From Cooperation To Complicity Degussa In The Third Reich:

From Cooperation to Complicity Peter Hayes, 2004-09-20 Publisher Description **From Cooperation to Complicity** Peter Hayes, 2007-07-23 The Degussa corporation played a pivotal role in the processing of plundered precious metals in Nazi occupied Europe and controlled the production and distribution of Zyklon B the infamous pesticide used to gas the inmates of Auschwitz and Majdanek concentration camps during the Third Reich Peter Hayes traces the extent of the corporation's involvement in these and other Nazi war crimes including the Aryanization of Jewish owned property and the exploitation of forced labor and delineates the motivations for such conduct From Cooperation to Complicity Peter Hayes, 2007-07-23 The Degussa corporation played a pivotal role in the processing of plundered precious metals in Nazi occupied Europe and controlled the production and distribution of Zyklon B the infamous pesticide used to gas the inmates of Auschwitz and Majdanek concentration camps during the Third Reich Peter Hayes traces the extent of the corporation's involvement in these and other Nazi war crimes including the Aryanization of Jewish owned property and the exploitation of forced labor and delineates the motivations for such conduct **The Holocaust, Corporations, and the Law** Leora Yedida Bilsky, 2025-04-14 The Holocaust Corporations and the Law explores the challenge posed by the Holocaust to legal and political thought by examining issues raised by the restitution class action suits brought against Swiss banks and German corporations before American federal courts in the 1990s Although the suits were settled for unprecedented amounts of money the defendants did not formally assume any legal responsibility Thus the lawsuits were bitterly criticized by lawyers for betraying justice and by historians for distorting history Leora Bilsky argues class action litigation and settlement offer a mode of accountability well suited to addressing the bureaucratic nature of business involvement in atrocities Prior to these lawsuits legal treatment of the Holocaust was dominated by criminal law and its individualistic assumptions consistently failing to relate to the structural aspects of Nazi crimes Engaging critically with contemporary debates about corporate responsibility for human rights violations and assumptions about law she argues for the need to design processes that make multinational corporations accountable and examines the implications for transitional justice the relationship between law and history and for community and representation in a post national world Her novel interpretation of the restitution lawsuits not only adds an important dimension to the study of Holocaust trials but also makes an innovative contribution to broader and pressing contemporary legal and political debates In an era when corporations are ever more powerful and international Bilsky's arguments will attract attention beyond those interested in the Holocaust and its long shadow Business and Industry in Nazi Germany Francis R. The Perfect Nazi Martin Davidson,2012-03-06 What if you found out that your grandfather had been a Nazi SS officer This is the confession that Martin Davidson received from his mother upon the death of demanding magnetic grandfather Bruno Langbehn The Perfect Nazi is Davidson s exploration of his family s darkest secret As Davidson dove into his research drawing on an astonishing cache of personal documents as well as eyewitness accounts of this historical period he learned that Bruno s story moved lock step in time with the rise and fall of the Nazi party from his upbringing in a fiercely military environment amid the aftermath of World War I to his joining the Nazi party in 1926 at the age of nineteen more than six years before Hitler came to power to his postwar involvement with the Werewolves the gang of SS stalwarts who vowed to keep on after the defeat of Nazism Davidson realized that his grandfather was in many ways the perfect Nazi his individual experiences emblematic of the generation of Germans who would plunge the world into such darkness But he also realized that every fact he uncovered was a terrible truth he himself would have to come to terms with

Big Business and Dictatorships in Latin America Victoria Basualdo,Hartmut Berghoff,Marcelo Bucheli,2020-12-04 This edited volume studies the relationship between big business and the Latin American dictatorial regimes during the Cold War The first section provides a general background about the contemporary history of business corporations and dictatorships in the

