Facing Evil and The Guardian Speaks
Peter Selg, 2024-01-02 We the people of the fifth post Atlantean period we have to resolve to the greatest extent possible and in a way that is filled with the power of life the problem that one can call the problem of evil I ask you to think about this in some depth The fact that evil which will approach the human being of the fifth post Atlantean period in every possible form and will do this in such a way that the human being will have to resolve the very nature and being of evil scientifically will have to come to grips in all his or her loving and hating with everything that stems from evil and battle and wrestle with evil's resistance to impulses of the will all this belongs to the task of the fifth post Atlantean period Rudolf Steiner Goethe's Faust in the Light of Anthroposophy p 85 The two essays published here were written on the basis of lectures given to members of the School for Spiritual Science Their content therefore deals directly with the path of inner development outlined in the lessons of the First Class of the School In the first essay Selg address the necessary confrontation with the powers of evil as they appear in the Class Lessons and in our time more broadly Only through confronting and overcoming these powers are we able to find the path to our true humanity The second essay deals with the figure of the Guardian of the Threshold as a Michaelic teacher and guide along the soul's path into the spiritual world This figure Selg argues is far too little understood in our time He is a spiritual being of great significance who offers help to all earnest seekers This book represents an ongoing effort on the part of Peter Selg and the leaders of the General Anthroposophical Section at the Goetheanum to deepen and internalize the work with the Class Lessons for all members of the School for Spiritual Science This book is comprised of translations of texts originally published in German by Verlag des Ita Wegman Instituts Die Auseinandersetzung mit dem Bösen Zur Schulung der Ersten Klasse Hochschulvorträge Band 1 2019 Die Sprache des Hörsers Zur Schulung der Ersten Klasse Hochschulvorträge Band 2 2020

The Arts and Their Mission Rudolf Steiner, 2023-10-03 8 lectures Oslo and Dornach May 18 June 9 1923 CW 276 Having remained stationary we can no longer see the spiritual in the physical we consider only the physical as such This is materialism A current has entered human evolution that is if I may use the expression hostile to development Humanity shuns the coining of new concepts it prefers to continue on with the old We must overcome this hostility toward development When we instead become friends of development then we will acquire a quite natural relationship to anthroposophical spiritual development and pass over from antiquated needs to the truly modern need of humanity namely to raise ourselves to the spiritual Rudolf Steiner May 27 1923 In these inspired lectures from 1923 Rudolf Steiner weaves the different art forms including painting architecture and music into a grand tapestry of

human experience and expression In the process he reveals how each artistic medium contains its own mysteries how architecture arises out of the soul's need to transition from the spatial to the spiritual world after death how the art of costuming arises out of the soul's pre earthly experiences in the world of spirit and is thus an expression in color and form of the soul's original nature how sculpture emerges from an inner sense for the creative formative forces of the etheric body how painting can overcome spatial perspective through a new relationship to the world of colors through color perspective how music can receive a new direction from the depth dimension of the single tone which expands into melody and harmony how poetry can be deepened through an inner grasp of the qualities inherent in recitation and declamation through creative speech and how the new art of eurythmy arising out of the movement activity of the human archetype stands midway between mime indicative gesture and dance ecstatic gesture as an art of expressive gesture Thus Steiner outlines a path toward the reunion of that ancient trinity science truth art beauty and religion goodness It was in the womb of the ancient mysteries where knowledge was not only a matter for the mind but was carried over into religious rites that the arts had their origin Today we learn facts and figures and believe we have understood reality To an ancient humanity this intellectual mode of understanding would have seemed lifeless and sterile In the ancient world knowledge became lived artistic experience and religious deed Modern humanity must once again give wings to knowledge must seek a deepening of the cognitive life through transformative artistic feeling if we are to find our way out of our world crisis which is at its core a crisis of the soul This remarkable volume packed with profound and far reaching insights bears within it the seeds for the renewal of the arts in our time Includes four color plates of Rudolf Steiner's blackboard drawings This book is a translation of *Das Künstlerische in seiner Weltmission* 4th ed Rudolf Steiner Verlag 2002 GA 276 Cover Image Bright Noonday by David Newbatt from Goethe *The Fairy Tale of the Green Snake and the Beautiful Lily* Wynstones Press 2006 *Bio-dynamics* ,2002
