**Friedrich Schleiermacher: Between Enlightenment and**

**Romanticism** Richard Crouter, 2005-12-22 Friedrich Schleiermacher's groundbreaking work in theology and philosophy was forged in the cultural ferment of Berlin at the convergence of the Enlightenment and Romanticism. The three sections of this book include illuminating sketches of Schleiermacher's relationship to contemporaries Mendelssohn, Hegel, and Kierkegaard; his work as public theologian; dialogue on Jewish emancipation; founding the University of Berlin; as well as the formation and impact of his two most famous books *On Religion*, *Speeches to its Cultured Despisers*, and *The Christian Faith*. Richard Crouter examines Schleiermacher's stance regarding the status of doctrine, Church, and political authority, and the place of theology among the academic disciplines. Dedicated to the Protestant Church in the line of Calvin, Schleiermacher was equally a man of the university who brought the highest standards of rationality, linguistic sensitivity, and a sense of history to bear upon religion.

*Encyclopedia of Martin Luther and the Reformation* Mark A. Lamport, 2017-08-31 The *Encyclopedia of Martin Luther and the Reformation* is a comprehensive global study of the life and work of Martin Luther and the movements that followed him in history and through today. Organized by a stellar advisory board of Luther and Reformation scholars, the encyclopedia features nearly five hundred entries that examine Luther's life and impact worldwide. The two-volume set provides overviews of basics such as the 95 Theses, as well as more complex topics such as reformational distinctions. Entries explore Luther's contributions to theology, sacraments, his influence on the church, and contemporaries, his character, and more. The work also discusses Luther's controversies and topics such as gender, sexuality, and race. Publishing at the five hundredth anniversary of the Reformation, this is an essential reference work for understanding the Reformation and its legacy today.

**Pastor Tillich** Samuel Andrew Shearn, 2022 *Pastor Tillich: The Justification of the Doubter* tells the story of Paul Tillich's early theological development from his student days until the end of the First World War, set against the backdrop of church politics in Wilhelmine Germany and with particular reference to his early sermons. The majority of scholarship understands Tillich primarily as a philosophical theologian. But before and during the First World War, Tillich was Pastor Tillich, studying to become a pastor, leading a Christian student group, working periodically as a pastor in Berlin churches, and preaching to soldiers. Arriving in Berlin after the war, Tillich pursued religious socialism and a theology of culture through the 1920s. But the theological basis of these programmes was what Tillich considered his main concern in 1919: the theology of doubt. Using a wealth of untranslated German sources largely unknown to English language scholarship, Pastor Tillich presents the stations of Tillich's theological development: of the notion of the justification of the doubter up to 1919. Distinguishing between Tillich's later autobiographical statements and the witness of archival sources, a significantly original contextualised account of Tillich's early life in Germany emerges. From his days as the conservative son of a conservative Lutheran pastor to the battle-worn chaplain who could even talk about faith without God, Tillich underwent

considerable change The book should therefore speak to any interested in the history of modern theology as an example of how biography and theology are intertwined **Kierkegaard and Luther** David Lawrence Coe, 2020-07-09 S ren Kierkegaard denounced nineteenth century Danish Lutheranism for exploiting Martin Luther's doctrine of justification without works as justification for an antinomian easy life Kierkegaard saw his own writing as a corrective I have wanted to prevent people in Christendom from existentially taking in vain Luther and the significance of Luther's life In 1847 Kierkegaard began an eight year reading of Luther's sermons forking through them for extracts to confirm his theological corrective rather than to comprehend the breadth of Luther's thought While he found much to laud Kierkegaard also found much to lance privately commenting that Luther was partially responsible for what he considered the problematic Lutheranism of his own day Furthermore David Coe argues Kierkegaard was unaware that his copy of Luther's church and house postils was a heavily abridged edition of extracts from those postils Therefore his appraisal of Luther begs to be investigated Kierkegaard and Luther examines the Luther sermons Kierkegaard read what he praised and criticized missed and misjudged of Luther and spotlights the concord these two Lutheran giants actually shared namely the negative yet necessary role that Christian suffering *Anfechtung* plays in Christian faith and life Historical Dictionary of Lutheranism Günther Gassmann, Mark W. Oldenburg, 2011-10-10 The Reformation of the 16th century was a complex and multifaceted political social cultural and religious process Most historians agree however that in the framework of this process it was the religious and theological efforts to reform and renew the late medieval church decadent and irrelevant in many ways that were the initiating forces that set a broad historical movement in motion Among these reforming religious and theological forces the Lutheran reform movement was the most important and influential one It was the historical impact of the theological genius of the Wittenberg professor Martin Luther 1483-1546 that profoundly changed and shaped the face of Europe and beyond Today Lutheranism has become a worldwide communion of churches that stretches from Germany to Siberia Papua New Guinea Madagascar and Surinam The second edition of the Historical Dictionary of Lutheranism presents information on major theological issues historical developments of Lutheranism worldwide Lutheran ecumenical and missionary involvement and activities worship and liturgy spirituality social ethics inter religious and Jewish relations Lutheranism and the arts theology and important representatives of Lutheranism This is done through a detailed chronology an introductory essay an appendix of Lutheran Churches a bibliography and hundreds of cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about Lutheranism

