainstream film culture Contemporary Directors Cinema demonstrates that cinema remains vital as a director's medium The films discussed in this book are *Pain and Glory* 2019 *Shoplifters* 2018 *Parasite* 2019 *The White Ribbon* 2009 *Les Chansons d'amour* 2007 *The Bling Ring* 2013 *The Great Beauty* 2013 *Leviathan* 2014 and *Winter Sleep* 2014

Flickers of Film Jason Sperb,2015-12-15 Whether paying tribute to silent films in *Hugo* and *The Artist* or celebrating arcade games in *Tron Legacy* and *Wreck-It Ralph* Hollywood suddenly seems to be experiencing a wave of intense nostalgia for outmoded technologies To what extent is that a sincere lament for modes of artistic production that have nearly vanished in an all digital era And to what extent is it simply a cynical marketing ploy built on the notion that nostalgia has always been one of Hollywood's top selling products In *Flickers of Film* Jason Sperb offers nuanced and unexpected answers to these questions examining the benefits of certain types of film nostalgia while also critiquing how Hollywood's nostalgic representations of old technologies obscure important aspects of their histories He interprets this affection for the prehistory and infancy of digital technologies in relation to an industry wide anxiety about how the digital has grown to dominate Hollywood pushing it into an uncertain creative and economic future Yet he also suggests that Hollywood's nostalgia for old technologies ignores the professionals who once employed them as well

as the labor opportunities that have been lost through the computerization and outsourcing of film industry jobs Though it deals with nostalgia Flickers of Film is strikingly cutting edge one of the first studies to critically examine Pixar's role in the film industry cinematic representations of videogames and the economic effects of participatory culture As he takes in everything from Terminator Salvation to The Lego Movie Sperb helps us see what's distinct about this recent wave of self-aware nostalgic films how Hollywood nostalgia today isn't what it used to be **Cinema and Brexit** Neil Archer, 2020-09-03

Neil Archer's original study makes a timely and politically engaged intervention in debates about national cinema and national identity Structured around key examples of culturally English cinema in the years up to and following the UK's 2016 vote to leave the European Union Cinema and Brexit looks to make sense of the peculiarities and paradoxes marking this era of filmmaking At the same time as providing a contextual and analytical reading of 21st century filmmaking in Britain Archer raises critical questions about popular national cinema and how Brexit has cast both light and shadow over this body of films Central to Archer's argument is the idea that Brexit represents not just a critical moment in how we will understand future film production but also in how we will understand production of the recent past Using as a point of departure the London Olympics opening ceremony of 2012 Cinema and Brexit considers the tensions inherent in a wide range of films including Skyfall 2012 Dunkirk 2017 Their Finest 2017 Darkest Hour 2017 The Crown Netflix 2016 Paddington 2014 Paddington 2 2017 Never Let Me Go 2011 Absolutely Fabulous The Movie 2016 The Trip 2010 The Inbetweeners Movie 2011 Mr Bean's Holiday 2007 The World's End 2013 Sightseers 2012 One Day 2011 Attack the Block 2011 King Arthur Legend of the Sword 2017 and The Kid Who Would be King 2019 Archer examines the complex national narratives and representations these films expound situating his analyses within the broader commercial contexts of film production beyond Hollywood highlighting the negotiations or contradictions at play between the industrial imperatives of contemporary films and the varied circumstances in which they are made Considering some of the ways a popular and globally minded English cinema is finding means to work alongside and through the contexts of Brexit he questions what are the stakes for and possibilities of a global culturally English cinema in 2019 and beyond Film Restoration L. Enticknap, 2013-11-13 This is the first monograph length work intended to enable readers with a humanities background and the general public to understand what the processes and techniques of film restoration do and do not involve attempting to integrate systematically a discussion about related technological and cultural issues From Film Practice to Data Process Sarah Atkinson, 2017-12-20 Examines the practices of independent digital feature filmmaking in contemporary Britain To what extent have digital innovations transformed the UK film industry What new practices and processes are emerging within the contemporary UK filmmaking landscape What impact is this having upon filmmaking professionals The business of conventional feature filmmaking is like no other in that it assembles a huge company of people from a range of disciplines on a temporary basis all to engage in the collaborative endeavour of producing a unique one-off piece of work By focusing on the pivotal year of 2012 and by considering the input

of every single contributor to the process this book illuminates how this period of analogue to digital transition is impacting upon working practices cultures opportunities and structures in the industry and examines the various causative forces behind their adoptions and resistances With an in depth case study of Sally Potter s 2012 film *Ginger Rosa* and drawing upon interviews with international film industry practitioners *From Film Practice to Data Process* is a groundbreaking examination of film production in its totality in a moment of profound change

Beyond a Joke Neil Archer, 2016-10-27 At the opening ceremony for the London 2012 Olympics a global audience of nearly one billion viewers were treated to the unprecedented sight of James Bond meeting Queen Elizabeth II Shortly after the Queen hurled herself out of a helicopter her Union Jack parachute guiding her down to the Olympic Stadium What it is about moments such as these that define both a particular idea of Britishness and a particular type of British film comedy How has British cinema exploited parody as a means of negotiating its sense of identity How does this function within a globalized marketplace and in the face of dominant Hollywood cinema *Beyond a Joke* explores the myriad ways British film culture has used forms of parody from the 1960s to the present day It provides a contextual and textual analysis of a range of works that while popular have only rarely been the subject of serious academic attention from *Morecambe and Wise* to *Shaun of the Dead* to the London 2012 Olympics opening ceremony Combining the methodologies both of film history and film theory *Beyond a Joke* locates parody within specific industrial and cultural moments while also looking in detail at the aesthetics of parody as a mode Ultimately such works are shown to be a form of culturally specific film or televisual product for exporting to the global market in which Britishness shaped in self mocking and ironic terms becomes the selling point Written in an accessible style and illustrated throughout with a diverse range of examples *Beyond a Joke* is the first book to explore parody within a specifically British context and makes an invaluable contribution to the scholarship on both British and global film culture