twentieth century at the international level The second section comprises chapters that analyze five national cases Argentina Brazil Chile Uruguay and Peru as well as a comparative analysis of the banking sector in the Southern Cone Argentina Brazil Chile and Uruguay The third section presents six case studies of large companies in Argentina Brazil Chile Colombia and Central America This book is crucial reading because it provides the first comprehensive analysis of a key yet understudied topic in Cold War history in Latin America The Holocaust Paul R. Bartrop, Michael Dickerman, 2017-09-15 This four volume set provides reference entries primary documents and personal accounts from individuals who lived through the Holocaust that allow readers to better understand the cultural political and economic motivations that spurred the Final Solution The Holocaust that occurred during World War II remains one of the deadliest genocides in human history with an estimated two thirds of the 9 million Jews in Europe at the time being killed as a result of the policies of Adolf Hitler and Nazi Germany The Holocaust An Encyclopedia and Document Collection provides students with an all encompassing resource for learning about this tragic event a four book collection that provides detailed information as well as multidisciplinary perspectives that will serve as a gateway to meaningful discussion and further research The first two volumes present reference entries on significant individuals of the Holocaust both victims and perpetrators anti Semitic ideology and annihilationist policies advocated by the Nazi regime giving readers insight into the social political cultural military and economic aspects of the Holocaust while enabling them to better understand the Final Solution in Europe during World War II and its lasting legacy The third volume of the set presents memoirs and personal narratives that describe in their own words the experiences of survivors and resisters who lived through the chaos and horror of the Final Solution The last volume consists of primary documents including government decrees and military orders propaganda in the form of newspapers and pamphlets war crime trial transcripts and other items that provide a direct look at the causes and consequences of the Holocaust under the Nazi regime By examining these primary sources users can have a deeper understanding of the ideas and policies used by perpetrators to justify their actions in the annihilation of the Jews of Europe The set not only provides an invaluable and comprehensive research tool on the Holocaust but also offers historical perspective and examination of the origins of the discontent and cultural resentment that resulted in the Holocaust subject matter that remains highly relevant to key problems facing human society in the 21st century and beyond **The Oxford Handbook of Holocaust Studies** Peter Hayes, John K. Roth, 2012-11-22 Few scholarly fields have developed in recent decades as rapidly and vigorously as Holocaust Studies At the start of the twenty first century the persecution and murder perpetrated by the Nazi regime have become the subjects of an enormous literature in multiple academic disciplines and a touchstone of public and intellectual discourse in such diverse fields as politics ethics and religion Forward looking and multidisciplinary this handbook draws on the work of an international team of forty seven outstanding scholars The handbook is thematically divided into five broad sections Part One Enablers concentrates on the broad and necessary contextual

conditions for the Holocaust Part Two Protagonists concentrates on the principal persons and groups involved in the Holocaust and attempts to disaggregate the conventional interpretive categories of perpetrator victim and bystander It examines the agency of the Nazi leaders and killers and of those involved in resisting and surviving the assault Part Three Settings concentrates on the particular places sites and physical circumstances where the actions of the Holocaust s protagonists and the forms of persecution were literally grounded Part Four Representations engages complex questions about how the Holocaust can and should be grasped and what meaning or lack of meaning might be attributed to events through historical analysis interpretation of texts artistic creation and criticism and philosophical and religious reflection Part Five Aftereffects explores the Holocaust s impact on politics and ethics education and religion national identities and international relations the prospects for genocide prevention and the defense of human rights *The Last Gasp* Scott Christianson,2010-07-12 The Last Gasp takes us to the dark side of human history in the first full chronicle of the gas chamber in the United States In page turning detail award winning writer Scott Christianson tells a dreadful story that is full of surprising and provocative new findings First constructed in Nevada in 1924 the gas chamber a method of killing sealed off and removed from the sight and hearing of witnesses was originally touted as a humane method of execution Delving into science war industry medicine law and politics Christianson overturns this mythology for good He exposes the sinister links between corporations looking for profit the military and the first uses of the gas chamber after World War I He explores little known connections between the gas chamber and the eugenics movement Perhaps most controversially he has unearthed new evidence about American and German collaboration in the production and lethal use of hydrogen cyanide and about Hitler s adoption of gas chamber technology developed in the United States More than a book about the death penalty this compelling history ultimately reveals much about America s values and power structures in the twentieth century

Dictionary of Antisemitism from the Earliest Times to the Present Robert Michael,Philip Rosen,2007 Containing 2 500 entries this Dictionary includes entries that cover ancient medieval and modern antisemitism pagan Christian and Muslim antisemitism religious economic psychosocial racial cultural and political antisemitism A comprehensive scholarly introduction discusses the definitions causes and varieties of antisemitism From Weimar to Hitler Hermann Beck,Larry Eugene Jones,2018-11-29 Though often depicted as a rapid political transformation the Nazi seizure of power was in fact a process that extended from the appointment of the Papen cabinet in the early summer of 1932 through the R hm blood purge two years later Across fourteen rigorous and carefully researched chapters From Weimar to Hitler offers a compelling collective investigation of this critical period in modern German history Each case study presents new empirical research on the crisis of Weimar democracy the establishment of the Nazi dictatorship and Hitler s consolidation of power Together they provide multiple perspectives on the extent to which the triumph of Nazism was historically predetermined or the product of human miscalculation and intent **The Holocaust** Norman J.W. Goda,2022-05-02 The second edition of this book frames

the Holocaust as a catastrophe emerging from varied international responses to the Jewish question during an age of global crisis and war The chapters are arranged chronologically thematically and geographically reflecting how persecution responses and experience varied over time and place conveying a sense of the Holocaust's complexity Fully updated this edition incorporates the past decade's scholarship concerning perpetrators victims and bystanders from political national and gendered perspectives It also frames the Holocaust within the broader genocide perspective and within current debates on memory politics and causation Global in approach and supported by images maps diverse voices and suggestions for further reading this is the ideal textbook for students of this catastrophic period in world history **Nazi Steel** Marcus O

