M. Datta, Biswendu Bhattacharjee, 2014-01-01 Northeast India is one of the richest in biological values as geographical gateway for much of India's flora and fauna being located at the confluence of Indian Indo Malayan and Indo Chinese biogeographic regions meeting place of the Himalayan Mountains and peninsular India The immense variety of the climatic edaphic and altitudinal variations in Northeast have resulted in great range of ecological habitats lowland highland transition zones supporting the highest diversity of biomass or ecological communities supporting extremely high species diversity While this immense diversity has fascinated mankind towards its exploration it has also thrown tough challenges in effectively highlighting by means of studies surveys research etc This edited volume is an attempt to humbly capture the vastness and greatness of this land of wonders through chapters depicting varied aspects and to enrich the horizon of knowledge and unravel a roadmap to utilise the available diversity for the sustainable development

Aquaculture and Conservation of Inland Coldwater Fishes Debajit Sarma, Suresh Chandra, Sumanta Kumar Mallik, 2024-05-30 This book provides the latest information on trans Himalayan Hindu Kush Region HKR fisheries including the Indian Himalayan Region IHR as well as the historical context of its sustainable development for improving livelihood and nutritional security The book serves as an important document to provide knowledge and information about the major concerns of environmental and anthropogenic factors that have impacted the population of certain important fishes in the ecosystem and the strategies and policies required for the conservation of these important groups of fishes viz Mahseer snow trout minor carp catfishes etc The chapters describe the information to the readers on potential cold water and cool water fish species suitable for large scale farming and propagation addressing the issues of diseases nutrigenomics and nanobiotechnology This book also addresses the prospects and potential of recreational fishing in India and the scope for its improvement to generate more employment and income citing the success stories and primary information from reputed anglers Finally the book also elucidates a comprehensive yet representative description of many challenges associated with

inland coldwater cool water fisheries and aquaculture in HKR IHR and its way forward **Research Trends on Fish & Fisheries in Mountain Waters of Eastern Himalayan Region** Debangshu Narayan Das, Santoshkumar Abujam, Achom Darshan Singh, 2019-05-10 This book contains a total of 25 unpublished research articles In this edition we have kept parity with each other s outcomes concisely in a unique style to depict the trends of research in the mountain fishery sector We have also appended a list of contributors at the end of the book The strategies observed in fisheries and aquaculture developments in the mountain waters clearly reveal that the on going dimensions are nothing but broad ecosystem based approached where both subsistence and commercial expansion of the systems could be possible The research trend also directs that several fishery components like ornamental fisheries recreational fisheries integrated fish farming freshwater crab fishery shellfish aquaculture etc exist They may also be strengthened in mountain waters to improve the economic status of the mountain regions Thus for exploiting huge mountain aqua resources Arunachal Pradesh targets the ecosystem based approach of raising native mahseers like Tor tor Tor putitora Neolissochilus hexagonolepis and exotic species of trout in its mountain waters as a preliminary endeavour Caatinga José Maria Cardoso da Silva, Inara R. Leal, Marcelo

Tabarelli, 2018-01-09 This book provides in depth information on Caatinga s geographical boundaries and ecological systems including plants insects fishes amphibians reptiles birds and mammals It also discusses the major threats to the region s socio ecological systems and includes chapters on climate change and fast and large scale land use changes as well as slow and small scale changes also known as chronic human disturbances Subsequent chapters address sustainable agriculture conservation systems and sustainable development Lastly the book proposes 10 major actions that could enable the transformation of Caatinga into a place where people and nature can thrive together I consider this book an excellent example of how scientists worldwide can mobilize their efforts to propose sound solutions for one of the biggest challenges of modern times i e how to protect the world s natural ecosystems while improving human well being I am sure this book will inspire more research and conservation action in the region and perhaps encourage other groups of scientists to produce similar syntheses about their regions Russell Mittermeier Ph D Executive Vice Chair Conservation International **A.I.D.**
