in the Age of Mozart and Beethoven Martin Nedbal, 2016-09-13 This book explores how the Enlightenment aesthetics of theater as a moral institution influenced cultural politics and operatic developments in Vienna between the mid eighteenth and early nineteenth centuries Moralistic viewpoints were particularly important in eighteenth century debates about German national theater In Vienna the idea that vernacular theater should cultivate the moral sensibilities of its German speaking audiences became prominent during the reign of Empress Maria Theresa when advocates of German plays and operas attempted to deflect the imperial government from supporting exclusively French and Italian theatrical performances Morality continued to be a dominant aspect of Viennese operatic culture in the following decades as critics state officials librettists and composers including Gluck Mozart and Beethoven attempted to establish and define German national opera Viennese concepts of operatic didacticism and national identity in theater further transformed in response to the crisis of Emperor Joseph II's reform movement the revolutionary ideas spreading from France and the war efforts in facing Napoleonic aggression The imperial government promoted good morals in theatrical performances through the institution of theater censorship and German opera authors cultivated intensely didactic works such as Die Zauberflöte and Fidelio that eventually became the cornerstones for later developments of German culture Theology, Music, and Modernity

Jeremy Begbie, Daniel K L Chua, Markus Rathey, 2021-02-02 Theology Music and Modernity addresses the question how can the study of music contribute to a theological reading of modernity It has grown out of the conviction that music has often been ignored in narrations of modernity's theological struggles Featuring contributions from an international team of distinguished theologians musicologists and music theorists the volume shows how music and discourse about music has remarkable powers to bring to light the theological currents that have shaped modern culture It focuses on the concept of freedom concentrating on the years 1740-1850 a period when freedom especially religious and political freedom became a burning matter of concern in virtually every stratum of Western society The collection is divided into four sections each

section focusing on a key phenomenon of this period the rise of the concept of revolutionary freedom the move of music from church to concert hall the cry for eschatological justice in the work of black hymn writer and church leader Richard Allen and the often fierce tensions between music and language There is a particular concern to draw on a distinctively Scriptural imagination especially the theme of New Creation in order to elicit the key issues at stake and to suggest constructive ways forward for a contemporary Christian theological engagement with the legacies of modernity today

Unpublished Fragments from the Period of Dawn (Winter 1879/80-Spring 1881) Friedrich Nietzsche, 2023-12-19 This volume provides the first English translation of Nietzsche's unpublished notes from late 1879 to early 1881 the period in which he authored Dawn the second book in the trilogy that began with Human All Too Human and concluded with The Joyful Science In these fragments we see Nietzsche developing the conceptual triad of morals customs and ethics which undergirds his critique of morality as the reification into law or dogma of conceptions of good and evil Here Nietzsche assesses Christianity's role in the determination of moral values as the highest values and of redemption as the representation of humanity's highest aspirations These notes show the resulting tension between Nietzsche's contrasting thoughts on modernity which he critiques as an unrecognized aftereffect of the Christian worldview but also views as the springboard to the dawn of a transformed humanity and culture The fragments further allow readers insight into Nietzsche's continuous internal debate with exemplary figures in his own life and culture Napoleon Schopenhauer and Wagner who represented challenges to hitherto existing morals and culture challenges that remained exemplary for Nietzsche precisely in their failure Presented in Nietzsche's aphoristic style Dawn is a book that must be read between the lines and these fragments are an essential aid to students and scholars seeking to probe this work and its partners