The Comedy of

Computation Benjamin Mangrum, 2025-07-29 In this cultural history of the computer Benjamin Mangrum shows that comedy has been central to how we ve made sense of the technology s sweeping effects on public life and private experience From the first Broadway play to include a computer in the 1950s to popular films like *You ve Got Mail* and joke telling digital assistants Mangrum assembles an extensive archive of work by writers filmmakers programmers engineers and other technologists who have coupled comedy with computation Many have used comedy to make the computer seem ordinary Others have tried to stage the assimilation of computers within corporate life as a kind of comic drama Mangrum describes these and many other ways in which comedy and computation have come together as a new genre of experience the comedy of computation The modern world exalts advances in technology but we are constantly haunted by the specter of falling behind and becoming obsolete Mangrum examines how comedy serves as a stage for working out these conflicted modes of experience in writing by Dave Eggers Curtis Sittenfeld Ishmael Reed and Kurt Vonnegut Jr among others arguing that when we look at the comic forms that shape the cultures of computing we come to better understand the tensions and

contradictions internal to the social world we inhabit The History of Motion Graphics Michael Betancourt, 2020-04-20 Expand your knowledge of the aesthetics forms and meaning of motion graphics as well as the long running connections between the American avant garde film video art and TV commercials In 1960 avant garde animator and inventor John Whitney started a company called Motion Graphics Inc to make animated titles and logos His new company crystalized a relationship between avant garde film and commercial broadcast design film titles Careful discussion of historical works puts them in context allowing their reappearance in contemporary motion graphics clear This book includes a thorough examination of the history of title design from the earliest films through the present including Walter Anthony Saul Bass Maurice Binder Pablo Ferro Wayne Fitzgerald Nina Saxon and Kyle Cooper This book also covers early abstract film the Futurists Bruno Corra and Arnaldo Ginna Leopold Survage Walther Ruttmann Viking Eggeling Hans Richter Oskar Fischinger Mary Ellen Bute Len Lye and Norman McLaren and puts the work of visual music pioneers Mary Hallock Greenewalt and Thomas Wilfred in context The History of Motion Graphics is the essential textbook and general reference for understanding how and where the field of motion graphic design came from and where it s going **Anecdotal Evidence** Sean Cubitt, 2020-01-10 Ecocritique is a practice of radical questioning as essential to the critical armoury as feminism and postcolonialism have become Like them it extends beyond judgements about texts with clear ecological themes demonstrating the significance of ecocriticism for any advanced understanding of cultural forms Anecdotal method is ecocritical because it focuses on encounters concentrated moments of crisis when social ordering and ecological forces clash The anecdote s power to produce events meanings and history forms a methodological entry to aesthetic politics Anecdotal Evidence provides an outline of the need for and principles of anecdotal method a case study of eco critical themes in Hollywood films shaped by the Global Financial Crisis and a confrontation with mass image databases of social and streaming media that due to their scale and organisation appear at first immune to anecdotal method Only because the environment has a history is it possible to intervene environmentally Because we continually misrecognise the historical production of environments the first task of ecocritique is to bring our formative concept of ecology into crisis Its final task will be to achieve the good life for everything connected by the historical implication of humans in ecology and ecology in humans No politics can be undertaken in our times except through media ecocritical humanities have a key role in rethinking ecopolitics in the 21st century **We Are All Astronauts** Marc Blancher, Marc Bonner, Colleen Boyle, Martin Butler, Jörg Hartmann, Alexander Hauk, Sophia Hauk, Thomas Hensel, Matthew H. by asking his audience to identify with one of the most prominent figures in the public sphere then the space traveler At the same time Buckminster Fuller's words themselves seem to have played a significant role in further shaping the space exploring human as a symbol and an image of humankind in general The twelve contributions in this book by authors from the fields of literature music politics history the visual arts film computer games comics social sciences and media theory track the development changes and dynamics of this symbol by analyzing the various images of the astronaut and the cosmonaut as constructed throughout the different decades of space exploration from its beginning to the present day

History Today, 2001 *When Leo Logged On* Susan Ashbaine, 2025-04-27 In 1997 *Titanic* wasn't just a movie it was a cultural tsunami For one young woman stepping into the theater that day wasn't just about watching a film it was about stepping into a world that would help define the rest of her life Caught in the simultaneous tidal waves of Leomania and the rise of the internet she found herself diving deep into the world of online fan communities unknowingly embarking on a digital journey that would lead to an unbelievable encounter one that decades

later she still questions one that set her on the path that would ultimately lead to a lifelong career At the heart of this memoir is a story of forging a new path both digitally and personally in an era when technology was still untamed and online fandoms were just beginning to materialize Was she really exchanging messages with the most famous actor on the planet at the height of his stardom Or was she simply caught in one of the earliest cases of online deception When Leo Logged On is a nostalgic deeply personal and often unbelievable account of pop culture the early internet and the way a single movie a single moment can alter the course of a life forever
