Rodríguez,2018-06-13 This book examines the different means through which Spain has revisited its ex colony the Philippines since 2000 Focusing on several major exhibitions organised in the period 1998 2017 the poetics narratives and meaning and politics institutional power of Spanish representations of the Philippines are critically examined Even though Spain s intention was to offer a fresh and updated look at the Philippines through the events organised there was also a tendency to

refer to and recreate a colonial past posing important questions about the continuity of conceptions concerning the old Spanish Empire in the 21st Century. Díaz Rodríguez further analyses Spanish cultural policy concerned with cultural promotion outside Spain and in particular in the Philippines. He considers the Spanish official approach to cultural exchange in the Philippines and the consequences of particular intercultural events supported by Spanish institutions in the Philippines. This is evidenced by unique data gathered from a number of interviews conducted by the author with Spanish and Filipino artists and cultural workers. His conclusions contribute to the understanding of the transnational movement of culture including cultural representation, arts funding and the links between politics and the arts.

British Women and the Spanish Civil War Angela Jackson, 2003-09-02 Through oral and written narratives this book examines the interaction between women and the war in Spain: their motivation, the distinctive form of their involvement and the effect of the war on their individual lives. These themes are related to wider issues such as the nature of memory and the role of women within the public sphere. The extent to which women engaged with this cause surpasses by far other instances of female mobilization in peace time Britain. Such a phenomenon therefore can offer lessons to those who would wish to encourage a greater degree of interest amongst women in political activities today.

Highlights of Spanish Astrophysics IV Sociedad Española De Astronomía. Scientific Meeting, 2007-07-23 This volume documents the contributions presented at the Seventh Scientific Meeting of the Spanish Astronomical Society, Sociedad Española de Astronomía (SEA). The event brought together 301 participants who presented 161 contributed talks and 120 posters, the greatest numbers up to now. The fact that most exciting items of the current astronomical research were addressed in the meeting proves the good health of the SEA, a consolidated organization founded fifteen years ago in Barcelona. Two plenary sessions of the meeting were devoted to the approved entrance of Spain as a full member of the European Southern Observatory (ESO) and to the imminent first light of the greatest telescope in the world, the GTC (Gran Telescopio de Canarias), milestones that will certainly lead the Spanish Astronomy in the next future.