**Paulus, Then and Now** John Jesse Carey, 2002 Is The Courage to Be still a viable analysis of the human situation Does Tillich's positive sense of Eros illumine our intense discussions of human sexuality Does Postmodernism really dissolve Tillich's major assumptions Can Tillich contribute to the contemporary discussion of science and religion How does his work stand when compared to other writers on creation such as Langdon Gilkey and Sallie McFague Given the paradoxes of Tillich's life

is his ethical theory still viable In *Paulus Then and Now A Study of Paul Tillich's Theological World and the Continuing Relevance of his Work* John J Carey clarifies previously neglected foundational aspects of Tillich's thought Carey places Tillich's theological work in political social economic and scholarly context He also explains Tillich's thinking on Luther Marx history and politics and his unique perspective on the Bible and on biblical authority Having accomplished these things Carey then moves to show how Tillich's thinking can be applied to contemporary problems

**Reformation Marriage** Michael Parsons, 2011-09-15 For centuries its critics have argued that the Reformation was all about sex Beyond the caricature there is something significant in the observation The theological revolution which began in Wittenberg and engulfed so much of early modern Europe was not confined to the cloister of the university it had an immediate and palpable impact on everyday life Historians such as Steven Ozment have done much to bring this dimension of the Reformation's impact into full view Michael Parsons' important study *Reformation Marriage* continues this exploration Aware of appeals made to the teaching of the Reformers by both sides of contemporary debates about gender and relational issues Dr Parsons allow us to hear Luther and Calvin for ourselves locating their comments about family life against the background of medieval teaching on the subject and placing them in the context of each man's wider theological concerns Here is careful and accessible scholarship that challenges popular misunderstandings about the contribution of the Reformation in this area Mark D Thompson Moore Theological College Sydney Australia In the only book specifically on the subject to date Michael Parsons investigates the theology of marriage in the writings of Martin Luther and John Calvin carefully examining a daunting breadth of the Reformers' theological exegetical and homiletic works He concentrates on the role of the wife in the conjugal relationship but avoids the common polarity between the modern feminist critique of the woman's role in a Christian understanding of marriage and society and those who simply ignore the gender difference between man and woman While appreciating the questions raised by the modern liberationist and feminist scholars of the Reformers Parsons believes they have generally failed to deal with the corpus of the Reformers in a sufficiently nuanced way On the other hand unlike some scholars who want to rescue these Reformers from contemporary criticism Parsons carefully argues from wide primary evidence that neither Luther nor Calvin envisaged modifying the traditional hierarchical structure of marriage or the subordinationist conjugal relationship between man and woman He refuses to turn the Reformers into pro twenty first century thinkers much as we might like them to conform more readily to our own contemporary attitudes His interpretation therefore injects a much needed dimension of historical realism into the ongoing scholarly debate on the Reformers' social theology Rowan Strong Murdoch University Perth Western Australia

*The Dialectic of the Holy* Robert E. Meditz, 2016-09-12 This is the first published book length treatment on Paul Tillich and Judaism which is a neglected aspect of Tillich's thought It has three compelling features First pivotal biographical details show the importance of Judaism for Tillich and that he ardently opposed anti-Semitism before WWII and after the Holocaust Second Tillich's theological method is examined in key primary sources to

show how he maintains continuity between Judaism and Christianity The primary source analysis includes his 1910 and 1912 dissertations on Schelling the 1933 *The Socialist Decision* the 1952 Berlin lectures on the Jewish Question and his final public lecture on the importance of the history of religion for systematic theology Particular attention is paid to his dialectical and theological history of religion Third Tillich's positive theology of Judaism contrasts sharply with the many complex negative ways in which Judaism is portrayed in Western thought This contributes significantly to our understanding the evolving history of Christian anti Judaism

[The Paradoxical Breakthrough of Revelation](#) Uwe Carsten Scharf,2015-02-06 No detailed description available for *The Paradoxical Breakthrough of Revelation*

*Theology and the University in Nineteenth-Century Germany* Zachary Purvis,2016-07-21 *Theology and the University in Nineteenth Century Germany* examines the dual transformation of institutions and ideas that led to the emergence of theology as science the paradigmatic project of modern theology associated with Friedrich Schleiermacher Beginning with earlier educational reforms across central Europe and especially following the upheavals of the Napoleonic period an impressive list of provocateurs iconoclasts and guardians of the old faith all confronted the nature of the university the organization of knowledge and the unity of theology's various parts quandaries which together bore the collective name of theological encyclopedia Schleiermacher's remarkably influential programme pioneered the structure and content of the theological curriculum and laid the groundwork for theology's historicization Zachary Purvis offers a comprehensive investigation of Schleiermacher's programme through the era's two predominant schools speculative theology and mediating theology Purvis highlights that the endeavour ultimately collapsed in the context of Wilhelmine Germany and the Weimar Republic beset by the rise of religious studies radical disciplinary specialization a crisis of historicism and the attacks of dialectical theology In short the project represented university theology par excellence Engaging in detail with these developments Purvis weaves the story of modern university theology into the broader tapestry of German and European intellectual culture with periodic comparisons to other national contexts In doing so he Purvis presents a substantially new way to understand the relationship between theology and the university both in nineteenth century Germany and indeed beyond