Jones,2012-07-15 This study explores an exemplary instance of the close interaction between private and official interests in planning and executing the programs of the Nazi government namely the acquisition in 1941 of the Rombach steel works by the German industrialist Friedrich Flick The industrial concern headed by Flick was among the largest and most influential steel producers and manufacturers of war material in the German economy during World War II Its activities in the occupied territories of western Europe centered on control of the Rombach works a large operation established in Lorraine in the late nineteenth century by German industrialists and expropriated by France along with the entire region in the aftermath of the First World War After successful military operations against France in 1940 the Nazi regime actively sought the collusion of the German industrial community in mobilizing the productive capacity of occupied territories for the war effort and numerous private German businessmen advanced claims on the lucrative assets in Lorraine and adjacent regions In his bid to gain control of the Rombach works Flick was successful for reasons specific to his position within the Nazi German economic system and the character of his interests This account of his activities then serves as a fine example of Nazi economic and occupation policy and its response to party business and bureaucratic influences **Nazis All The Way Down** Katharina

Gallant,Zachary Gallant,2023-11-06 In Deutschland ist das alltägliche Leben einschließlich Unternehmen Verbänden Kommunalverwaltungen Parks Schulen Kirchen und Medien immer noch von den Nazi Verbrechen belastet die im öffentlichen Bewusstsein nicht anerkannt werden Das sagen Zachary und Katharina F Gallant die die derzeitige deutsche Praxis des Gedenkens an die Verbrechen des Nationalsozialismus kritisieren weil sie die Stimmen und die Handlungsfähigkeit der Opfergruppen ausgeklammert In ihrem Buch fordern sie eine Entnazifizierung 2 0 die darin besteht das Vermögen der deutschen Unternehmen und Familien zu enteignen die direkt mit den Naziverbrechen in Verbindung gebracht werden können um dieses enteignete Kapital zur Bewältigung der dringendsten Katastrophen unserer Zeit einzusetzen Histories of

the Holocaust Dan Stone,2010-06-17 The Holocaust is one of the most intensively studied phenomena in modern history The volume of writing that fuels the numerous debates about it is overwhelming in quantity and diversity Even those who have dedicated their professional lives to understanding the Holocaust cannot assimilate it all There is then an urgent need to synthesize and evaluate the complex historiography on the Holocaust exploring the major themes and debates relating to it

and drawing widely on the findings of a great deal of research Concentrating on the work of the last two decades Histories of the Holocaust examines the Final Solution as a European project the decision making process perpetrator research plunder and collaboration regional studies ghettos camps race science antisemitic ideology and recent debates concerning modernity organization theory colonialism genocide studies and cultural history Research on victims is discussed but Stone focuses more closely on perpetrators reflecting trends within the historiography as well as his own view that in order to understand Nazi genocide the emphasis must be on the culture of the perpetrators The book is not a history of the history of the Holocaust offering simply a description of developments in historiography Stone critically analyses the literature discerning major themes and trends and assessing the achievements and shortcomings of the various approaches He demonstrates that there never can or should be a single history of the Holocaust and facilitates an understanding of the genocide of the Jews from a multiplicity of angles An understanding of how the Holocaust could have happened can only be achieved by recourse to histories of the Holocaust detailed day by day accounts of high level decision making long term narratives of the Holocaust s relationship to European histories of colonialism and warfare micro historical studies of Jewish life before during and after Nazi occupation and cultural analyses of Nazi fantasies and fears

Advancing Holocaust Studies Carol Rittner, John K. Roth, 2020-07-22 The growing field of Holocaust studies confronts a world wracked by antisemitism immigration and refugee crises human rights abuses mass atrocity crimes threats of nuclear war the COVID 19 coronavirus disease 2019 pandemic and environmental degradation What does it mean to advance Holocaust studies what are learning and teaching about the Holocaust for in such dire straits Vast resources support study and memorialization of the Holocaust What assumptions govern that investment What are its major successes and failures challenges and prospects Across thirteen chapters Advancing Holocaust Studies shows how leading scholars grapple with those tough questions
