From Margin to Center Julie H. Reiss, 2001 This is the first book length study of installation art Julie Reiss concentrates on some of the central figures in its emergence including artists critics and curators **Alternative Art, New York, 1965-1985** Julie Ault, Social Text Collective, Drawing Center (New York, N.Y.), 2002 A sweeping history of the New York art scene during the 1960s 1970s and 1980s reveals a powerful alternative art culture that profoundly influenced the mainstream Simultaneous Fine Arts **Installation art as experience of self, in space and time** Christine Vial Kayser, Sylvie Coëllier, 2021-09-07 Installation art has modified our relationship to art for over fifty years by soliciting the whole body demonstrating its sensitivity to space surroundings and the living beings with which it is constantly interacting This book analyses this modification of perception through phenomenological approaches convoking Husserl Heidegger Merleau Ponty as well as Levinas Depraz and the neuroscientist Varela This theoretical framework is implicit in the various case studies which revisit works that have become classic or emblematic by Carl Andre Bruce Nauman Dan Graham inaugural experiments that remain available only through photographic and written archives by Jean Michel Sanejouand Philippe Parreno as well as the influence of the mode in the realm of music The book also examines the transference of this Western form to Asia revealing how it resonates with ancient Asian representations and practices often associated with the spiritual The distinct chapters underpin the role of space as a metaframe the common ground of the various installations While the nature and agency of space varies from social historical space leisurely or political space inner psychological space to shared empty space these installations reveal the chiasm between the individual body and the outside space The chapters bear testimony of the process in which the physical journey of the spectator's body within a material at times invisible space and its structural components takes place in time as a succession of micro experiences Installation art as experience of self in space and time adds to the existing literature of art history a level of theoretical experiential and transcultural analysis that will make this inquiry relevant to both university students and independent researchers in the academic fields of philosophy psychology aesthetics art theory and history religious and Asian studies Installation Art between Image and Stage Anne Ring Petersen, 2015-09-21 Installationskunsten har gennem sin sejrsgang verden over og er her i det 21. århundrede en betydelig og anerkendt bestanddel af samtidskunsten Med påvirkning fra og udveksling mellem billedkunst på den ene side og performancekunst på den anden befinder installationskunst sig som bogens titel viser netop i feltet mellem billede og scene I Installation Art Between Image and Stage undersøger Anne Ring Petersen grundstenene for en af nutidens mest udbredte kunstformer Installationer er ligesom skulpturer tredimensionelle formationer eller billeddannelse men i modsætning til skulpturen er installationen karakteriseret ved at være formet af rum eller rumlige scenografier som skaber betydning og sansoplevelser gennem sit billedsprog Som resultat af dette er installationer ofte stort anlagte kunstværker som beskueren kan gå ind i og de lever dermed til fulde op til nutidens krav om spektakulære estetiske iscenesatte events og kulturoplevelser der

taler til sanserne Gennem grundige analyser af værker af kunstnere som Bruce Nauman Olafur Eliasson Jeppe Hein Mona  
 Hatoum Pipilotti Rist og Ilya Kabakov som bagt på siges der i denne bog svar på hvad en installation egentlig er hvilke  
 virkemidler den bruger hvordan installationskunstens opståen kan forklares i et kulturhistorisk perspektiv og meget mere Også  
 installationskunstens rumlige tidsmæssige og diskursive aspekter såvel som dens receptions æstetik der sættes ind i en  
 overordnet kunst og kulturhistorisk ramme undersøger Installation Art Between Image and Stage er et nyttigt værk for alle der  
 ønsker at forstå denne mangefacetterede kunstforms konceptuelle fundament Anne Ring Petersen er ph.d. er lektor ved Institut  
 for Kunst og Kulturvidenskab Københavns Universitet Har i 2009 udgivet Installationskunsten mellem billede og scene og er  
 redaktør af Contemporary Painting in Context 2010 Despite its large and growing popularity to say nothing of its near  
 ubiquity in the world's art scenes and international exhibitions of contemporary art installation art remains a form whose  
 artistic vocabulary and conceptual basis have rarely been subjected to thorough critical examination In Installation Art  
 Between Image and Stage Anne Ring Petersen aims to change that She begins by exploring how installation art developed  
 into an interdisciplinary genre in the 1960s and how its intertwining of the visual and the performative has acted as a  
 catalyst for the generation of new artistic phenomena She investigates how it became one of today's most widely used art  
 forms increasingly expanding into consumer popular and urban cultures where installation's often spectacular appearance  
 ensures that it meets contemporary demands for sense provoking and immersive cultural experiences The main trajectory of  
 the book is directed by a movement aimed at addressing a series of basic questions that get at the heart of what installation  
 art is and how it is defined How does installation structure time space and representation How does it address and engage its  
 viewers And how does it draw in the surrounding world to become part of the work Featuring the work of such well known  
 artists as Bruce Nauman Pipilotti Rist Ilya Kabakov and many others this book breaks crucial new ground in understanding  
 the conceptual underpinnings of this multifaceted art form Anne Ring Petersen is associate professor in the Department of  
 Arts and Cultural Studies at the University of Copenhagen and the editor of Contemporary Painting in Context **From**

*The Invention of Creativity* Andreas Reckwitz, 2017-05-30 Contemporary society has seen an unprecedented rise in both the demand and the desire to be creative to bring something new into the world Once the reserve of artistic subcultures creativity has now become a universal model for culture and an imperative in many parts of society In this new book cultural sociologist Andreas Reckwitz investigates how the ideal of creativity has grown into a major social force from the art of the avant garde and postmodernism to the creative industries and the innovation economy the psychology of creativity and self growth the media representation of creative stars and the urban design of creative cities Where creativity is often assumed to be a force for good Reckwitz looks critically at how this imperative has developed from the 1970s to the present day Though we may well perceive creativity as the realization of some natural and innate potential within us it has rather to be understood within the structures of a very specific culture of the new in late modern society *The Invention of Creativity* is a bold and refreshing counter to conventional wisdom that shows how our age is defined by radical and restrictive processes of social aestheticization It will be of great interest to those working in a variety of disciplines from

cultural and social theory to art history and aesthetics

**How Folklore Shaped Modern Art** Wes Hill, 2015-11-19 Since the 1990s artists and art writers around the world have increasingly undermined the essentialism associated with notions of critical practice We can see this manifesting in the renewed relevance of what were previously considered outsider art practices the emphasis on first person accounts of identity over critical theory and the proliferation of exhibitions that refuse to distinguish between art and the productions of culture more generally How Folklore Shaped Modern Art A Post Critical History of Aesthetics underscores how the cultural traditions belief systems and performed exchanges that were once integral to the folklore discipline are now central to contemporary art s post critical turn This shift is considered here as less a direct confrontation of critical procedures than a symptom of art s inclusive ideals overturning the historical separation of fine art from those uncritical forms located in material and commercial culture In a global context aesthetics is now just one of numerous traditions informing our encounters with visual culture today symptomatic of the pull towards an impossibly pluralistic image of art that reflects the irreducible conditions of identity