**The Christian Tradition** Jaroslav Pelikan,1991-10-04 Explores the iconography dogma and liturgy of Greek Slavic and Syriac forms of Christianity

[The Transformation of Natural Philosophy](#) Sachiko Kusakawa,1995-03-09 This book proposes that Philip Melanchthon was responsible for transforming traditional university natural philosophy into a specifically Lutheran one Motivated by desire to check civil disobedience and promote a Lutheran orthodoxy he created a natural philosophy based on Aristotle Galen and Plato incorporating contemporary findings of Copernicus and Vesalius The fields of astrology anatomy botany and mathematics all constituted a natural philosophy in which Melanchthon wished to demonstrate God's Providential design in the physical world Rather than dichotomizing or synthesizing the two distinct areas of science and religion Kusakawa advocates the need to look at Natural philosophy as a discipline quite different from either modern science or religion a

contextual assessment of the implication of the Lutheran Reformation on university education particularly on natural philosophy      Social Democracy in the Making Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism      *Thinking the Faith* Douglas John

Hall, 1991-01-01 As the Christian movement nears the end of its second millennium it faces a crisis that could not have been anticipated at the close of the first thousand years or indeed by most of our own great grandparents Since the most conspicuous dimensions of the waning of Christendom have to do with material decline the decline in church membership and active attendance of Sunday services the decline in financial and physical prosperity the decline of influence in high places such analyses as there are usually belabor the obvious something drastic is happening to the churches Throughout most of its long history Christianity has not required of its adherents that they should think the faith The historical accident of its political and cultural establishment 15 centuries ago ensured that a thinking faith would be purely optional for members of the church But thought less faith which has always been a contradiction in terms is today a stage on the road to the extinction not only of Christianity itself but of whatever the architects of our civilization meant by Humanity Only a thinking faith can survive Only a thinking faith can help the world survive From the Preface      An Examined Faith Jonathan Adams, James Luther Adams, 1991-07-31 James Luther Adams has been a major force in American social ethics and liberal theology for more than half a century from his work with anti Nazi preachers in Germany in the late 1930s through his teaching at the University of Chicago and the Harvard Divinity School Here is his latest collection of inimitable essays

**Theology at the End of Culture** Russell Re Manning, 2005 This book is a reconsideration of Paul Tillich's 1886 1965 project of a theology of culture and art Concentrating on Tillich's widely neglected pre emigration writings 1910 1933 Re Manning reconstructs and defends Tillich's proposals for theology of culture as a philosophically sophisticated programme of theological engagement with culture and art On the boundary between the extremes of liberal Christian humanism and neo orthodox isolationism Tillich's project is shown to be a powerful continuation of the mediatory intentions of the Schleiermacher Troeltsch line of modern Protestant theology to overcome the intolerable gap between religion and culture

Drawing heavily on Tillich's incorporation of Schelling's positive philosophy into the deep structure of this theology Re Manning argues that Tillich's Idealistic Romantic theology of mediation provides a way through the entrenched oppositions of the divided mind of twentieth century theology to a constructive theology of cultural engagement Further this book offers an assessment of the continued relevance of Tillich's project in the situation of contemporary philosophical theology Beyond the dominant antithetical types of postmodern theology Mark C Taylor's a theology and the radical orthodoxy of John Milbank Re Manning argues for the possibility of a Tillichian postmodern theology of culture able to engage with the spiritual situation at the end of culture

*Luther* Scott H. Hendrix, 2009 Examines Martin Luther not as a reformer of the Catholic church or even the founder of the Protestant church but as a reformer of Christendom itself

**Douglas John Hall** David B. Lott, 2013-07-26 Hall's work takes the measure of Christian belief and doctrine explicitly in light of North American cultural and historical experience Hall's theological insights challenge churches to embrace change and develop genuine community uncompromised theology and honest engagement with the larger culture To a failed culture and a struggling church Hall shows the radical implications of a theology of the cross for the shape and practice of church preaching ministry ethics and eschatology

**The Cross in Our Context** Douglas John Hall, 2003 In this small gem of theological reflection North America's foremost theologian of the cross offers a profound and compelling contemplation on the relevance of the church's most fundamental confession Hall ponders what confessing Jesus as crucified means in today's context one that is postmodern pluralistic multicultural and in some respects post Christian A digest of his monumental trilogy this book lays out in brief compass the heart of Hall's theology of the cross contrasting it sharply with the theology of established Christianity showing how it reframes classical Christology and soteriology and drawing the implications for what it means to be human for Christian ethics and for the church
